(d) other U.S. department of defense personnel and other federal agency civilian and contract employees not defined as active duty members of the uniformed services.

ARTICLE IV
EDUCATIONAL RECORDS AND ENROLLMENT

(1) In the event that official education records cannot be released to the parents for the purpose of transfer, the custodian of the records in the sending state shall prepare and furnish to the parent a complete set of unofficial educational records from a local education facility, as defined by federal law, containing uniform information as determined by the Interstate Commission. Upon receipt of the unofficial education records by a school in the receiving state, the school shall enroll and appropriately place the student based on the information provided in the unofficial records, pending validation by the official records, as quickly as possible.

(2) Simultaneous with the enrollment and conditional placement of the student, the school in the receiving state shall request the student's official education record from the school in the sending state. Upon receipt of this request, the school in the sending state shall process and furnish the official education records to the school in the receiving state within 10 days or within a time that is reasonably determined under the rules promulgated by the Interstate Commission.

(3) Receiving states shall give 30 days from the date of enrollment or a time as is reasonably determined under the rules promulgated by the Interstate Commission for students to obtain any immunizations required by the receiving state. For a series of immunizations, initial vaccinations must be obtained within 30 days or within a time that is reasonably determined under the rules promulgated by the Interstate Commission.

(4) Students must be allowed to continue their enrollment at grade level in the receiving state commensurate with their grade level, including kindergarten, from a local education agency in the sending state at the time of transition regardless of age. A student transferring after the start of the school year in the receiving state shall enter the school in the receiving state on the student's validated level from a school in the sending state.

ARTICLE V
PLACEMENT AND ATTENDANCE

(1) When the student transfers before or during the school year, the receiving state school shall initially honor placement of the student in educational courses based on the student's enrollment in the sending state school, educational assessments conducted at the school in the sending state, or both, if the courses are offered and space is available. Course placement includes but is not limited to honors, international baccalaureate, advanced placement, and

vocational, technical, and career pathways courses. Continuing the student's academic program from the previous school and promoting placement in academically and career challenging courses should be paramount when considering placement. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement and continued enrollment of the student in the courses.

(2) The receiving state school shall initially honor placement of the student in educational programs based on space availability and current educational assessments conducted at the school in the sending state or participation or placement in like programs in the sending state. Such programs include but are not limited to gifted and talented programs. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student. This section does not require a local education agency to create programs or offer services that were not in place prior to the enrollment of the student unless the programs or services are required by federal or state law.

(3) (a) In compliance with the federal requirements of the Individuals with Disabilities Education Act, 20 U.S.C. 1400, et seq., the receiving state shall initially provide comparable services to a student with disabilities based on the student's current individualized education program.

(b) In compliance with the requirements of section 504 of the Rehabilitation Act of 1973, 29 U.S.C. 794, and with Title II of the Americans with Disabilities Act of 1990, 42 U.S.C. 12131 through 12165, the receiving state shall make reasonable accommodations and modifications to address the needs of incoming students with disabilities, subject to an existing 504 or Title II plan, to provide the student with equal access to education. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

(4) Local education agency administrative officials have flexibility in waiving course or program prerequisites or other preconditions for placement in courses or programs offered under the jurisdiction of the local education agency.

(5) A student whose parent or legal guardian is an active duty member of the uniformed services, as defined by the compact, and has been called to duty for, is on leave from, or has immediately returned from deployment to a combat zone or combat support posting must be granted additional excused absences at the discretion of the local education agency superintendent to visit with the student's parent or legal guardian relative to the leave or deployment of the parent or guardian.

ARTICLE VI
ELIGIBILITY

(1) A special power of attorney, relative to the guardianship of a child of a military family and executed under applicable law, is sufficient for the purposes of enrollment and all other actions requiring parental participation and consent.

(2) A local education agency is prohibited from charging local tuition to a transitioning military child placed in the care of a noncustodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent.

(3) A transitioning military child, placed in the care of a noncustodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent may continue to attend the school in which the child was enrolled while residing with the custodial parent.

(4) State and local education agencies shall facilitate the opportunity for transitioning military children's inclusion in extracurricular activities, regardless of application deadlines, to the extent they are otherwise qualified.

ARTICLE VII
GRADUATION

In order to facilitate the on-time graduation of children of military families, states and local education agencies shall incorporate the following procedures:

(1) Local education agency administrative officials shall waive specific courses required for graduation if similar course work has been satisfactorily completed in another local education

agency or shall provide reasonable justification for denial. If a waiver is not granted to a student who would qualify to graduate from the sending state, the local education agency shall provide an alternative means of acquiring required coursework so that graduation may occur on time.

(2) (a) In lieu of testing requirements for graduation in the receiving state, states shall accept:

(i) exit or end-of-course exams required for graduation from the sending state;

(ii) national norm-referenced achievement tests; or

(iii) alternative testing.

(b) In the event that the above alternatives cannot be accommodated by the receiving state for a student transferring to the school during the student's senior year, the provisions of subsection (3) of this article apply.

(3) If a military student transferring at the beginning of or during the student's senior year is ineligible to graduate from the receiving local education agency after all alternatives have been considered, the sending and receiving local education agencies shall ensure the receipt of a diploma from the sending local education agency if the student meets the graduation requirements of the sending local education agency. In the event that one of the states in question is not a member of this compact, the member state shall use best efforts to facilitate the on-time graduation of the student in accordance with subsections (1) and (2) of this article.

ARTICLE VIII
STATE COORDINATION

(1) Each member state shall, through the creation of a state council or use of an existing body or board, provide for the coordination among its agencies of government, local education agencies, and military installations concerning the state's participation in and compliance with this compact and Interstate Commission activities. While each member state may determine the membership of its own state council, its membership must, at a minimum, include the state superintendent of public instruction, a superintendent of a school district with a high concentration of military children, a representative from a military installation, one representative each from the legislative and executive branches of government, and other offices and stakeholder groups that the state council considers appropriate.

(2) The state council of each member state shall appoint or designate a military family education liaison to assist military families and the state in facilitating the implementation of this compact.

(3) The compact commissioner responsible for the administration and management of the state's participation in the compact must be appointed by the governor or as otherwise determined by each member state.

(4) The compact commissioner and the military family education liaison designated herein are ex-officio members of the state council unless either is already a full voting member of the state council.

ARTICLE IX
INTERSTATE COMMISSION ON EDUCATIONAL OPPORTUNITY FOR MILITARY CHILDREN

The member states hereby create the Interstate Commission on Educational Opportunity for Military Children. The activities of the Interstate Commission are the formation of public policy and are a discretionary state function.

(1) The Interstate Commission is a body corporate and joint agency of the member states and has all the responsibilities, powers, and duties set forth herein and additional powers that may be conferred upon it by a subsequent concurrent action of the respective legislatures of the member states in accordance with the terms of this compact.

(2) (a) The Interstate Commission consists of one voting representative from each member state who is that state's compact commissioner.

(b) Each member state represented at a meeting of the Interstate Commission is entitled to one vote.

(c) A majority of the total member states constitute a quorum for the transaction of business unless a larger quorum is required by the bylaws of the Interstate Commission.

(d) A representative may not delegate a vote to another member state. In the event that the compact commissioner is unable to attend a meeting of the Interstate Commission, the governor or state council may delegate voting authority to another person from the state for a specified meeting.

(e) The bylaws may provide for meetings of the Interstate Commission to be conducted by telecommunication or electronic communication.

(3) The Interstate Commission consists of ex-officio, nonvoting representatives who are members of interested organizations. The ex-officio members, as defined in the bylaws, may include but may not be limited to members of the representative organizations of military family advocates, local education agency officials, parent and teacher groups, the U.S. department of defense, the education commission of the states, the Interstate Agreement on the Qualification of Educational Personnel, and other interstate compacts affecting the education of children of military members.

(4) The Interstate Commission shall meet at least once each calendar year. The chairperson may call additional meetings and, upon the request of a simple majority of the member states, shall call additional meetings.

(5) The Interstate Commission shall establish an executive committee, whose members must include the officers of the Interstate Commission and any other members of the Interstate Commission as determined by the bylaws. Members of the executive committee shall serve 1-year terms. Members of the executive committee are entitled to one vote each. The executive committee has the power to act on behalf of the Interstate Commission, with the exception of rulemaking, during periods when the Interstate Commission is not in session. The executive committee shall oversee the day-to-day activities of the administration of the compact, including enforcement and compliance with the provisions of the compact and its bylaws and rules and other duties considered necessary. The U.S. department of defense shall serve as an ex-officio, nonvoting member of the executive committee.

(6) The Interstate Commission shall establish bylaws and rules that provide for conditions and procedures under which the Interstate Commission shall make its information and official records available to the public for inspection or copying. The Interstate Commission may exempt from disclosure information or official records to the extent they would adversely affect personal privacy rights or proprietary interests.

(7) Public notice must be given by the Interstate Commission of all meetings, and all meetings must be open to the public except as set forth in the rules or as otherwise provided in the compact. The Interstate Commission and its committees may close a meeting or portion thereof if it determines by a two-thirds vote that an open meeting would be likely to:

(a) relate solely to the Interstate Commission's internal personnel;

(b) disclose matters specifically exempted from disclosure by federal and state statute;

(c) disclose trade secrets or commercial or financial information that is privileged or confidential;

(d) involve accusing a person of a crime or formally censuring a person;

(e) disclose information of a personal nature when disclosure would constitute a clearly unwarranted invasion of personal privacy;

(f) disclose investigative records compiled for law enforcement purposes; or

(g) specifically relate to the Interstate Commission's participation in a civil action or other legal proceeding.

(8) For a meeting or portion of a meeting closed pursuant to this provision, the Interstate Commission's legal counsel or designee shall certify that the meeting may be closed and shall reference each relevant exemptible provision. The Interstate Commission shall keep minutes, which shall fully and clearly describe all matters discussed in a meeting, and shall provide a full and accurate summary of actions taken and the reasons therefore, including a description of the views expressed and the record of a roll call vote. All documents considered in connection with an action must be identified in the minutes. All minutes and documents of a closed meeting must remain under seal, subject to release by a majority vote of the Interstate Commission.

(9) The Interstate Commission shall collect standardized data concerning the educational transition of the children of military families under this compact as directed through its rules,

which shall specify the data to be collected, the means of collection, and data exchange and reporting requirements. The methods of data collection, exchange, and reporting must, in so far as is reasonably possible, conform to current technology, and the Interstate Commission shall coordinate its information functions with the appropriate custodian of records as identified in the bylaws and rules.

(10) The Interstate Commission shall create a process that permits military officials, education officials, and parents to inform the Interstate Commission if and when there are alleged violations of the compact or its rules or when issues subject to the jurisdiction of the compact or its rules are not addressed by the state or local education agency. This section may not be construed to create a private right of action against the Interstate Commission, any member state, or any local education agency.

ARTICLE X

The Interstate Commission may:

(1) provide for dispute resolution among member states;

(2) adopt rules that have the force and effect of law and are binding in the compact states to the extent and in the manner provided in this compact and take all necessary actions to effect the goals, purposes, and obligations as enumerated in this compact;

(6) purchase and maintain insurance and bonds;

(7) borrow, accept, hire, or contract for services of personnel;

(8) establish and appoint committees, including but not limited to an executive committee as required by subsection (5) of Article IX of this compact, which has the power to act on behalf of the Interstate Commission in carrying out its powers and duties under this compact;

(9) elect or appoint officers, attorneys, employees, agents, or consultants, fix their compensation, define their duties, and determine their qualifications, and establish the Interstate Commission's personnel policies and programs relating to conflicts of interest, rates of compensation, and qualifications of personnel;

(10) accept any and all donations and grants of money, equipment, supplies, materials, and services and receive, utilize, and dispose of it;

(11) lease, purchase, accept contributions or donations of, or otherwise own, hold, improve, or use any property, whether real, personal, or mixed;

(12) sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any property, whether real, personal, or mixed;

(13) establish a budget and make expenditures;

(14) adopt a seal and bylaws governing the management and operation of the Interstate Commission;

(15) report annually to the legislatures, governors, judiciary, and state councils of the member states concerning the activities of the Interstate Commission during the preceding year. The reports must also include any recommendations that may have been adopted by the Interstate Commission.

(16) coordinate education, training, and public awareness regarding the compact and its implementation and operation for officials and parents involved in such activity;

(17) establish uniform standards for the reporting, collecting, and exchanging of data;

ARTICLE XI
ORGANIZATION AND OPERATION OF THE INTERSTATE COMMISSION

(1) The Interstate Commission shall, by a majority of the members present and voting, within 12 months after the first Interstate Commission meeting, adopt bylaws to govern its conduct as may be necessary or appropriate to carry out the purposes of the compact, including but not limited to:

(a) establishing the fiscal year of the Interstate Commission;

(b) establishing an executive committee and other committees as may be necessary;

(c) providing for the establishment of committees and for governing any general or specific delegation of authority or function of the Interstate Commission;

(d) providing reasonable procedures for calling and conducting meetings of the Interstate Commission and ensuring reasonable notice of each meeting;

(e) establishing the titles and responsibilities of the officers and staff of the Interstate Commission;

(f) providing a mechanism for concluding the operations of the Interstate Commission and the return of surplus funds that may exist upon the termination of the compact after the payment and reserving of all of its debts and obligations;

(g) providing startup rules for initial administration of the compact.

(2) The Interstate Commission shall, by a majority of the members, elect annually from among its members a chairperson, a vice chairperson, and a treasurer, each of whom has authority and duties as specified in the bylaws. The chairperson or, in the chairperson's absence or disability, the vice chairperson, shall preside at all meetings of the Interstate Commission. The officers shall serve without compensation or remuneration from the Interstate Commission. However, subject to the availability of budgeted funds, the officers must be reimbursed for ordinary and necessary costs and expenses incurred by them in the performance of their responsibilities as officers of the Interstate Commission.

(3) The executive committee has authority and duties as set forth in the bylaws, including but not limited to:

(a) managing the affairs of the Interstate Commission in a manner consistent with the bylaws and purposes of the Interstate Commission;

(b) overseeing an organizational structure and appropriate procedures for the Interstate Commission to provide for the creation of rules, operating procedures, and administrative and technical support functions; and

(c) planning, implementing, and coordinating communications and activities with other state, federal, and local government organizations in order to advance the goals of the Interstate Commission.

(4) The executive committee may, subject to the approval of the Interstate Commission, appoint or retain an executive director for a period, upon terms and conditions, and for compensation as the Interstate Commission considers appropriate. The executive director shall serve as secretary to the Interstate Commission, but may not be a member of the Interstate Commission. The executive director shall hire and supervise other persons as authorized by the Interstate Commission.

(5) The Interstate Commission's executive director and its employees are immune from suit and liability, either personally or in their official capacity, for a claim for damage to or loss of property or personal injury or other civil liability caused or arising out of or relating to an actual or alleged act, error, or omission that occurred or that the person had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities. However, that person is not protected from suit or liability for damage, loss, injury, or liability caused by the person's intentional or willful and wanton misconduct.

(6) The liability of the Interstate Commission's executive director and employees or Interstate Commission representatives, acting within the scope of their employment or duties for acts, errors, or omissions occurring within their state, may not exceed the limits of liability set forth under the constitution and laws of that state for state officials, employees, and agents. The Interstate Commission is considered to be an instrumentality of the states for the purposes of any such action. Nothing in this subsection may be construed to protect a person from suit or

liability for damage, loss, injury, or liability caused by the person's intentional or willful and wanton misconduct.

(7) The Interstate Commission shall defend the executive director and its employees and, subject to the approval of the attorney general or other appropriate legal counsel of the member state represented by an Interstate Commission representative, shall defend the Interstate Commission representative in any civil action seeking to impose liability arising out of an actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities or that the defendant had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities if the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of the person.

(8) To the extent not covered by the state involved, the member state, the Interstate Commission, or the representatives or employees of the Interstate Commission must be held harmless in the amount of a settlement or judgment, including attorney fees and costs, obtained against those persons arising out of an actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities or that the persons had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities if the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of the persons.

ARTICLE XII
RULEMAKING FUNCTIONS OF THE INTERSTATE COMMISSION

(1) The Interstate Commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purposes of this compact. Notwithstanding the foregoing, in the event the Interstate Commission exercises its rulemaking authority in a manner that is beyond the scope of the purposes of this compact or the powers granted under the compact, then such an action by the Interstate Commission is invalid and has no force or effect.

(2) Rules must be made pursuant to a rulemaking process that substantially conforms to the Model State Administrative Procedure Act revised as of 2012 as may be appropriate to the operations of the Interstate Commission.

(3) Not later than 30 days after a rule is promulgated, any person may file a petition for judicial review of the rule. However, the filing of a petition does not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the Interstate Commission consistent with applicable law and may not find the rule to be unlawful if the rule represents a reasonable exercise of the Interstate Commission's authority.

(4) If a majority of the legislatures of the member states rejects a rule by enactment of a statute or resolution in the same manner used to adopt the compact, then the rule has no further force and effect in any member state.

ARTICLE XIII
OVERSIGHT, ENFORCEMENT, AND DISPUTE RESOLUTION

(1) Each member state shall enforce this compact to effectuate the compact's purposes and intent.

(2) All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this compact that may affect the powers, responsibilities, or actions of the Interstate Commission.

(3) The Interstate Commission is entitled to receive all service of process in any such proceeding and has standing to intervene in the proceeding for all purposes. Failure to provide service of process to the Interstate Commission renders a judgment or order void as to the Interstate Commission, this compact, or promulgated rules.

(4) The purpose of this compact is not to supersede the sovereignty of any member state but instead to facilitate the collective exercise of each state's sovereignty to allow a uniform solution without federal intervention. No provision of the interstate compact may be construed as a waiver of a state's sovereignty.

(5) If the Interstate Commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact or the bylaws or promulgated rules, the Interstate Commission shall:

(a) provide written notice to the defaulting state and other member states of the nature of the default, the means of curing the default, and any action taken by the Interstate Commission. The Interstate Commission shall specify the conditions by which the defaulting state is required to cure its default.

(b) provide remedial training and specific technical assistance regarding the default.

(6) If the defaulting state fails to cure the default, the defaulting state must be terminated from the compact upon an affirmative vote of a majority of the member states and all rights, privileges, and benefits conferred by this compact must be terminated from the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default, except that in the event of a default by this state, its total financial responsibility is limited to the amount of its most recent annual assessment.

(7) Suspension or termination of membership in the compact may be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate must be given by the Interstate Commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

(8) The state that has been suspended or terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of suspension or termination up to a maximum amount of $5,000 multiplied by the number of years that the state has been a member of the compact. In the event that this state is suspended or terminated, its total financial responsibility is limited to the amount of its most recent annual assessment.

(9) The Interstate Commission may not bear any costs relating to any state that has been found to be in default or that has been suspended or terminated from the compact unless otherwise mutually agreed upon in writing between the Interstate Commission and the defaulting state.

(10) The defaulting state may appeal the action of the Interstate Commission by petitioning the U.S. district court for the District of Columbia or the federal district where the Interstate Commission has its principal offices. The prevailing party must be awarded all costs of litigation, including reasonable attorney fees.

(11) The Interstate Commission shall attempt, upon the request of a member state, to resolve disputes that are subject to the compact and that may arise among member states and between member and nonmember states.

(12) The Interstate Commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

ARTICLE XIV
FINANCING OF THE INTERSTATE COMMISSION

(1) The Interstate Commission shall pay or provide for the payment of the reasonable expenses of its establishment, organization, and ongoing activities.

(2) The Interstate Commission may levy on and collect an annual assessment from each member state to cover the cost of the operations and activities of the Interstate Commission and its staff, which must be in a total amount sufficient to cover the Interstate Commission's annual budget as approved each year. The aggregate annual assessment amount must be allocated based upon a formula to be determined by the Interstate Commission, which shall promulgate a rule binding upon all member states to the limits as specified herein.

(3) The annual assessment applicable to this state may not exceed an amount equal to $2 multiplied by the latest available number of children of military families in this state.

(4) This state may not be held liable for the payment of any special assessment or other assessment other than the annual assessment in the amount established by subsection (3).

(5) The Interstate Commission may not incur obligations of any kind prior to securing the funds adequate to meet those obligations, and the Interstate Commission may not pledge the credit of any of the member states except by and with the authority of the member state.

(6) The Interstate Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Interstate Commission are subject to the

audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the Interstate Commission must be audited yearly by a certified or licensed public accountant, and the report of the audit must be included in and become part of the annual report of the Interstate Commission.

(7) All expenditures for the state, including withdrawal or dissolution costs, or both, may not exceed an amount of $5,000 annually.

ARTICLE XV
MEMBER STATES, EFFECTIVE DATE, AND AMENDMENT

(1) Any state is eligible to become a member state, except that in the case of this state, withdrawal from the compact may also be accomplished by statutorily allowing for expiration of this section.

(2) Withdrawal from the compact must be by the enactment of a statute repealing the compact, except in the case of this state, withdrawal from the compact may also be accomplished by statutorily allowing for the expiration of this section.

(3) The Interstate Commission may propose amendments to the compact for enactment by the member states. An amendment may not become effective and binding upon the Interstate Commission and the member states unless it is enacted into law by unanimous consent of the member states.

ARTICLE XVI
WITHDRAWAL AND DISSOLUTION

(1) Once effective, the compact continues in force and remains binding upon each and every member state. However, a member state may withdraw from the compact by specifically repealing the statute that enacted the compact into law, except that in the case of this state, withdrawal from the compact may also be accomplished by statutorily allowing for expiration of this section.

(2) Withdrawal from this compact must be by the enactment of legislation repealing the compact except in the case of this state, withdrawal from the compact may also be accomplished by statutorily allowing for the expiration of this section.

(3) The withdrawing state shall immediately notify the chairperson of the Interstate Commission in writing upon the introduction of legislation repealing this compact in the withdrawing state, except that if this state elects to withdraw from the compact by statutorily allowing for the expiration of this section, this state shall notify the chairperson of the commission when it becomes evident that the expiration will take effect. The Interstate Commission shall notify the other member states of the withdrawing state's intent to withdraw within 60 days of its receipt of the notice.

(4) The withdrawing state is responsible for all assessments, obligations, and liabilities incurred through the effective date of withdrawal up to a maximum amount equal to $2 multiplied by the latest available number of children of military families in this state.

(5) Reinstatement following withdrawal of a member state may occur upon the withdrawing state reenacting the compact or upon a later date as determined by the Interstate Commission.

(6) (a) This compact dissolves on the date of the withdrawal or default of the member state that reduces the membership in the compact to one member state.

(b) Upon the dissolution of this compact, the compact becomes null and void and is of no further force or effect and the business and affairs of the Interstate Commission must be concluded and surplus funds must be distributed in accordance with the bylaws.

ARTICLE XVII
SEVERABILITY AND CONSTRUCTION

(1) The provisions of this compact are severable, and if any phrase, clause, sentence, or provision is deemed unenforceable, the remaining provisions of the compact are enforceable.

(2) The provisions of this compact must be liberally construed to effectuate its purposes.

(3) Nothing in this compact may be construed to prohibit the applicability of other interstate compacts to which the states are members.

ARTICLE XVIII
BINDING EFFECT OF COMPACT AND OTHER LAWS

(1) Nothing in this compact prevents the enforcement of any other law of a member state that is not inconsistent with this compact. All member states' laws conflicting with this compact are superseded to the extent of the conflict.

(2) All lawful actions of the Interstate Commission, including all rules and bylaws promulgated by the Interstate Commission, are binding upon the member states.

(3) All agreements between the Interstate Commission and the member states are binding in accordance with their terms.

(4) In the event that any provision of this compact exceeds the constitutional limits imposed on the legislature of any member state, that provision is ineffective to the extent of the conflict with the constitutional provision in question in that member state.

THE COMPACT FOR EDUCATION

ARTICLE I
PURPOSE AND POLICY

(1) It is the purpose of this compact to:

(a) establish and maintain close cooperation and understanding among executive, legislative, professional educational, and lay leadership on a nationwide basis at the state and local levels;

(b) provide a forum for the discussion, development, crystallization, and recommendation of public policy alternatives in the field of education;

(c) provide a clearinghouse of information on matters relating to education problems and how they are being met in different places throughout the nation; and

(d) facilitate the improvement of state and local education systems.

(2) It is the policy of this compact to encourage and promote local and state initiative in the development, maintenance, improvement, and administration of education systems and institutions.

(3) The states that have entered into this compact recognize that each of them has an interest in the quality and quantity of education furnished in each of the other states, as well as in the excellence of its own education systems and institutions.

ARTICLE II
STATE DEFINED

As used in this compact, “state” means a state, territory, or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

ARTICLE III
THE COMMISSION

(1) The education commission of the states (commission) is hereby established. The commission consists of seven members representing each state that has entered into the compact. One of the state members must be the governor, two must be members of the legislature selected by its respective houses and serving in a manner as the legislature may determine, one must be the state superintendent of public instruction, and three must be appointed by and serve at the pleasure of the governor. The guiding principle for the composition of the membership on the commission from each party state must be that the members representing the state shall, by virtue of their training, experience, knowledge, or affiliations, reflect broadly the interests of the state government, higher education, the state education system, local education, and public and nonpublic educational leadership. In addition to the members of the commission representing the party states, there may be no more than 10 nonvoting commissioners selected by the steering committee for terms of 1 year. The commissioners shall represent leading national organizations of professional educators or persons concerned with educational administration.

(2) The members of the commission are entitled to one vote each on the commission. Any action of the commission is not binding unless taken at a meeting at which a majority of the total number of votes on the commission are cast in favor of the action. Any action of the commission must be taken only at a meeting at which a majority of the commissioners are present. The commission shall meet at least once a year. In its bylaws, and subject to any directions and

limitations as may be contained in the bylaws, the commission may delegate the exercise of any of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to Article IV, and adoption of the annual report pursuant to Article III(10).

(3) The commission must have a seal.

(4) The commission shall elect annually, from among its members, a presiding officer, who must be a governor; a vice presiding officer; and a treasurer. The commission shall appoint an executive director. The executive director shall serve at the pleasure of the commission and, together with the treasurer and other personnel as the commission may consider appropriate, must be bonded in an amount determined by the commission. The executive director shall serve as secretary.

(5) The executive director, subject to the approval of the steering committee, shall appoint, remove, or discharge any personnel as may be necessary for the performance of the functions of the commission. The executive director shall fix the duties and compensation of the personnel. The commission in its bylaws shall provide for the personnel policies and programs of the commission.

(6) The commission may borrow, accept, or contract for the services of personnel.

(7) The commission may accept for any of its purposes and functions under this compact any donations and grants of money, equipment, supplies, materials, and services, conditional or otherwise, from any state, the United States, or any other governmental agency, or from any person, firm, association, foundation, or corporation and may receive, utilize, and dispose of any gifts and grants. Any donation or grant accepted by the commission pursuant to this section or services borrowed pursuant to subsection (6) of this article must be reported in the annual report of the commission. The report must include the nature, amount, and conditions, if any, of the donation, grant, or services borrowed and the identity of the donor or lender.

(8) The commission may establish and maintain any facilities as may be necessary for the transacting of its business. The commission may acquire, hold, and convey real and personal property and any interest in property.

(9) The commission shall adopt bylaws for the conduct of its business and may amend and rescind these bylaws. The commission shall publish its bylaws in convenient form and shall file a copy of its bylaws and any amendments with the appropriate agency or officer in each state that has entered into this compact.

(10) The commission annually shall make and provide to the governor and legislature of each state that has entered into the compact a report covering the activities of the commission for the preceding year. The commission may make any additional reports as it considers desirable.

ARTICLE IV
POWERS

In addition to any authority conferred on the commission by other provisions of the compact, the commission may:

(1) collect, correlate, analyze, and interpret information and data concerning educational needs and resources;

(2) encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public education systems;

(3) develop proposals for adequate financing of education as a whole and at each of its many levels;

(4) conduct or participate in research in any instance where it finds that the research is necessary for the advancement of the purposes and policies of this compact, utilizing fully the resources of national associations, regional organizations for higher education, and other agencies and institutions, both public and private;

(5) formulate suggested policies and plans for the improvement of public education as a whole, or for any segment of public education, and make recommendations with respect to public education available to the appropriate governmental units, agencies, and public officers; and

(6) do other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to the compact.

ARTICLE V
COOPERATION WITH FEDERAL GOVERNMENT

(1) If the laws of the United States specifically provide, or if administrative provision is made within the federal government, the United States may be represented on the commission by not more than 10 representatives. A representative of the United States must be appointed and serve in the manner as may be provided by federal law and may be drawn from any one or more branches of the federal government. A representative of the United States may not have a vote on the commission.

(2) The commission may provide information and make recommendations to any executive or legislative agency or officer of the federal government concerning the common educational policies of the states and may confer with any federal agencies or officers concerning any matter of mutual interest.

ARTICLE VI
COMMITTEES

(1) To assist in the conduct of its business when the full commission is not meeting, the commission shall elect a steering committee that, subject to the provisions of this compact and consistent with the policies of the commission, is constituted and functions as provided in the bylaws of the commission. One-fourth of the voting membership of the steering committee must consist of governors, one-fourth must consist of legislators, and the remainder must consist of other members of the commission. A federal representative on the commission may serve with the steering committee, but may not vote. The voting members of the steering committee shall serve a term of 2 years. The presiding officer, vice presiding officer, and treasurer of the commission must be members of the steering committee and, notwithstanding anything in this section to the contrary, shall serve during their continuance in these offices. Vacancies on the steering committee do not affect its authority to act, but the commission at its next regular meeting following the occurrence of any vacancy shall fill it for the unexpired term. A person may not serve more than two terms as a member of the steering committee, provided that service for a partial term of 1 year or less may not be counted toward the limitation.

(2) The commission may establish advisory and technical committees composed of state, local, or federal officers and private persons to advise it with respect to any one or more of its functions. An advisory or technical committee may, on request of the states concerned, be established to consider any matter of special concern to two or more of the states that have entered into this compact.

(3) The commission may establish any additional committees as its bylaws may provide.

ARTICLE VII
FINANCE

(1) The commission shall advise the governor or designated officer of each state that has entered into this compact of its budget and estimated expenditures for any period as may be required by the laws of that state. Each of the commission's budgets of estimated expenditures must contain specific recommendations of the amount to be appropriated by each of the states.

(2) The total amount of appropriation requests under any budget must be apportioned among the states. In making the apportionment, the commission shall devise and employ a formula that takes equitable account of the population and per capita levels of income of the states.

(3) The commission may not pledge the credit of any state. The commission may meet any of its obligations in whole or in part with money available to it pursuant to Article III of this compact, provided that the commission takes specific action setting aside the money before incurring an obligation to be met in whole or in part in that manner. Except when the commission makes use of money available to it pursuant to Article III, the commission may not incur any obligation before receiving an allotment of money from the states that is adequate to meet the obligation.

(4) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission are subject to the procedures for audit and

accounting established by its bylaws. However, all receipts and disbursements of money handled by the commission must be audited yearly by a qualified public accountant. The report of the audit must be included in and become part of the annual report of the commission.

(5) The accounts of the commission must be open at any reasonable time for inspection by officers of the states that have entered into this compact and by any other persons authorized by the commission.

(6) The provisions in this compact may not prohibit compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

ARTICLE VIII
ELIGIBLE PARTIES — ENTRY INTO AND WITHDRAWAL

(1) This compact has as eligible parties all states, territories, and possessions of the United States, the District of Columbia, and the Commonwealth of Puerto Rico. With respect to any jurisdiction not having a governor, the term "governor", as used in this compact, means the closest equivalent officer of the jurisdiction.

(2) Any state or other eligible jurisdiction may enter into this compact and it becomes binding when it is adopted by that state or jurisdiction, except that in order to enter into initial effect, adoption by at least 10 eligible jurisdictions is required.

(3) Any state may withdraw from this compact by enacting a statute repealing the compact, but withdrawal may not take effect until 1 year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other states that have entered into this compact. Withdrawal does not affect any liability already incurred by or chargeable to a state before its withdrawal.

ARTICLE IX
AMENDMENTS TO THE COMPACT

This compact may be amended by a vote of two-thirds of the members of the commission present and voting when ratified by the legislatures of two-thirds of the states that have entered into this compact.

ARTICLE X
CONSTRUCTION AND SEVERABILITY

This compact must be liberally construed so as to accomplish its purposes. The provisions of this compact are severable, and if any phrase, clause, sentence, or provision of this compact is declared to be unconstitutional, or the application of the compact to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact may not be affected. If this compact is held to be contrary to the constitution of any state participating in the compact, the compact remains in effect as to the state affected as to all severable matters.

20-3-302. Legislative intent to elect less than majority of trustees. (1) It is the intention of the legislature that the terms of a majority of the trustee positions of any district with elected trustees may not regularly expire and be subject to election on the same regular school election day. In elementary districts, there may not be more than three trustee positions in first-class districts, two trustee positions in second-class districts or third-class districts having five trustee positions, or one trustee position in third-class districts having three trustee positions regularly subject to election at the same time. In high school districts there may not be more than two additional trustee positions in first- or second-class districts or more than one in third-class districts regularly subject to election at the same time. In county high school districts, there may not be more than two trustee positions to be filled by members residing in the elementary district where the county high school building is located or more than one trustee position to be filled by members residing outside of the elementary district where the county high school building is located subject to election at the same time.

(2) In the following circumstances relating to newly created trustee positions, the initial terms may be shortened to comply with the intent of subsection (1):

(a) the consolidation under the provisions of 20-6-423 of two or more elementary districts to form an elementary district, of two or more high school districts to form a high school district, or of two or more K-12 districts to form a K-12 district;

(b) the establishment of additional trustee positions of a high school district under the provisions of 20-3-353 or 20-3-354 or new trustee positions under the provisions of 20-3-352(3);

(c) the change of a district's classification under the provisions of 20-6-201 or 20-6-301;

(d) the establishment of additional elementary trustee positions under the provisions of 20-3-341(3); or

(e) the establishment of additional high school trustee positions under the provisions of 20-6-313.

(3) If the change of a district's classification under 20-6-201 or 20-6-301 decreases the number of trustee positions, the positions must be eliminated in a manner that complies with the intent of subsection (1).

(4) Although the legislature intends that the terms of a majority of trustees of any district may not regularly expire and be subject to election at the same time, it is recognized that filling a vacancy under 20-3-308 may lead to a subsequent school election in which a majority of trustee positions are subject to election at the same time.

20-3-352. Request and determination of number of high school district additional trustee positions — nonvoting trustee. (1) As provided in 20-3-351(1)(b), a high school district, except a county high school district, may have additional trustee positions when the trustees of a majority of the elementary districts with territory located in the high school district, but without equitable representation on the high school district trustees under the provision of 20-3-351(1)(a), request the establishment of additional trustee positions under the provisions of subsection (2) or when the electors approve an alternative method of electing members of the board of trustees under the provisions of subsection (3).

(2) A request for additional trustee positions must be made to the county superintendent by a resolution of the trustees of each elementary district. When a resolution has been received from a majority of the elementary districts without representation on the high school district trustees, the county superintendent shall determine the number of additional trustee positions for the affected high school district in accordance with the following procedure:

(a) The taxable valuation of the elementary district that has its trustees placed on the high school trustees must be divided by the number of positions on the trustees of the elementary district to determine the taxable valuation per trustee position.

(b) The taxable valuation used for the calculation in subsection (2)(a) must be subtracted from the taxable valuation of the high school district to determine the taxable valuation of the territory of the high school district without representation on the high school district trustees.

(c) The taxable valuation determined in subsection (2)(b) must be divided by the taxable valuation per trustee position calculated in subsection (2)(a). The resulting quotient must be rounded off to the nearest whole number, except that when the quotient is less than 0.5, at least one nonvoting trustee position must be established for the territory without representation on the high school district board of trustees under the provision of 20-3-351(1)(a).

(d) Except for a nonvoting trustee position, the number determined in subsection (2)(c) must be the number of additional trustee positions, except that the number of additional trustee positions may not exceed four in a first- or second-class high school district or two in a third-class high school district except when two-thirds or more of the high school enrollment of the high school district and two-thirds or more of the taxable valuation of the high school district are located outside of the elementary district that has its trustees placed on the high school district trustees. When this situation exists, three additional trustees must be elected from the elementary school districts in which the high school is not located and one additional trustee must be elected at large in the high school district.

(e) An additional trustee may serve as the presiding officer of the board of trustees of an elementary district in accordance with 20-3-321(3).

(3) (a) If more than half of the electors of the high school district reside outside the territory of the elementary school district in which the high school district buildings are located, at least 10% of the electors of the high school district who are qualified to vote under the provisions of 20-20-301 may petition the county superintendent, requesting an election to consider a proposition on the question of establishing one of the following alternative methods of electing the members of the high school district board of trustees:

(i) one trustee must be elected from each elementary school district with territory included in the high school district and two or three trustees must be elected at large in the high school district, whichever number results in an odd number of members on the board of trustees; or

(ii) the county superintendent shall establish four trustee nominating districts within the high school district but outside the territory of the elementary school district in which the high school buildings are located. One trustee must be elected from each trustee nominating district and three trustees must be elected from the elementary district in which the high school buildings are located, for a total of seven trustees on the high school district board of trustees. Trustees elected from the elementary district in which the high school buildings are located shall serve on both the high school district board of trustees and on the elementary school district board of trustees.

(b) (i) When the county superintendent receives a valid petition, the county superintendent shall order the trustees of the high school district to conduct an election on the next regular school election day on the proposition allowed under the provisions of subsection (3)(a).

(ii) If the electors of the district approve a proposition to establish the alternative method of electing the high school district board of trustees, the county superintendent shall order that the members of the board of trustees be elected according to subsection (3)(a) at the next regular school election.

(c) Whenever the trustees are elected at one regular election under subsection (3)(b), the members who are elected shall draw by lot to determine their terms of office. The terms of office by trustee position must be divided as equally as practicable among 1-year, 2-year, and 3-year terms.

(d) A petition to call an election for the purposes of subsection (3) may not be submitted to the county superintendent more than one time in each 5-year period.

20-3-353. Establishment and purpose of trustee nominating districts. (1) After the county superintendent has determined the number of additional trustee positions, the county superintendent shall establish trustee nominating districts in that portion of the high school district without representation on the high school trustees. There must be one trustee nominating district for each additional trustee position, except the additional trustee-at-large. Unless it is impossible, the trustee nominating district boundaries must be coterminous with elementary district boundaries.

(2) The purpose of the trustee nominating district is to establish a representative district for the nomination and election of a resident of the district to be an additional member of the trustees of a high school district. The electors qualified to vote in the high school district under the provisions of 20-20-301 and who reside in the trustee nominating district are the only electors who may vote for the additional trustee representing the district. They must also be permitted to vote for a trustee position at large, if there is one, but not for any other high school trustee position.

(3) Any additional trustee position established under the provisions of this section must be filled in a manner prescribed under the provisions of 20-3-309. Each additional trustee position filled by appointment under this section is subject to election at the next regular school election.

20-3-354. Redetermination of additional trustee positions and subsequent adjustments. Whenever there is a revision of the taxable valuation of the high school district or the elementary districts within the high school district or there is a reclassification of the elementary district that has its trustees placed on the high school district board of trustees, the county superintendent shall redetermine the number of additional trustee positions for the high school district in accordance with 20-3-352. If there is a change in the allowable number of additional trustee positions, the county superintendent shall reestablish the trustee nominating districts in accordance with 20-3-353. If the number of additional trustee positions is less than the previous number of positions, the county superintendent shall designate which present additional positions are to terminate upon the order reestablishing the trustee nominating districts. If the number of additional trustee positions is more than the previous number of positions, the additional trustee positions must be filled in the manner prescribed under the provisions of 20-3-309. Each additional trustee position filled by appointment under this section is subject to election at the next regular school election.

20-3-355. Determination of terms after establishment or reestablishment of additional trustee positions. (1) Whenever all of the additional trustee positions are subject to election at one regular school election under the circumstance described in 20-3-302(2)(b), the members who are elected shall draw by lot to determine their terms of office. The terms of office by number of members elected must be:

(a) two for 3 years, if four are elected;

(b) one for 3 years, if one, two, or three are elected;

(c) one for 2 years, if two, three, or four are elected; and

(d) one for 1 year, if three or four are elected.

(2) Whenever the reestablishment of the additional trustee positions for a high school district under the provisions of 20-3-354 results in an increased number of additional trustee positions, the members who are elected at the next regular school election shall draw by lot to determine their terms of office and the terms must be determined in accordance with the additional trustee terms prescribed in this section.

20-3-356. Membership of elected trustees of county high school district and nomination of candidates. (1) The trustees of a county high school district must include the following:

(a) four trustee positions filled by members residing in the elementary district where the county high school building is located; and

(b) three trustee positions filled by members one of whom resides in each of the three trustee nominating districts in the territory of the high school district outside of the elementary district where the county high school building is located. The county superintendent shall establish the nominating districts, and, unless it is impossible, the districts must have coterminous boundaries with elementary district boundaries.

(1) The board of trustees of two or more school districts may form a joint board of trustees for the purpose of coordinating any educational program or support service of the districts. A joint board of trustees may coordinate only those programs and services agreed to by the participating boards of trustees.

(2) When a joint board of trustees is formed, all of the members of the districts' trustees must be members of the joint board of trustees and each member must have the right to participate in the meetings, but voting on matters considered by the joint board is limited by the provisions of this section.

(3) At the first meeting of the joint board of trustees, a presiding officer of the joint board of trustees must be selected from among the membership. A secretary of the joint board must be selected from the membership. The presiding officer, when selected as a voting member, may not be disqualified from voting because of the position. The secretary may not be a voting member except that the secretary shall cast the deciding vote when three successive ballots have resulted in a tie vote of the joint board of trustees.

(4) The voting membership of the joint board of trustees must be equalized among the trustee membership of the participating districts. After the selection of the presiding officer and the secretary, if necessary, the voting membership is:

(a) all of the membership of the board of trustees of the smallest class of district, according to 20-6-201 or 20-6-301, unless one of its members is selected as secretary, in which case that member may not be a voting member; and

(b) the members of the board of trustees of the other district or districts who are selected by the trustees as voting members of the joint board in a number equal to the number of voting members of the district as established under subsection (4)(a). The names of the voting membership selected by the trustees must be submitted in writing to the secretary of the board and are the only members of the district's trustees eligible to vote on joint board matters unless the list is revised in writing by the trustees.

(5) Each voting member is entitled to cast one vote, individually, upon every matter submitted to the joint board for a vote.

(6) A joint board shall remain in existence for at least 1 school year and may not be dissolved until the end of a school year.

20-3-363. Multidistrict agreements — fund transfers. (1) The boards of trustees of any two or more school districts may enter into a multidistrict agreement to create a multidistrict cooperative to perform any services, activities, and undertakings of the participating districts and to provide for the joint funding and operation and maintenance of all participating districts upon the terms and conditions as may be mutually agreed to by the districts subject to the conditions of this section. An agreement must include provisions for dissolution of the cooperative, including the conditions under which dissolution may occur and the disposition of any remaining funds that had been transferred to an interlocal cooperative fund in support of the cooperative. An agreement must be approved by the boards of trustees of all participating districts and must include a provision specifying terms upon which a district may exit the multidistrict cooperative. The agreement may be for a period of up to 3 years.

(2) All expenditures in support of the multidistrict agreement may be made from the interlocal cooperative fund as specified in 20-9-703 and 20-9-704. Each participating district of the multidistrict cooperative may transfer funds into the interlocal cooperative fund from the district's general fund, budgeted funds other than the retirement fund or debt service fund, or nonbudgeted funds other than the compensated absence liability fund. Transfers to the interlocal cooperative fund from each participating school district's general fund are limited to an amount not to exceed the direct state aid in support of the respective school district's general fund. Transfers from the retirement fund and debt service fund are prohibited. Transfers may not be made with funds restricted by federal law unless the transfer is in compliance with any restrictions or conditions imposed by federal law.

(3) Expenditures from the interlocal cooperative fund under this section are limited to those expenditures that are permitted by law and that are within the final budget for the budgeted fund from which the transfer was made.

(4) The intent of this section is to increase the flexibility and efficiency of school districts without an increase in local taxes. In furtherance of this intent, if transfers of funds are made from any school district fund supported by a nonvoted levy, the district may not increase its nonvoted levy for the purpose of restoring the amount of funds transferred.

(5) As used in this title, "multidistrict cooperative" means a public entity created by two or more school districts executing a multidistrict agreement under this section or any school district or other public entity participating in an interlocal cooperative agreement under the provisions of Title 20, chapter 9, part 7, as either a coordinating or a cooperating agency.

(4) A student teacher, while serving a nonsalaried internship under the supervision of a certificated teacher, must be accorded the same protection of the laws as that accorded a certificated teacher and shall, while acting as a student teacher, comply with all rules of the governing board of the district or public institution and the applicable provisions of 20-4-301 relating to the duties of teachers.

(a) making any statement of material fact in applying for a certificate that the applicant knows to be false;

(b) any reason that would have required or authorized the denial of the teacher, administrator, or specialist certificate to the person if it had been known at the time the certificate was issued;

(c) incompetency;

(d) gross neglect of duty;

(e) conviction of, entry of a guilty verdict, a plea of guilty, or a plea of no contest to a criminal offense involving moral turpitude in this state or any other state or country;

(f) immoral conduct related to the teaching profession;

(g) substantial and material nonperformance of the employment contract between the teacher, administrator, or specialist and the trustees of a school or school district without good cause or the written consent of the trustees; or

(h) denial, revocation, suspension, or surrender of a teacher, administrator, or specialist certificate in another state for any reason constituting grounds for similar action in this state.

(2) The board may initiate proceedings under this section if a request for the suspension or revocation of the teacher, administrator, or specialist certificate of any person is made to it by:

(a) the trustees of a district as to a teacher, administrator, or specialist employed by that school or school district within the 12 months immediately preceding receipt of the request by the board of public education; or

(b) the superintendent of public instruction.

(3) (a) If the employment relationship between a school district and a teacher, administrator, or specialist is terminated or not renewed or if a teacher, administrator, or

specialist resigns to prevent termination or nonrenewal because the trustees have reason to believe that the teacher, administrator, or specialist engaged in conduct described in subsection (1)(e) or (1)(f), the trustees shall make a written report to the superintendent of public instruction describing the circumstances of the termination, nonrenewal, or resignation.

(b) The superintendent shall review the report and any supporting evidence included in the report and may conduct further investigation. Service of the notice must be accomplished by sending the notification by registered mail to the last address that the person has provided to the school district or the superintendent of public instruction.

(5) The board shall conduct an investigation of the reasons for the suspension or revocation charge and then, if the investigation warrants further action, conduct a hearing in the manner provided by board policies. At the hearing, the board shall afford the person an opportunity for defense against the charge.

(6) After a hearing, the board may place a written reprimand in the person's certification file or may suspend or revoke the person's teacher, administrator, or specialist certificate, except that in the case of a first violation under subsection (1)(g), the maximum penalty is a 2-year suspension of the person's certificate. The board may, upon a request by a school district, inform the school district that a person's certification file includes a letter of reprimand, but the board may not provide a copy of the letter without first determining that the public's right to know outweighs the person's right to privacy.

(7) Whenever the superintendent of public instruction denies the issuance or the renewal of a teacher, administrator, or specialist certificate, the applicant may appeal the denial to the board of public education. The board shall hear the appeal in the same manner provided in this section for suspension or revocation and in accordance with the policies of the board. The decision of the board is final.

20-4-121. Interstate agreement on qualification of educational personnel. The interstate agreement on qualification of educational personnel is enacted into law and entered into with all jurisdictions legally joining therein in the form substantially as follows:

Article I. Purpose — Findings — Policy

(1) The states party to this agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of cooperation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interests of society, of education, and of the teaching profession. It is the purpose of this agreement to provide for the development and execution of such programs of cooperation as will facilitate the movement of teachers and other professional educational personnel among the states party to it and to authorize specific interstate educational personnel contracts to achieve that end.

(2) The party states find that included in the large movement of population among all sections of the nation are many qualified educational personnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations from state to state in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary to qualify in other states. As a consequence, a significant number of professionally prepared and experienced educators are lost to our school systems. Facilitating the employment of qualified educational personnel, without reference to their states of origin, can increase the available educational resources. Participation in this compact can increase the availability of educational personnel.

Article II. Definitions

As used in this agreement and contracts made pursuant to it, unless the context clearly requires otherwise, the following definitions apply:

(1) "Educational personnel" means persons who must meet requirements pursuant to state law as a condition of employment in educational programs.

(2) "Designated state official" means the educational official of a state selected by that state to negotiate and enter into, on behalf of the official's state, contracts pursuant to this agreement.

(3) "Accept" or any variant thereof means to recognize and give effect to one or more determinations of another state relating to the qualifications of educational personnel in lieu of making or requiring a like determination that would otherwise be required by or pursuant to the laws of a receiving state.

(4) "State" means a state, territory, or possession of the United States, the District of Columbia, or the commonwealth of Puerto Rico.

(5) "Originating state" means a state (and the subdivisions thereof, if any) whose determination that certain educational personnel are qualified to be employed for specific duties in schools is acceptable in accordance with the terms of a contract made pursuant to Article III.

(6) "Receiving state" means a state (and the subdivisions thereof) which accept educational personnel in accordance with the terms of a contract made pursuant to Article III.

Article III. Interstate Educational Personnel Contracts

(1) The designated state official of a party state may make one or more contracts on behalf of the designated state official's state with one or more other party states providing for the acceptance of educational personnel. Any such contract for the period of its duration shall be applicable to and binding on the states whose designated state officials enter into it and the subdivisions of those states with the same force and effect as if incorporated in this agreement. A designated state official may enter into a contract pursuant to this article only with states in which the designated state official finds that there are programs of education, certification standards, or other acceptable qualifications that assure preparation or qualification of educational personnel on a basis sufficiently comparable even though not identical to that prevailing in the designated state official's own state.

(2) Any such contract shall provide for:

(a) its duration;

(b) the criteria to be applied by an originating state in qualifying educational personnel for acceptance by a receiving state;

(c) such waivers, substitutions, and conditional acceptance as shall aid the practical effectuation of the contract without sacrifice of basic educational standards; and

(d) any other necessary matters.

(3) No contract made pursuant to this agreement shall be for a term longer than 5 years, but any such contract may be renewed for like or lesser periods.

(4) Any contract dealing with acceptance of educational personnel on the basis of their having completed an educational program shall specify the earliest date or dates on which originating state approval of the program or programs involved can have occurred. No contract made pursuant to this agreement shall require acceptance by a receiving state of any persons qualified because of successful completion of a program prior to January 1, 1954.

(5) The certification or other acceptance of a person who has been accepted pursuant to the terms of a contract shall not be revoked or otherwise impaired because the contract has expired or been terminated. However, any certificate or other qualifying document may be revoked or suspended on any ground which would be sufficient for revocation or suspension of a certificate or other qualifying document initially granted or approved in the receiving state.

(6) A contract committee composed of the designated state officials of the contracting states or their representatives shall keep the contract under continuous review, study means of improving its administration, and report not less than once a year to the heads of the appropriate education agencies of the contracting states.

Article IV. Approved and Accepted Programs

(1) Nothing in this agreement shall be construed to repeal or otherwise modify any law or regulation of a party state relating to the approval of programs of educational preparation having effect solely on the qualification of educational personnel within that state.

(2) To the extent that contracts made pursuant to this agreement deal with the educational requirements for the proper qualification of educational personnel, acceptance of a program of

educational preparation shall be in accordance with such procedures and requirements as may be provided in the applicable contract.

Article V. Interstate Cooperation

The party states agree that:

(1) they will, so far as practicable, prefer the making of multilateral contracts pursuant to Article III of this agreement; and

(2) they will facilitate and strengthen cooperation in interstate certification and other elements of educational personnel qualification and for this purpose shall cooperate with agencies, organizations, and associations interested in certification and other elements of educational personnel qualification.

Article VI. Agreement Evaluation

The designated state officials of any party states may meet from time to time as a group to evaluate progress under the agreement and to formulate recommendations for changes.

Article VII. Other Arrangements

Nothing in this agreement shall be construed to prevent or inhibit other arrangements or practices of any party state or states to facilitate the interchange of educational personnel.

Article VIII. Effect — Withdrawal

(1) This agreement shall become effective when enacted into law by two states. Thereafter it shall become effective as to any state upon its enactment of this agreement.

(2) Any party state may withdraw from this agreement by enacting a statute repealing the same, but no such withdrawal shall take effect until 1 year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states.

(3) No withdrawal shall relieve the withdrawing state of any obligation imposed upon it by a contract to which it is a party. The duration of contracts and the methods and conditions of withdrawal therefrom shall be those specified in their terms.

Article IX. Construction — Severability

This agreement shall be liberally construed so as to effectuate the purpose thereof. The provisions of this agreement shall be severable and if any phrase, clause, sentence, or provision of this agreement is declared to be contrary to the constitution of any state or of the United States or the application thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this agreement and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this agreement is held to be contrary to the constitution of any state participating therein, the agreement shall remain in full force and effect as to the state affected as to all severable matters.

20-4-122. Designated official for purposes of interstate agreement. The designated state official for this state is the state superintendent of public instruction. History: En. Sec. 1, Ch. 555, L. 2001.

Part 2
Teacher Employment — Tenure

20-4-201. Employment of teachers and specialists by contract. (1) The trustees of any district have the authority to employ any person as a teacher or specialist, but only a person who holds a valid Montana teacher or specialist certificate or for whom an emergency authorization of employment has been issued that qualifies the person to perform the duties prescribed by the trustees for the position of employment. Each teacher or specialist must be employed under written contract, and each contract of employment must be authorized by a proper resolution of the trustees and must be executed in duplicate by the presiding officer of the trustees and the clerk of the district in the name of the district and by the teacher or specialist.

(2) A contract of employment with a teacher or specialist may not require the teacher or specialist to teach more than 5 days a week or on any holiday recognized by 20-1-305. A deduction may not be made from a teacher's or specialist's salary by reason of the fact that a holiday falls on a school day. A teacher's or specialist's contract made in conflict with the 5-days-a-week provision of this section is not enforceable against the teacher or specialist.

(3) Whenever the boards of trustees of two or more school districts form a joint board of trustees under the provisions of 20-3-361 or when the boards of trustees of two or more school districts enter into an interlocal agreement pursuant to Title 7, chapter 11, part 1, to cooperatively share the employment of a teacher or specialist, the joint board of trustees or the boards of trustees of two or more school districts, pursuant to an interlocal agreement, may execute a contract of employment with a teacher or specialist who shall serve the districts. When a contract is executed, the districts shall prorate the compensation provided by the contract on the basis of the total number of instructional hours expended by the teacher or specialist within each district.

(4) Any contract executed under the provisions of this section may contain the oath or affirmation prescribed in 20-4-104, and the teacher or specialist shall subscribe to the oath or affirmation before an officer authorized by law to administer oaths.

If a teacher or specialist does not register the person's certificate with the county superintendent within 60 calendar days after the person begins to perform services, the person is not eligible to receive any further compensation under the contract of employment until the person has registered the certificate. After the schools of a district have been open for 60 calendar days in the current school fiscal year, the county superintendent shall notify each district of the county of each teacher or specialist who has registered a current valid certificate, and the district may not pay any teacher who has not registered the person's certificate until the county superintendent does notify the district of the registration.

Duty of County Superintendent to register teacher or specialist certificates, 20-3-205.

20-4-203. Teacher tenure. (1) Except as provided in 20-4-208, whenever a teacher has been elected by the offer and acceptance of a contract for the fourth consecutive year of employment by a district in a position requiring teacher certification except as a district superintendent or specialist, the teacher is considered to be reelected from year to year as a tenured teacher at the same salary and in the same or a comparable position of employment as that provided by the last-executed contract with the teacher unless the trustees resolve by majority vote of their membership to terminate the services of the teacher in accordance with the provisions of 20-4-204.

(2) The tenure of a teacher with a district may not be impaired upon termination of services of the teacher if the following conditions exist:

(a) the tenure teacher is terminated because the financial condition of the district requires a reduction in the number of teachers employed; and

(b) continued employment rights are provided for in a collectively bargained contract of the district.

(3) (a) For the purposes of subsection (1), "same salary" means the daily rate of pay, excluding benefits and excluding stipends for nonteaching duties, multiplied by the number of days worked under the last-executed contract with the teacher, up to the total number of days funded by the state in the per-ANB entitlements, as provided in 20-9-311, including pupil-instruction-related days. The calculation of daily rate of pay is determined by dividing the salary in the last-executed contract with the teacher for pupil-instruction and pupil-instruction-related days, excluding benefits and excluding stipends for nonteaching duties, by the total number of contracted days under the last-executed contract.

(b) The definition of same salary may be modified if negotiated and agreed to in a collective bargaining agreement executed by the district and the teacher's exclusive representative pursuant to Title 39, chapter 31, or in an individual contract between the district and a teacher in a district in which the teachers have no exclusive representative as provided in Title 39, chapter 31.

(4) Upon receiving tenure, the employment of a teacher may be terminated for good cause.

20-4-204. Termination of tenure teacher services. (1) (a) The following persons may make a recommendation in writing to the trustees of the district for termination of the services of a tenure teacher:

(i) a district superintendent;

(ii) in a district without a district superintendent, a principal;

(iii) in a district without a district superintendent or a principal, the county superintendent or a trustee of the district.

(b) The recommendation must state clearly and explicitly the specific reason or reasons leading to the recommendation for termination.

(2) Whenever the trustees of a district receive a recommendation for termination, the trustees shall notify the teacher of the recommendation for termination and of the teacher's right to a hearing on the recommendation. The notification must be delivered by certified letter or by personal notification for which a signed receipt is returned. The notification must include:

(a) the statement of the reason or reasons that led to the recommendation for termination; and

(b) a printed copy of this section for the teacher's information.

(3) The teacher may, in writing, waive the right to a hearing. Unless the teacher waives the right to a hearing, the trustees shall set a hearing date, giving consideration to the convenience of the teacher, not less than 10 days or more than 20 days from receipt of the notice of recommendation for termination.

(4) The trustees shall:

(a) conduct the hearing on the recommendation at a regularly scheduled or special meeting of the board of trustees and in accordance with 2-3-203; and

(b) resolve at the conclusion of the hearing to terminate the teacher or to reject the recommendation for termination.

(5) The tenure teacher may appeal a decision to terminate an employment contract to the county superintendent if the teacher's employment is not covered by a collective bargaining agreement pursuant to Title 39, chapter 31, who may appoint a qualified attorney as a legal adviser who shall assist the superintendent in preparing findings of fact and conclusions of law. If the employment of the teacher is covered by a collective bargaining agreement pursuant to Title 39, chapter 31, a tenure teacher shall appeal a decision to terminate an employment contract to an arbitrator agreed upon by the district and the teacher's exclusive representative. If the exclusive representative has declined to represent the teacher, the teacher or the district may request that the board of personnel appeals provide a list of arbitrators from which the teacher and the district shall, after the toss of a coin to determine the order of striking, alternately strike names from the list until one arbitrator is selected and appointed. By mutual agreement between the parties, the county superintendent of schools may be appointed as the arbitrator.

(6) In a termination involving a teacher whose employment is not covered by a collective bargaining agreement pursuant to Title 39, chapter 31, either the teacher or the trustees may appeal to the district court of the county in which the teacher was employed. The proceedings must be commenced no later than 60 days after the date of the decision of the county superintendent.

(7) In a termination involving a teacher whose employment is covered by a collective bargaining agreement pursuant to Title 39, chapter 31, a request for arbitration must be made within 20 days from the date of termination unless an alternative time period is provided by the terms of a collective bargaining agreement.

(8) The decision of the arbitrator is final and binding. Each party shall pay one-half of an arbitrator's charges unless a different cost allocation arrangement is agreed upon by the parties.

(9) An arbitrator may order a school district to reinstate a teacher who has been terminated without good cause and to provide compensation, with interest, to a teacher for lost wages and fringe benefits from the date of termination to the date that the teacher is offered reinstatement to the same or a comparable position. Interim earnings, including the amount that the teacher could have earned with reasonable diligence, must be deducted from the amount awarded for lost wages. Before interim earnings are deducted from lost wages, reasonable amounts spent by a teacher in searching for, obtaining, or relocating to new employment must be deducted from interim earnings.

(10) Except as provided in this section, an arbitrator may not order a school district to provide compensation for punitive damages, pain and suffering, emotional distress, compensatory damages, attorney fees, or any other form of damages.

(11) Upon submission of the termination decision to an arbitrator, the teacher or the teacher's exclusive representative may not file an action against the district for reinstatement or compensation of lost wages and fringe benefits.

(12) As used in this section, the following definitions apply:

(a) "Fringe benefits" means the value of any employer-paid vacation leave, sick leave, medical insurance plan, disability or life insurance plan, or pension benefit in effect on the date of termination.

(b) "Lost wages" means the gross amount of wages that would have been reported to the internal revenue service on form W-2 and includes any compensation deferred at the option of the employee.

(3) (a) Whenever the trustees of any district receive a recommendation for dismissal, the trustees shall notify the teacher of the right to a hearing before the trustees either by certified letter or by personal notification for which a signed receipt must be returned. The teacher may in writing waive the right to a hearing. Unless the teacher waives the right to a hearing, the teacher and trustees shall agree on a hearing date not less than 10 days or more than 20 days from the notice of intent to recommend dismissal.

(b) The trustees shall conduct a hearing on the recommendation and resolve at the conclusion of the hearing to dismiss the teacher or to reject the recommendation for dismissal.

(4) With the exception of a county superintendent, a person who recommends dismissal pursuant to subsection (2) may suspend the teacher from active performance of duty with pay pending the hearing date if the teacher's behavior or acts that led to the recommendation for dismissal are contrary to the welfare of the students or the effective operation of the school district.

(5) Any teacher who has been dismissed may in writing within 20 days appeal the dismissal under the guidelines set forth in 20-4-204. The teacher may appeal a decision to terminate an employment contract to the county superintendent if the teacher's employment is not covered by a collective bargaining agreement pursuant to Title 39, chapter 31. If the employment of the teacher is covered by a collective bargaining agreement, a teacher shall appeal a decision to terminate an employment contract to an arbitrator.

The salary for the new position must be the same as the salary that the teacher would have received if the teacher had been continuously employed in the new position rather than in the administrative position.

(2) If a board policy or a collective bargaining agreement provides seniority rights for teachers, a district that assigns a tenure teacher serving in an administrative position to a teaching position shall recognize for seniority purposes the tenure teacher's time of service in the administrative position.

The trustees of a county high school or other high school district that operates under a separate board of trustees due to alternative methods of electing the members of the high school board of trustees as provided in 20-3-352(3) shall employ and appoint a district superintendent, except that the trustees of a county high school district may employ and appoint a holder of a class 3 teacher certificate with a district superintendent endorsement as the county high school principal in lieu of a district superintendent. 20-5-202. Suspension and expulsion. (1) As provided in 20-4-302, 20-4-402, and 20-4-403, a pupil may be suspended by a teacher, superintendent, or principal. The trustees of the district shall adopt a policy defining the authority and procedure to be used by a teacher, superintendent, or principal in the suspension of a pupil and in defining the circumstances and procedures by which the trustees may expel a pupil. Expulsion is any removal of a pupil for more than 20 school days without the provision of educational services and is a disciplinary action available only to the trustees. A pupil may be suspended from school for an initial period not to exceed 10 school days. Upon a finding by a school administrator that the immediate return to school by a pupil would be detrimental to the health, welfare, or safety of others or would be disruptive of the educational process, a pupil may be suspended for one additional period not to exceed 10 school days if the pupil is granted an informal hearing with the school administrator prior to the additional suspension and if the decision to impose the additional suspension does not violate the Individuals With Disabilities Education Act, 20 U.S.C. 1400, et seq.

(2) (a) The trustees of a district shall adopt a policy for the expulsion of a student who is determined to have brought a firearm, as defined in 18 U.S.C. 921, to school and for referring the matter to the appropriate local law enforcement agency. A student who is determined to have brought a firearm to school under this subsection must be expelled from school for a period of not less than 1 year, except that the trustees may authorize the school administration to modify the requirement for expulsion of a student on a case-by-case basis. The trustees shall annually review the district's weapons policy and any policy adopted under this subsection (2)(a) and update the policies as determined necessary by the trustees based on changing circumstances pertaining to school safety.

(b) A decision to change the placement of a student with a disability who has been expelled pursuant to this section must be made in accordance with the Individuals With Disabilities Education Act.

(3) In accordance with 20-4-302, 20-4-402, 20-4-403, and subsection (1) of this section, a teacher, a superintendent, or a principal shall suspend immediately for good cause a student who is determined to have brought a firearm to school.

(4) Nothing in this section prevents a school district from:

(a) offering instructional activities related to firearms or allowing a firearm to be brought to school for instructional activities sanctioned by the district; or

(b) providing educational services in an alternative setting to a student who has been expelled from the student's regular school setting.

20-5-314. Reciprocal attendance agreement with adjoining state or province. (1) The superintendent of public instruction may execute a reciprocal attendance agreement with the superintendent of public instruction or a department of education of any state or province adjoining Montana to allow a child who is a Montana resident to attend school in the adjoining state or province and a child of the adjoining state or province to attend school in Montana. In negotiating a reciprocal attendance agreement, the tuition rates prescribed by 20-5-323 are waived and the reciprocal tuition rate may be negotiated as a flat amount or an actual-cost-per-pupil amount. The superintendent of public instruction shall supply a copy of any reciprocal attendance agreement that is executed to the county superintendent of each county that may be affected by the agreement.

(2) An out-of-district attendance agreement approved under the provisions of 20-5-320 and 20-5-321 must be completed for a child's attendance at a school outside the state or for an out-of-state child to attend a school in Montana.

20-5-317 through 20-5-319 reserved.

20-5-320. Attendance with discretionary approval. (1) A child may be enrolled in and attend a school in a Montana school district that is outside of the child's district of residence or a public school in a district of another state or province that is adjacent to the county of the child's residence, subject to discretionary approval by the trustees of the resident district and the district of choice. If the trustees grant discretionary approval of the child's attendance in a school of the district, the parent or guardian may be charged tuition and may be charged for transportation.

(2) (a) Whenever a parent or guardian of a child wishes to have the child attend a school under the provisions of this section, the parent or guardian shall apply to the trustees of the district where the child wishes to attend. The application must be made on an out-of-district attendance agreement form supplied by the district and developed by the superintendent of public instruction.

(b) The attendance agreement must set forth the financial obligations, if any, for tuition and for costs incurred for transporting the child under Title 20, chapter 10.

(c) (i) The trustees of the district of choice may waive any or all of the tuition rate. The trustees of the district of choice may waive the tuition for all students whose tuition is required to be paid by one type of entity and may charge tuition for all students whose tuition is required to be paid by another type of entity. However, any waiver of tuition must be applied equally to all students whose tuition is paid by the same type of entity.

(ii) As used in this subsection (2)(c), "entity" means a parent or guardian or the trustees of the district of residence.

(3) An out-of-district attendance agreement approved under this section requires that the parent or guardian initiate the request for an out-of-district attendance agreement and that the trustees of both the district of residence and the district of choice approve the agreement.

(4) If the trustees of the district of choice waive tuition, approval of the resident district trustees is not required.

(5) The trustees of a school district may approve or disapprove the out-of-district attendance agreement consistent with this part and the policy adopted by the local board of trustees for out-of-district attendance agreements.

(6) The approval of an out-of-district attendance agreement by the applicable approval agents or as the result of an appeal must authorize the child named in the agreement to enroll in and attend the school named in the agreement for the designated school year.

(7) The trustees of the district where the child wishes to attend have the discretion to approve any attendance agreement.

(8) This section does not preclude the trustees of a district from approving an attendance agreement for educational program offerings not provided by the resident district, such as the kindergarten or grades 7 and 8 programs, if the trustees of both districts agree to the terms and conditions for attendance and any tuition and transportation requirement. For purposes of this subsection, the trustees of the resident district shall initiate the out-of-district agreement.

(9) (a) A provision of this title may not be construed to deny a parent or guardian the right to send a child, at personal expense, to any school of a district other than the resident district when the trustees of the district of choice have approved an out-of-district attendance agreement and the parent or guardian has agreed to pay the tuition as prescribed by 20-5-323. However, under this subsection (9), the tuition rate must be reduced by the amount that the parent or guardian of the child paid in district property taxes during the immediately preceding school fiscal year for the benefit and support of the district in which the child will attend school.

(b) For the purposes of this section, "parent or guardian" includes an individual shareholder of a domestic corporation as defined in 35-1-113 whose shares are 95% held by related family members to the sixth degree of consanguinity or by marriage to the sixth degree of affinity.

(c) The tax amount to be credited to reduce any tuition charge to a parent or guardian under subsection (9)(a) is determined in the following manner:

(i) determine the percentage of the total shares of the corporation held by the shareholder parent or parents or guardian;

(ii) determine the portion of property taxes paid in the preceding school fiscal year by the corporation, parent, or guardian for the benefit and support of the district in which the child will attend school.

(d) The percentage of total shares as determined in subsection (9)(c)(i) is the percentage of taxes paid as determined in subsection (9)(c)(ii) that is to be credited to reduce the tuition charge.

(10) As used in 20-5-320 through 20-5-324, the term "guardian" means the guardian of a minor as provided in Title 72, chapter 5, part 2.

History: En. Sec. 1, Ch. 563, L. 1993; amd. Sec. 1, Ch. 464, L. 2001.

20-5-321. Attendance with mandatory approval — tuition and transportation. (1) An out-of-district attendance agreement that allows a child to enroll in and attend a school in a Montana school district that is outside of the child's district of residence or in a public school district of a state or province that is adjacent to the county of the child's residence is mandatory whenever:

(a) the child resides closer to the school that the child wishes to attend and more than 3 miles from the school the child would attend in the resident district and the resident district does not provide transportation;

(b) (i) the child resides in a location where, because of geographic conditions between the child's home and the school that the child would attend within the district of residence, it is impractical to attend school in the district of residence, as determined by the county transportation committee based on the following criteria:

(A) the length of time that is in excess of the 1-hour limit for each bus trip for an elementary child as authorized under 20-10-121;

(B) whether distance traveled is greater than 40 miles one way from the child's home to school on a dirt road or greater than a total of 60 miles one way from the child's home to school in the district of residence over the shortest passable route; or

(C) whether the condition of the road or existence of a geographic barrier, such as a river or mountain pass, causes a hazard that prohibits safe travel between the home and school.

(ii) The decision of the county transportation committee is subject to appeal to the superintendent of public instruction, as provided in 20-3-107, but the decision must be considered as final for the purpose of the payment of tuition under 20-5-324(5)(a)(ii) until a decision is issued by the superintendent of public instruction. The superintendent of public instruction may review and rule upon a decision of the county transportation committee without an appeal being filed.

(c) the child is a member of a family that is required to send another child outside of the elementary district to attend high school and the child of elementary age may more conveniently attend an elementary school where the high school is located, provided that the child resides more than 3 miles from an elementary school in the resident district or that the parent is required to move to the elementary district where the high school is located to enroll another child in high school. A child enrolled in an elementary school pursuant to this subsection (1)(c) may continue to attend the elementary school after the other child has left the high school.

(d) the child is under the protective care of a state agency or has been adjudicated to be a youth in need of intervention or a delinquent youth, as defined in 41-5-103; or

(e) the child is required to attend school outside of the district of residence as the result of a placement in foster care or a group home licensed by the state.

(2) (a) Whenever a parent or guardian of a child, an agency of the state, or a court wishes to have a child attend a school under the provisions of this section, the parent or guardian, agency, or court shall complete an out-of-district attendance agreement in consultation with an appropriate official of the district that the child will attend.

(b) The attendance agreement must set forth the financial obligations, if any, for costs incurred for tuition and transportation as provided in 20-5-323 and Title 20, chapter 10.

(c) (i) The trustees of the district of choice may waive any or all of the tuition rate. The trustees of the district of choice may waive the tuition for all students whose tuition is required to be paid by one type of entity and may charge tuition for all students whose tuition is required to be paid by another type of entity. However, any waiver of tuition must be applied equally to all students whose tuition is paid by the same type of entity.

(ii) As used in this subsection (2)(c), "entity" means a parent, a guardian, the trustees of the district of residence, or a state agency.

(3) Except as provided in subsection (4), the trustees of the resident district and the trustees of the district of attendance shall approve the out-of-district attendance agreement. The trustees of the district of attendance shall:

(a) notify the county superintendent of schools of the county of the child's residence of the approval of the agreement within 10 days; and

(b) submit the agreement for a student attending under the provisions of subsection (1)(d) or (1)(e) to the superintendent of public instruction for approval for payment under 20-5-324.

(4) Unless the child is a child with a disability who resides in the district, the trustees of the district where the school to be attended is located may disapprove an out-of-district attendance agreement whenever they find that, because of insufficient room and overcrowding, the accreditation of the school would be adversely affected by the acceptance of the child.

20-5-322. Residency determination — notification — appeal for attendance agreement. (1) In considering an out-of-district attendance agreement, except as provided in 20-9-707, the trustees shall determine the child's district of residence on the basis of the provisions of 1-1-215.

(2) Within 10 days of the initial application for an agreement, the trustees of the district of choice shall notify the parent or guardian of the child and the trustees of the district of residence involved in the out-of-district attendance agreement of the anticipated date for approval or disapproval of the agreement.

(3) Within 10 days of approval or disapproval of an out-of-district attendance agreement, the trustees shall provide copies of the approved or disapproved attendance agreement to the parent or guardian and to the child's district of residence.

(4) Within 15 days of receipt of an approved out-of-district attendance agreement, the trustees of the district of residence shall approve or disapprove the agreement under the provisions of this part and forward the completed agreement to the county superintendent of schools of the county of residence, the trustees of the district of choice, and the parent or guardian.

(5) If an out-of-district attendance agreement is disapproved or no action is taken, the parent may appeal the disapproval or lack of action to the county superintendent and, subsequently, to the superintendent of public instruction under the provisions for the appeal of controversies in this title.

(6) For purposes of payment under 20-5-324(2), a nonresident student who becomes a resident by reaching 18 years of age during the school year may continue to have tuition paid on the student's behalf for the duration of the student's enrollment in the district for that school year.

History: En. Sec. 3, Ch. 563, L. 1993; amd. Sec. 1, Ch. 132, L. 2005; amd. Sec. 2, Ch. 215, L. 2005; amd. Sec. 22, Ch. 44, L. 2007.

20-5-323. Tuition and transportation rates. (1) Except as provided in subsections (2) through (5), whenever a child has approval to attend a school outside of the child's district of residence under the provisions of 20-5-320 or 20-5-321, the rate of tuition charged for a Montana resident student may not exceed 20% of the per-ANB maximum rate established in 20-9-306 for the year of attendance.

(2) The tuition for a child with a disability must be determined under rules adopted by the superintendent of public instruction for the calculation of tuition for special education pupils.

(3) The tuition rate for out-of-district placement pursuant to 20-5-321(1)(d) and (1)(e) for a student without disabilities who requires a program with costs that exceed the average district costs must be determined as the actual individual costs of providing that program according to the following:

(a) the district of attendance and the district, person, or entity responsible for the tuition payments shall approve an agreement with the district of attendance for the tuition cost;

(b) for a Montana resident student, 80% of the maximum per-ANB rate established in 20-9-306, received in the year for which the tuition charges are calculated, must be subtracted from the per-student program costs for a Montana resident student; and

(c) the maximum tuition rate paid to a district under this section may not exceed $2,500 per ANB.

(4) When a child attends a public school of another state or province, the amount of daily tuition may not be greater than the average annual cost for each student in the child's district of residence. This calculation for tuition purposes is determined by totaling all of the expenditures for all of the district budgeted funds for the preceding school fiscal year and dividing that amount by the October 1 enrollment in the preceding school fiscal year. For the purposes of this subsection, the following do not apply:

(a) placement of a child with a disability pursuant to Title 20, chapter 7, part 4;

(b) placement made in a state or province with a reciprocal tuition agreement pursuant to 20-5-314;

(c) an order issued under Title 40, chapter 4, part 2; or

(d) out-of-state placement by a state agency.

(5) When a child is placed by a state agency in an out-of-state residential facility, the state agency making the placement is responsible for the education costs resulting from the placement.

(6) The amount, if any, charged for transportation may not exceed the lesser of the average transportation cost for each student in the child's district of residence or 35 cents a mile. The average expenditures for the district transportation fund for the preceding school fiscal year must be calculated by dividing the transportation fund expenditures by the October 1 enrollment for the preceding fiscal year.

History: En. Sec. 4, Ch. 563, L. 1993; amd. Sec. 60, Ch. 633, L. 1993; amd. Sec. 2, Ch. 529, L. 1997; amd. Sec. 99(4), Ch. 51, L. 1999; amd. Sec. 1, Ch. 409, L. 2001; amd. Sec. 3, Ch. 464, L. 2001; amd. Sec. 1, Ch. 462, L. 2005; amd. Sec. 5, Ch. 4, Sp. L. December 2005.

20-5-324. Tuition report and payment provisions. (1) Following the close of each school fiscal year, the trustees of a district shall report to the superintendent of public instruction:

(a) the name and district of residence of each child who attended a school of the district under a mandatory out-of-district attendance agreement approved under the provisions of 20-5-321(1)(d) or (1)(e) in the previous school year;

(b) the number of days of enrollment for each child reported under the provisions of subsection (1)(a);

(c) the annual tuition rate for each child's tuition payment, as determined under the provisions of 20-5-323, and the tuition cost for each child reported under the provisions of subsection (1)(a);

(d) the names, districts of attendance, and amount of tuition paid by the district for resident students attending public schools out of state in the previous school year; and

(a) pay the district of attendance the amount of the tuition obligation reported under subsection (1)(c), prorated for the actual days of enrollment;

(b) determine the total per-ANB entitlement for which the district would have been eligible if the students reported in subsections (1)(d) and (1)(e) had been enrolled in the resident district in the prior year; and

(c) reimburse the district of residence for the state portion of the per-ANB entitlement for each student, not to exceed the district's actual payment of tuition or fees for service for the student in the previous year.

(3) In order to be eligible to receive payment under subsection (2), the trustees of the district of attendance shall submit the report required by subsection (1) within the school fiscal year following the year of attendance.

(4) Notwithstanding the requirements of subsection (5)(a), tuition payment provisions for out-of-district placement of students with disabilities must be determined pursuant to Title 20, chapter 7, part 4.

(5) (a) (i) When a child has approval to attend a school outside the child's district of residence at the resident district's expense under the provisions of 20-5-320 or 20-5-321(1)(a) or (1)(b) or when a child has approval to attend a day-treatment program under an approved individualized education program at a private, nonsectarian school located in or outside of the child's district of residence, the district of residence shall finance the tuition amount from the levy authorized to support the district tuition fund and any transportation amount from the levy authorized to support the transportation fund.

(ii) By December 31 of the school fiscal year following the year of attendance, the district of residence shall pay at least one-half of any tuition and transportation obligation established under subsection (5)(a)(i) out of the money realized to date from the district tuition or transportation fund levy. The remaining tuition and transportation obligation must be paid by June 15 of the school fiscal year following the year of attendance.

(iii) In addition to use of a tuition levy to pay tuition for out-of-district attendance of a resident pupil, a school district may also include in its tuition levy an amount necessary to pay for the full costs of providing a free appropriate public education, as defined in 20-7-401, in the district to any child with a disability who lives in the district. The amount of the levy imposed for the costs associated with educating each child with a disability under this subsection (5)(a)(iii) is limited to the actual cost of service under the child's individualized education program minus:

(A) the student's state special education payment;

(B) the student's federal special education payment;

(C) the student's per-ANB amount;

(D) the prorated portion of the district's basic entitlement for each qualifying student; and

(E) the prorated portion of the district's general fund payments in 20-9-327 through 20-9-330 for each qualifying student.

(b) When a child has approval to attend a school outside the child's district of residence because of a parent's or guardian's request under the provisions of 20-5-320 or 20-5-321(1)(c), the parent or guardian of the child shall finance the tuition and transportation amount.

(6) (a) Except as provided in subsections (6)(b) through (6)(d), the district shall credit tuition receipts to the district general fund and transportation receipts to the transportation fund.

(b) Any tuition receipts received under the provisions of 20-5-323(3) for the current school fiscal year that exceed the tuition receipts of the prior year may be deposited in the district miscellaneous programs fund and must be used for that year in the manner provided for in 20-9-507 to support the costs of the program for which the tuition was received.

(c) Any tuition receipts received for the current school fiscal year for a pupil who is a child with a disability that exceed the tuition amount received for a pupil without disabilities may be deposited in the district miscellaneous programs fund and must be used for that year in the manner provided for in 20-9-507 to support the costs of the program for which the tuition was received.

(d) Any other tuition receipts received for the current school fiscal year that exceed the tuition receipts of the prior year may be deposited in the district miscellaneous programs fund and may be used for that year in the manner provided for in that fund. For the ensuing school fiscal year, the receipts must be credited to the district general fund budget.

(7) The reimbursements paid under subsection (2)(c) must be deposited into the district tuition fund and must be used by the district to pay obligations for resident students attending public schools out of state or for resident students attending day-treatment programs under approved individualized education programs at private, nonsectarian schools at district expense.

(8) The provisions of this section do not apply to out-of-state placements made by a state agency pursuant to 20-7-422.

Part 5
Enrollment of Pupil by Caretaker Relative

20-5-501. Purpose — legislative intent — parental rights — definitions. (1) The legislature recognizes that the rights of parents to the custody and control of a child are based upon liberties secured by the United States and Montana constitutions and that a parent's rights to that custody and control of a child are therefore normally supreme to the interests of other persons. The legislature also recognizes a growing phenomenon in which absent or otherwise unavailable parents have temporarily surrendered the custody and care of their children to a grandparent or other relative for lengthy periods of time. Regardless of the purpose of the absence, a child willfully surrendered to a relative for an extended time period still has the same needs as a child in the care of its parents. In this situation, a caretaker relative assumes responsibilities for the child but has no legal right of control over the child, a situation that interferes in the caretaker relative's ability to perform routine functions of child rearing, including tending to the educational and educationally related medical needs of the child. It is therefore the purpose of the legislature in these instances to protect the rights of a child granted by Article II, section 15, of the Montana constitution by granting a caretaker relative limited authority for a child left in the relative's care.

(2) It is the intent of the legislature that a caretaker relative given the responsibility of caring for a child with little or no warning and without any other provision having been made for the child's care, such as the appointment of a guardian or the provision of a power of attorney, be granted authority to enroll the child in school, discuss with the school district the child's educational progress, and consent to an educational service and to medical care for the child related to an educational service without superseding any parental rights regarding the child.

(3) This part is not intended to affect the rights and responsibilities of a parent, legal guardian, or other custodian regarding the child, does not grant legal custody of the child to the caretaker relative, and does not grant authority to the caretaker relative to consent to the marriage or adoption of the child or to receive notice of a medical procedure, including abortion, not consented to by the relative, if notice is required by law, for the child except as expressly provided in this section.

(4) For the purposes of this part, the following definitions apply:

(a) "Caretaker relative" or "relative" means an individual related by blood, marriage, or adoption by another individual to the child whose care is undertaken by the relative, but who is not a parent, foster parent, stepparent, or legal guardian of the child.

(b) "Caretaker relative educational authorization affidavit" or "affidavit" means an affidavit completed in compliance with 20-5-503.

(c) "Health care provider" means a person who provides medical care.

(d) "Medical care" means care by a health care provider, for which parental consent is normally required, for the prevention, diagnosis, or treatment of a mental, physical, or dental injury or disease.

(e) "Parent" means a biological parent, adoptive parent, or other legal guardian of the child whose parental rights have not been terminated.

History: **En. Sec. 1, Ch. 442, L. 2007.**

20-5-502. Enrollment by caretaker relative — residency — affidavit. (1) A caretaker relative of a child who has voluntarily been given custody of the child by a parent of the child may, in accordance with this section, enroll the child in school using the rules of residence provided in 1-1-215 if:

(a) in leaving the child with the caretaker relative, the parent expressed no definite time period in which the parent would return for the child;

(b) the child is residing with the caretaker relative on a full-time basis;

(c) the caretaker relative is unable to contact either of the parents after the parents voluntarily leave the child with the caretaker relative or a parent whom the caretaker relative is able to contact is unable or unwilling to regain custody of the child;

(d) no adequate provision, such as the appointment of a guardian ad litem or execution of a power of attorney, has otherwise been made for the educational needs of the child; and

(e) a caretaker relative educational authorization affidavit is completed in compliance with 20-5-503.

(2) A caretaker relative of a child who has voluntarily been given custody of the child by a parent of the child may enroll the child in school unless the child's residency with the caretaker relative is primarily for the purpose of:

(a) attending a particular school; or

(b) participating in athletics at a particular school.

(3) If the child was subject to formal disciplinary action, including suspension or expulsion, at the child's previous school, the school district in which the caretaker relative seeks to enroll the child may either implement the previous school district's disciplinary action without further due process or hold a hearing and determine whether the student's conduct in the previous school district merits denial of enrollment. If the district decides to enroll the child, then the school district may require the child to comply with a behavior contract as a condition of enrollment.

(4) The school district may require additional reasonable evidence that the caretaker relative lives at the address provided in the affidavit.

History: **En. Sec. 2, Ch. 442, L. 2007; amd. Sec. 3, Ch. 211, L. 2011.**

20-5-503. Caretaker relative educational authorization affidavit — use — immunity — format. (1) A caretaker relative of a child who has voluntarily been given custody of the child by a parent of the child has the same authority as a custodial parent of the child to discuss with an educator the educational progress of the child, consent to an educational service, and consent to medical care related to an educational service for the child for which parental consent is usually required if a caretaker relative educational authorization affidavit is completed in compliance with this section.

(2) An affidavit is effective only if it is signed by the caretaker relative, under oath, before a notary public. A clear photographic copy of an affidavit completed in compliance with this section is sufficient in any instance in which an original is required by a school official or health care provider.

(3) Unless parental rights have been judicially terminated or unless the ability to give legal consent for the child to receive an educational service and any medical care related to the educational service for which parental consent is usually required has been granted to the caretaker relative pursuant to 40-4-211 and 40-4-228, a decision by a parent of the child communicated to a school official, a health care provider, or both, regarding the child supersedes a conflicting decision by a caretaker relative made pursuant to an affidavit completed in

compliance with this section. However, a decision by a parent does not supersede a decision by a caretaker relative pursuant to an affidavit completed in compliance with this section if the decision by the parent endangers the life of the child. A school official or health care provider may require reasonable proof of authenticity of a decision by a parent intended to supersede a decision by a caretaker relative.

(4) (a) A public or private entity or individual who acts in good faith reliance on a caretaker relative educational authorization affidavit completed in compliance with this section and who has no actual knowledge of facts contrary to those indicated in the affidavit is not subject to civil liability or criminal prosecution or to a professional disciplinary procedure for an action that would have been proper if the facts had been as the entity or individual believed them to be.

(b) This subsection (4) applies even if an educational service or educationally related medical care, or both, are provided to a child against the wishes of a parent of that child if the person rendering the service does not have actual knowledge of the parent's wishes.

(5) A person who relies on an affidavit completed in compliance with this section has no obligation to make further inquiry or investigation.

(6) An affidavit completed in compliance with this section is effective for the earlier of:

(a) the end of the first school year after delivery of the affidavit to a school district;

(b) until it has been revoked by the caretaker relative; or

(c) until the child no longer resides with the caretaker relative.

(7) If the child ceases to live with the caretaker relative or the caretaker relative revokes the affidavit, the caretaker relative shall provide written notice of that fact to all persons to whom the caretaker relative has given the affidavit or to whom the caretaker relative has caused the affidavit to be given.

(8) This section does not relieve a person from a violation of other law, and this section does not affect the rights of a child's parent except as provided in this section.

(9) A caretaker relative educational authorization affidavit is invalid unless it is written in substantially the following form and contains the warning provided for in paragraph 5 of the format below:

Part 1
School Districts — General Provisions

20-6-101. Definition of elementary and high school districts. (1) As used in this title, except as defined in 20-9-402 for bonding purposes or unless the context clearly indicates otherwise, the term "district" means the territory, regardless of county boundaries, organized under the provisions of this title to provide public educational services under the jurisdiction of the trustees prescribed by this title. High school districts may encompass all or parts of the territory of one or more elementary districts.

(2) (a) An elementary district is a district organized for the purpose of providing public education for all grades up to and including grade 8 and for preschool programs and kindergartens. An elementary district may be inactive if the district attaches to a high school district under the provisions of 20-6-701 to form a K-12 school district.

(b) A high school district is a district organized for the purpose of providing those public educational services authorized by this title for all grades beyond grade 8, including postsecondary programs, except those programs administered by community college districts or the Montana university system. A high school district with an attached elementary district may provide the educational services for an elementary district through the procedures established in 20-6-701 through 20-6-703.

(3) An elementary district is known as "District No....., ... County" and a high school district, except a high school district where a county high school is operated, is known as "High School District No....., ... County". A district is a body corporate and, as a body corporate, may sue and be sued, contract and be contracted with, and acquire, hold, use, and dispose of real or personal property for school purposes, within the limitations prescribed by law. Unless the context clearly indicates otherwise, the trustees of elementary districts and high school districts have the same types of powers, duties, and responsibilities authorized and imposed by the laws of Montana.

(4) As used in this title, unless the context clearly indicates otherwise, a county high school is a high school district that has not unified with an elementary district under 20-6-312.

20-6-102. Confirmation of existing district boundaries. All districts established under the laws of the state of Montana or the territory of Montana and defined by the boundaries described in the records of each county on January 26, 1971, shall be recognized as the districts of the state on such date.

History: En. 75-6502 by Sec. 161, Ch. 5, L. 1971; R.C.M. 1947, 75-6502.

20-6-103. Permanent record of district boundaries. (1) The board of county commissioners shall maintain a permanent record that plainly and definitely describes the boundaries of each district within the county. The county superintendent shall keep a transcript of the record in the superintendent's office and is responsible for keeping the record current.

(2) If the county superintendent determines that the boundaries of any elementary district or high school district are in conflict or are incorrectly described, the superintendent shall change, harmonize, and describe the boundaries accurately and shall make a report of the boundary adjustments to the board of county commissioners. When the board of county commissioners approves a district boundary report submitted by the county superintendent, the boundaries are the legal boundaries and description of the district within the county. Whenever district boundaries are clarified under this section, the county superintendent shall supply the trustees of the district with the legal descriptions of the boundaries of their district.

History: En. 75-6504 by Sec. 163, Ch. 5, L. 1971; R.C.M. 1947, 75-6504; amd. Sec. 301, Ch. 56, L. 2009.

20-6-104. Moratorium on creation of new district — exceptions. (1) Except as provided in subsections (2) and (3), a school district may not initiate the creation of a new elementary district or a new high school district.

(2) Pursuant to the provisions of 20-6-326, the trustees or the electors of an existing elementary district may initiate the creation of a new high school district solely for the purpose of expanding into a K-12 district.

(3) The moratorium in subsection (1) does not apply to a district that results from the procedure for the dissolution of a K-12 school district pursuant to 20-6-704.

History: En. Sec. 56, Ch. 633, L. 1993; amd. Sec. 2, Ch. 285, L. 1995; amd. Sec. 15, Ch. 219, L. 1997; amd. Sec. 2, Ch. 194, L. 2007.

20-6-105. Transfer of territory from one district to another — hearing on effects of proposed transfer — burden of proof — standard of proof — appeal to district court. (1) (a) Except as provided in 20-6-214, 20-6-215, 20-6-308, 20-6-322, and subsections (1)(b) and (1)(c) of this section, a petition to transfer territory from one school district to another may be presented to the county superintendent if:

(i) the petition is signed by 60% of the registered electors qualified to vote at general elections in the territory proposed for transfer;

(ii) the territory to be transferred is contiguous to the district to which it is to be attached, includes taxable property, and has school-age children living in it;

(iii) the territory to be transferred is not located within 3 miles, over the shortest practicable route, of an operating school in the district from which it is to be transferred; and

(iv) the board of trustees of the school district that would receive the territory has approved the proposed transfer by a resolution adopted by a majority of the members of the board of trustees at a meeting for which proper notice was given.

(b) A petition to transfer territory to or from a K-12 district may not be presented to a county superintendent unless both school boards and the county superintendents have agreed in writing.

(c) Registered voters within the exterior boundaries of school districts that consolidated during the years 2004 to 2008 may petition for changes in their boundaries under the law in effect on July 1, 2005.

(2) Once a petition to transfer territory has been filed, an additional petition to transfer that territory may not be filed for 4 years unless the county superintendents have agreed in writing.

(3) The petition for a transfer of territory must be delivered to the county superintendent and must:

(a) provide a legal description of the territory that is requested to be transferred and a description of the district to which the territory is to be transferred;

(b) state the reasons why the transfer is requested; and

(c) state the number of school-age children residing in the territory.

(4) If both the trustees of the receiving and transferring school districts have approved the proposed territory transfer in writing, the county superintendent shall grant the transfer.

(5) For any petition that meets the criteria specified in subsection (1) and contains the information required by subsection (3) but that has not been approved in writing by the board of trustees of the school district that would transfer the territory, the county superintendent shall:

(a) not more than 40 days after receipt of the petition, set a place, date, and time for a hearing to consider the petition; and

(b) give notice of the place, date, and time of the hearing. The notice must be posted in the districts affected by the petition for the transfer of territory in the manner prescribed in this title for notices for school elections, with at least one notice posted in the territory to be transferred. Notice must also be delivered to the board of trustees of the school district from which the territory is to be transferred.

(6) The county superintendent shall conduct a hearing as scheduled, and any resident, taxpayer, or representative of the receiving or transferring district must, upon request, be heard. At the hearing, the petitioners have the initial burden of presenting evidence on the proposed transfer's effect on:

(a) the educational opportunity for the students in the receiving and transferring districts, including but not limited to:

(i) class size;

(ii) ability to maintain demographic diversity;

(iii) local control;

(iv) parental involvement; and

(v) the capability of the receiving district to provide educational services;

(b) student transportation, including but not limited to:

(i) safety;

(ii) cost; and

(iii) travel time of students;

(c) the economic viability of the proposed new districts, including but not limited to:

(i) the existence of a significant burden on the taxpayers of the district from which the territory will be transferred;

(ii) the significance of any loss in state funding for the students in both the receiving and transferring districts;

(iii) the viability of the future bonding capacity of the receiving and transferring districts, including but not limited to the ability of the receiving district and the transferring district to meet minimum bonding requirements;

(iv) the ability of the receiving district and the transferring district to maintain sufficient reserves; and

(v) the cumulative effect of other transfers of territory out of the district in the previous 8 years on the taxable value of the district from which the territory is to be transferred. In cases where the cumulative effect of other transfers of territory out of the district in the previous 8 years is equal to or greater than 25% of the district's taxable value, the following additional factors must be considered and weighed in the decision:

(A) the district's rate of passage of discretional levies placed before the voters over the previous 8 years;

(B) the district's reduction or elimination of instructional staff or programs over the previous 8 years; and

(C) any increase in district taxes over the previous 8 years and the likely increase in district taxes if the transfer is granted.

(7) After receiving evidence from both the proponents and opponents of the proposed territory transfer on the effects described in subsection (6), the county superintendent shall, within 30 days after the hearing, issue findings of fact, conclusions of law, and an order.

(8) If, based on a preponderance of the evidence, the county superintendent determines that the evidence on the effects described in subsection (6) supports a conclusion that a transfer of the territory is in the best and collective interest of students in the receiving and transferring districts and does not negatively impact the ability of the districts to serve those students, the county superintendent shall grant the transfer. If the county superintendent determines that, based on a preponderance of the evidence presented at the hearing, a transfer of the territory is not in the best and collective interest of students in the receiving and transferring districts and will negatively impact the ability of the districts to serve those students, the county superintendent shall deny the territory transfer.

(9) The decision of the county superintendent is final 30 days after the date of the decision unless it is appealed to the district court by a resident, taxpayer, or representative of either district affected by the petitioned territory transfer. The county superintendent's decision must be upheld unless the court finds that the county superintendent's decision constituted an abuse of discretion under this section.

(10) Whenever a petition to transfer territory from one district to another district creates a joint district or affects the boundary of an existing joint district, the petition to transfer territory must be delivered to the county superintendent of the county in which the territory proposed to be transferred is located. The county superintendent shall notify any other county superintendents of counties with districts affected by the petition, and the duties prescribed in this section for the county superintendent must be performed jointly. If the number of county superintendents involved is an even number, the county superintendents shall jointly appoint an additional county superintendent from an unaffected county to join them in conducting the hearing required in subsection (6) and in issuing the decision required in subsection (8). The decision issued under subsection (8) must be made by a majority of the county superintendents.

(11) A petition seeking to transfer territory out of or into a K-12 district must propose the transfer of territory for both elementary and high school purposes. In the case of a proposed transfer out of or into a K-12 district, a petition that fails to propose the transfer of territory for both elementary and high school purposes is invalid for the purposes of this section.

History: En. Sec. 1, Ch. 151, L. 2003; amd. Sec. 1, Ch. 284, L. 2007; amd. Sec. 1, Ch. 305, L. 2009.

20-6-106 through 20-6-109 reserved.

20-6-110. Student construction project — disclosure — immunity. (1) The entity that transfers title to a construction project constructed as part of a public education program shall disclose the fact that the construction project was constructed as part of a public education program on at least one document, form, or application executed prior to or contemporaneously with an offer for the purchase, sale, rental, or lease of the construction project. The disclosure provided for in this subsection must be in the following form or in a substantially similar form: "Student Construction Project: This property was constructed as part of a public education program and was in whole or in part constructed by students. The school district or public postsecondary institution responsible for the education program is not liable for civil damages resulting from construction projects constructed as part of a public education program except in cases of gross negligence or willful misconduct."

(2) Except in cases of gross negligence or willful misconduct, a school district or public postsecondary institution is not liable for civil damages resulting from a construction project constructed as part of a public education program if the disclosure required in subsection (1) is made.

(3) As used in this section, "public education program" means a program operated by a public school or a public postsecondary institution.

History: En. Sec. 1, Ch. 521, L. 2005.

Part 2
Elementary School Districts

20-6-201. Elementary district classification. (1) Each elementary district shall have a classification of:

(a) first class, if it has a population of 6,500 or more;

(b) second class, if it has a population of 1,000 or more but less than 6,500; or

(c) third class, if it has a population of less than 1,000.

(2) The population of an elementary district must be determined by the county superintendent on the basis of the best available population information for the district.

(3) The county superintendent shall establish the classification of each elementary district in the county on the basis of the population determined for the district and the district classification criteria prescribed in this section. Whenever the population of an elementary district increases or decreases requiring an adjustment of the district classification according to the criteria prescribed in this section, the county superintendent shall declare the district's classification to be changed in accordance with the determined population, except that the classification of an elementary district may not be changed more than once every 5 years.

(4) Whenever the county superintendent changes an elementary district's classification with the result that a larger number of trustees is required on the elementary board of trustees, the increased number of trustee positions must be filled in the manner provided for in 20-3-302.

History: En. 75-6503 by Sec. 162, Ch. 5, L. 1971; amd. Sec. 1, Ch. 353, L. 1971; amd. Sec. 3, Ch. 137, L. 1973; R.C.M. 1947, 75-6503(part); amd. Sec. 2, Ch. 137, L. 1993.

(1) The county superintendent shall declare an elementary district to be abandoned and order the attachment of the territory of the district to a contiguous district or districts of the county or, with the consent of the county superintendent of an adjacent county, to a contiguous district or districts in the adjacent county when:

(a) a school has not been operated by a district for at least the minimum aggregate hours under the provisions of 20-1-301 for each of 3 consecutive school fiscal years or a lesser number of aggregate hours as approved by the board of trustees under the provisions of 20-9-806; or

(3) Any abandonment under subsection (1)(a) becomes effective on July 1. Any abandonment of an elementary district under subsection (1)(b) becomes effective immediately on the date of the abandonment order.

High School Districts

20-6-301. High school district classification. The classification of a high school district must be the same as the classification of the elementary district (20-6-201) where the high school building is located. If there is more than one elementary district in which operating high school buildings are located, the classification of the high school district must be the same as the classification of the elementary district described in 20-6-201 in which the operating high school building that was first constructed is located. Whenever the classification of such elementary district is changed, the classification of a high school district must be changed accordingly and the county superintendent shall adjust the number of additional high school district trustee positions in accordance with the method prescribed in 20-3-354 for the determination of the number of additional trustee positions required for a high school district. An increased number of trustee positions must be filled by the appointment of the county superintendent, and those positions are subject to election at the next regular trustee election. When the number of positions is decreased, the next additional high school trustee positions that become vacant under any circumstances may not be filled until the number of trustee positions has been reduced to the number required by law.

The territory of an existing joint high school district must remain a part of the joint high school district.

(2) A proposition to unify a county high school with the elementary district where the county high school building is located must be introduced whenever:

(a) the trustees of the county high school and the trustees of the elementary district individually pass resolutions requesting the county superintendent to order an election to consider a unification proposition; or

(b) not less than 20% of the electors of the high school district where the county high school is located who are qualified to vote under the provisions of 20-20-301 petition the county superintendent to order an election to consider a unification proposition.

(3) When the county superintendent has received the trustees' resolutions or a valid petition, the county superintendent shall, within 10 days after the receipt of the last resolution or petition and under the provisions of 20-20-201, order the county high school to call an election to consider a unification proposition. The trustees of the county high school shall call and conduct an election in the manner prescribed in this title for school elections. An elector who may vote on the unification proposition must be qualified to vote under the provisions of 20-20-301. The ballot for a county high school unification proposition must be substantially in the following form:

"OFFICIAL BALLOT

COUNTY HIGH SCHOOL UNIFICATION ELECTION

Shall.... County High School be unified with District No....., ... County to establish a unified school system under a unified board of trustees?

FOR the unification of the county high school.

(4) When the county superintendent receives the election certificate from the trustees of the county high school, the county superintendent shall issue an order declaring the unification of the county high school with the elementary district identified on the ballot as of the next July 1, if a majority of those electors voting at the election have voted for the unification proposition.

(5) If a majority of those electors voting at the election have voted against the unification proposition, the county superintendent shall order the disapproval of the unification proposition.

(a) The county high school trustees, who do not have the capacity to govern the high school district upon unification, shall surrender all minutes, documents, and other records of the county high school to the trustees of the high school district.

(b) The county superintendent shall order the establishment of additional high school trustee nominating areas in the manner prescribed in 20-3-352 and 20-3-353, if requested to do so by a majority of the outlying elementary districts located in the high school district. When the county superintendent establishes the areas, the county superintendent shall appoint additional high school district trustees from each area, who shall hold office until a successor is elected at the next regular school election and qualified.

(c) The county treasurer, after allowing for any outstanding or registered warrants, shall transfer all end-of-the-year fund cash balances of the county high school to similar funds established for the high school district. All previous years' taxes levied and collected for the county high school shall be credited to the appropriate fund of the high school district.

(2) All county high school bonds outstanding at the time of unification shall remain the obligation of the county or that portion of the county against which the bonds were originally issued. The high school district is responsible for the maintenance of the debt service fund for the bonds. It is the duty of the board of county commissioners and the trustees of the high school district to perform the duties prescribed in the school budgeting and bond redemption provisions of this title for the redemption and interest payments of the county high school bonds in the same manner and by the same means as though the county high school had not been unified.

20-6-326. Procedure for creation of high school district solely for expansion into K-12 school district — trustee resolution. (1) An existing elementary district may create a high school district solely for the purpose of expanding an elementary district into a K-12 district only if:

(a) the nearest elementary school building is located at a distance of at least 40 miles from the nearest accessible high school;

(b) the trip from the nearest elementary school building to the nearest accessible high school is 60 minutes or more over the shortest passable route;

(c) periodically during the school year, the condition of the road makes it impractical to attend the nearest accessible high school; and

(d) at least 50 high school students reside in the elementary district; and

(e) the taxable valuation and boundaries of the combining elementary and high school district are the same.

(2) The creation of a new high school district may be requested by the trustees of an existing elementary district through passage of a resolution that includes the information outlined in 20-6-105(3) and requests the county superintendent to order an election to allow the electors of the elementary district to consider the proposition to create a high school district solely for the purpose of expanding the elementary school district into a K-12 district. Approval of the proposition results in a tax levy for payments as provided in subsection (6)(b).

(3) If the proposition for the expansion and the transition levy provided for in 20-9-502(6) is approved by the electors of the elementary district and the trustees issue a certificate of election as provided in 20-20-416, the county superintendent shall order the creation of the high school district and oversee the expansion of the high school district into a K-12 district pursuant to 20-6-701.

(4) The county superintendent shall send a copy of the order to the board of county commissioners and to the trustees of the districts affected by the creation of the district.

(5) If a new district is created, the effective date of its creation is the following July 1. The trustees of the elementary district must be designated as the trustees of the new K-12 district.

(6) Until the first school fiscal year in which the new K-12 district enrolls high school students in all grades, the existing high school district shall provide high school instruction to students residing in the newly created K-12 district with the K-12 district paying the existing high school district:

(a) tuition and transportation charged pursuant to the provisions of 20-5-320 and 20-5-321; and

(b) an amount equal to the BASE general fund mills for the existing high school district assessed against the taxable valuation in the new K-12 district and funded using a building reserve fund levy for transition costs as provided in 20-9-502. The payment to the existing high school district must be deposited in the district general fund and used to reduce the BASE budget levy.

(7) If bonded indebtedness has been approved by the voters of the existing high school district prior to April 12, 2007, but the bonds have not been sold prior to the creation of the new K-12 district, then the future indebtedness of those bonds when those bonds are sold must be paid by levies on the original territory.

(8) If the K-12 school district does not open and operate a high school within 3 years after the effective date of the creation of the new district, the order of the county superintendent creating a new district under this section is void, the new district ceases to exist, and the trustees of the new district have no capacity to act. Those trustees retain authority as trustees of the elementary district.

20-6-410. Tenure protected — hiring preference for employees. (1) Whenever two or more school districts consolidate or join through annexation to organize into a single district in the manner provided for in Title 20, chapter 6, a principal, teacher, or other certified employee of the school districts who has a right of tenure under Montana law must be given absolute preference in hiring for the first school fiscal year for any vacant position with the consolidated or enlarged district for which the employee is qualified with the required certification endorsements. Upon acceptance of a position, the certified employee continues to have tenure in the consolidated or enlarged district and the board of trustees of the consolidated or enlarged school district in which the person will perform duties shall recognize and give effect to the right of tenure.

(2) A noncertified, nonprobationary employee of a school district that consolidates or joins another district through annexation must be given preference in hiring for the first school fiscal year for any vacant position with the consolidated or enlarged district for which the employee has substantially equal qualifications and, upon acceptance of a position, may not be given probationary status.

History: En. Sec. 1, Ch. 497, L. 1991.

20-6-411. Bonded indebtedness to remain with original territory except when assumed by election. Whenever district boundaries are changed in any manner prescribed in this title, the existing bonded indebtedness against any district or territory affected by a change of boundaries remains the indebtedness of the original territory against which the bonds were issued and must be paid by levies on the original territory, except when districts are consolidated with the mutual assumption of bonded indebtedness or when a district is annexed with a joint assumption of the annexing district's bonded indebtedness. Any money to the credit of the debt service fund of a district when its boundaries are changed must be used to pay the existing bond principal and interest of the original territory issuing the bonds as it becomes due or for bond redemption under the bonding provisions of this title.

Whenever a district ceases to exist in any manner prescribed in this title, except when districts are consolidated, the cash on hand to the credit of the funds of the district and the debts of the former district must be allocated in the following manner:

(1) Any cash to the credit of the district must be used to pay any debts of the district, including bonded indebtedness, except that any cash available in the debt service fund must be used first to pay bond interest and all outstanding bonds.

(2) If any cash remains to the credit of the district after paying its debts, the cash must be transferred by the county treasurer to the credit of the district or districts assuming its territory. When the territory is assumed by more than one district, the remaining cash must be prorated between the districts on the basis of the taxable value of the territory assumed by each district as determined by the county superintendent.

(3) If any tuition debt remains as an obligation of the district, the tuition debt is the obligation of the taxable property of the discontinued district, except when the tuition debt has been assumed by the consolidated or annexing district. The tuition debt must be financed by a mill levy on the property of the discontinued district and paid from these proceeds by the county superintendent.

(4) If any debts, other than bonded indebtedness and tuition, remain as an obligation of the district after the cash has been utilized under the provisions of subsection (1), the debts must be assigned in the same manner prescribed for the transfer of cash under subsection (2).

In addition, when two or more districts are consolidated with the mutual assumption of bonded indebtedness, the cash credited to the debt service fund and the bonded indebtedness also must be transferred to a similar fund of the consolidated district.

(b) a second-class district is annexed to a first-class district.

History: En. Sec. 1, Ch. 510, L. 2005.

20-6-422. District annexation. (1) As used in this section, the following definitions apply:

(a) "Annexing district" means the district to which another district is being attached through an annexation procedure.

(b) "District to be annexed" means the district that is being attached to another district through an annexation procedure.

(2) A district may be annexed to a contiguous district when one of the conditions of 20-6-421 is met in accordance with the following procedure:

(a) An annexation proposition may be introduced in the district to be annexed by either of the two following methods:

(i) the trustees may pass a resolution requesting the county superintendent of the county where the district is located to order an election to consider an annexation proposition for their district; or

(ii) not less than 20% of the electors of the district who are qualified to vote under the provisions of 20-20-301 may petition the county superintendent of the county where the district is located requesting an election to consider an annexation proposition for their district.

(b) The resolution or petition must state whether the annexation is to be made with or without the joint assumption of bonded indebtedness of the annexing district by the district to be annexed and the annexing district.

(3) Before ordering an election on the proposition, the county superintendent of the county where the district to be annexed is located must first receive from the trustees of the annexing district a resolution giving the county superintendent the authority to annex the district. The resolution must state whether the annexation is to be made with or without the joint assumption of bonded indebtedness of the annexing district by the district to be annexed and the annexing district. The resolution from the annexing district and the resolution or petition from the district to be annexed must agree on whether or not there will be joint assumption of bonded indebtedness. Without agreement, the annexation proposition may not be considered further.

(4) When the county superintendent of the county where the district to be annexed is located has received the resolution authorizing the annexation from the annexing district and the resolution or valid petition from the district to be annexed, the county superintendent shall, within 10 days and as provided by 20-20-201, order the trustees of the district to be annexed to call an annexation election.

(5) The district to be annexed shall call and conduct an election in the manner prescribed in this title for school elections and subject to subsections (6) and (7). Any elector qualified to vote under the provisions of 20-20-301 may vote.

(6) (a) If the district to be annexed is to jointly assume the bonded indebtedness of the annexing district, the ballots must read, after stating the annexation proposition, "FOR annexation with assumption of bonded indebtedness" and "AGAINST annexation with assumption of bonded indebtedness".

(b) When the trustees in the district conducting the election canvass the vote under the provisions of 20-20-415, they shall determine the number of votes "FOR" and "AGAINST" the proposition.

(c) The proposition is approved in the district if a majority of those voting approve the proposition.

(7) If the district to be annexed is not to jointly assume the bonded indebtedness of the annexing district, the ballots must read, after stating the annexation proposition, "FOR annexation without assumption of bonded indebtedness" and "AGAINST annexation without

assumption of bonded indebtedness". The annexation proposition is approved by a district if a majority of those voting in a district approve the proposition.

(8) After the county superintendent of the county where the district to be annexed is located has received the election certification provided for in 20-20-416 from the trustees of the district conducting the annexation election and if the annexation proposition has been approved by the election, the county superintendent shall order the annexation of the territory of the district voting on the proposition to the district that has authorized the annexation to its territory effective July 1. The order must be issued within 10 days after the receipt of the election certificate. For annexation with joint assumption of bonded indebtedness, the order must specify that there will be joint assumption of the bonded indebtedness of the annexing district by the owners of all taxable real and personal property in the territory of the district to be annexed. The county superintendent of the county where the district to be annexed is located shall send a copy of the order to the board of county commissioners of each county involved in the annexation order and to the trustees of the districts involved in the annexation order.

(9) If the annexation proposition is disapproved in the district to be annexed, the annexation proposition fails and the county superintendent of the county where the district to be annexed is located shall notify each district of the disapproval of the annexation proposition.

History: En. Sec. 2, Ch. 510, L. 2005; amd. Sec. 14, Ch. 510, L. 2005; amd. Sec. 4, Ch. 60, L. 2009.

Any two or more contiguous high school districts may be consolidated to organize a high school district. Any two or more contiguous K-12 school districts may be consolidated to organize a K-12 school district. The consolidation must be conducted as provided in this section.

(2) (a) A consolidation proposition may be introduced, individually, in each of the districts by either of the two following methods:

(i) the trustees may pass a resolution requesting the county superintendent of the county where the district is located to order an election to consider a consolidation proposition involving their district; or

(ii) not less than 20% of the electors of an individual district who are qualified to vote under the provisions of 20-20-301 may petition the county superintendent of the county where the district is located requesting an election to consider a consolidation proposition involving their district.

(b) The resolution or petition must state whether the consolidation is to be made with or without the joint assumption of the bonded indebtedness of each district by all districts included in the consolidation. The resolution or petition from each district must agree on whether or not there will be joint assumption of bonded indebtedness. Without agreement, the consolidation proposition may not be considered further.

(3) When a county superintendent has received a resolution or a valid petition from each of the districts included in the consolidation proposition, the county superintendent shall, within 10 days after the receipt of the last resolution or petition and as provided by 20-20-201, order the trustees of each district included in the consolidation proposition to call a consolidation election to be held no later than December 31 preceding the school year in which the consolidation is to become effective. If the districts involved in the consolidation proposition are located in more than one county, the county superintendents in both counties shall jointly order the district to call a consolidation election.

(4) Each district, individually, shall call and conduct an election in the manner prescribed in this title for school elections and subject to additional requirements of subsections (5) and (6). Any elector qualified to vote under the provisions of 20-20-301 may vote.

(5) (a) If the districts to be consolidated are to jointly assume the bonded indebtedness of each district involved in the consolidation, the ballots must read, after stating the consolidation proposition, "FOR consolidation with assumption of bonded indebtedness" and "AGAINST consolidation with assumption of bonded indebtedness".

(b) When the trustees in each district conducting an election canvass the vote under the provisions of 20-20-415, they shall determine the number of votes "FOR" and "AGAINST" the proposition.

(c) The proposition is approved in the district if a majority of those voting approve the proposition.

(6) If the districts to be consolidated are not to jointly assume the bonded indebtedness of each district involved in the consolidation, the ballots must read, after stating the consolidation proposition, "FOR consolidation without assumption of bonded indebtedness" and "AGAINST consolidation without assumption of bonded indebtedness". The consolidation proposition is approved by a district if a majority of those voting in a district approve the proposition. Otherwise it is disapproved.

(7) (a) After the county superintendent of each county where a district involved in the consolidation proposition is located has received the election certification provided for in 20-20-416 from the trustees of each district included in a consolidation proposition, the appropriate county superintendent shall determine if the consolidation proposition has been approved in each district. If each district has approved the consolidation proposition, each county superintendent shall, within 10 days after the receipt of the last election certificate, order the consolidation of the districts effective July 1 of the ensuing school fiscal year. The order must:

(i) for consolidation with the joint assumption of bonded indebtedness, specify that there will be joint assumption of bonded indebtedness between the owners of all taxable real and personal property in each district forming the consolidated district;

(ii) specify the number of the consolidated district; and

(iii) establish an interim board of trustees for the consolidated district as provided in 20-6-424. The trustees shall serve until their successors are elected at the next succeeding regular school election and qualified.

(b) Each county superintendent shall send a copy of the order to the board of county commissioners of each county where a district involved in the consolidation proposition is located and to the trustees of each district incorporated in the consolidation order.

(8) If any district included in the consolidation proposition disapproves the consolidation proposition, the consolidation of all districts fails and the appropriate county superintendent shall notify each district of the disapproval of the consolidation proposition.

History: En. Sec. 3, Ch. 510, L. 2005; amd. Sec. 14, Ch. 510, L. 2005.

20-6-424. Interim governance of consolidated district. (1) Upon passage of a consolidation proposition under the provisions of 20-6-423, an interim board of trustees made up of all of the members of the boards of trustees of the districts that consolidated shall serve as the trustees for the consolidated district from the date of the consolidation order until the newly elected board of the consolidated district is organized under 20-3-321. The interim board of trustees shall elect a presiding officer from among its members.

(2) The trustees of each district incorporated in the consolidation order shall continue to perform those duties related to the operation of their individual districts until the effective date of the consolidation. The interim board of trustees shall perform those duties related to the formation of and transition to the consolidated district, including but not limited to:

(a) calling an election of the new board of trustees for the consolidated district to be held on the regular election day preceding the effective date of the consolidation; and

(b) if necessary, calling an election under 20-9-353 for the ensuing budget year of the consolidated district.

(3) At the next regular school election following the consolidation election, trustees for the consolidated district must be elected in accordance with the election provisions of Title 13 and Title 20. The term of office is 3 years, except that the initial terms of the newly elected trustees must be selected by lot in order to comply with the provisions of 20-3-302.

20-6-501. Definition of various schools. As used in this title, unless the context clearly indicates otherwise, the term "school" means an institution for the teaching of children that is established and maintained under the laws of the state of Montana at public expense. The trustees of a district shall designate the grade assignments for the schools of the district, but for the purposes of this title each school is known as:

(1) an elementary school when it comprises the work of any combination of kindergarten, other preschool programs, or the first eight grades or their equivalents. A middle school is a school comprising the work of grades 4 through 8 or any combination of grades 4 through 8 that has been accredited as a middle school under the provisions of 20-7-102. When an accredited junior high school is operated by the district, grades 7 and 8 or their equivalents may not be considered as elementary grades.

(2) a high school when it comprises the work of one or more grades of schoolwork or their equivalents intermediate between the elementary schools and the institutions of higher education of the state of Montana. Types of high schools are designated as follows:

(a) a junior high school is a school comprising the work of grades 7 through 9 or their equivalents that has been accredited as a junior high school under the provisions of 20-7-102;

(b) a senior high school is a school that comprises the work of grades 10 through 12 or their equivalents and that is operated in conjunction with a junior high school;

20-6-502. Opening or reopening of elementary school. The trustees of any elementary district may open or reopen an elementary school of the district when the opening or reopening has been approved in accordance with the following procedure:

(1) The parents of at least two pupils who would attend the opened or reopened school petition the trustees of the district to open or reopen a school. The petition must identify the school, state the reasons for requesting the opening or reopening, and give the names of the children who would attend the school.

(2) If the trustees approve the opening or reopening of a school, they shall send the petition with a copy of their approval resolution to the county superintendent. The county superintendent shall review the petition to determine if the average number belonging (ANB) of the school would be two or more. If the trustees plan to open or reopen the school during the current school fiscal year, the trustees shall include the proposed opening date in the approval resolution and shall request that the process outlined in this section be expedited.

(3) The county superintendent shall present the petition, the trustees' approval, and the county superintendent's findings on the probable ANB to the board of county commissioners for their consideration. The board shall deny the opening or reopening of any school if the county superintendent's enrollment estimate for the school is less than two ANB. In all other cases, the board may approve or disapprove the requested opening or reopening of the elementary school.

(4) (a) If the board approves a school opening or reopening, the county superintendent shall send a copy of the approval, along with the petition, the trustees' approval, and the county superintendent's estimate of the probable ANB, to the superintendent of public instruction. Except under the circumstances described in subsection (4)(b), the trustees shall apply to the superintendent of public instruction for approval to open or reopen the school by June 1 prior to the beginning of the school year in which they intend to open or reopen the elementary school. The superintendent of public instruction shall approve or disapprove the requested opening or reopening of the elementary school by the fourth Monday of June. If the opening or reopening is approved, the superintendent of public instruction shall approve or adjust the ANB estimate of the county superintendent for the school and the ANB amount must be used for budgeting and BASE funding program purposes during the ensuing school fiscal year. An ANB amount may

not be approved for the ensuing school fiscal year for an opening or reopening school when the request for the school has not been received by the superintendent of public instruction by June 1.

(b) (i) If the opening or reopening is approved and the trustees want to open or reopen the school during the current school fiscal year, the trustees shall submit a budget request to the superintendent of public instruction for that portion of the fiscal year in which the school will be in operation prior to the ensuing school fiscal year. The superintendent of public instruction shall approve or adjust the budget request and shall fund the budget for the portion of the school year in which the school will be in operation.

(ii) Before a school may open or reopen during the current school fiscal year, the school must be classified as an isolated school in accordance with the provisions of 20-9-302, except that the dates in that section for the submission and approval of the application for classification do not apply and the application must be made at the same time that the application for opening or reopening the school is made.

When the trustees of a high school district resolve to open or reopen a high school, they shall apply to the superintendent of public instruction for approval to open or reopen such school by June 1 before the school fiscal year in which they intend to open or reopen the high school. The ANB determined by the county superintendent shall be used for budgeting and BASE funding program purposes.

(4) Nothing herein contained shall be construed so as to preclude the trustees of a high school district from establishing more than one high school in the district.

(2) When the joint board of trustees resolves to open a junior high school, they shall order an election under the provisions of 20-20-201 to submit a proposition to the electors of the district to approve or disapprove the trustees' resolution to open a junior high school. The joint board of trustees shall call and conduct the election in the manner prescribed in this title for school elections and equally share the cost of the election. Any elector qualified to vote under the provisions of 20-20-301 may vote on the proposition. If a majority of the electors voting at the election approve the proposition, the trustees shall apply to the superintendent of public instruction for approval to open a junior high school. If a majority of the electors voting at the election disapprove the proposition, a junior high school shall not be opened by the joint board of trustees.

(3) The application to the superintendent of public instruction for the approval to open a junior high school shall be submitted by June 1 following the election approving the opening of the junior high school. The application shall contain such information as is required under 20-6-503 for an application to open a high school.

(4) The superintendent of public instruction shall investigate the application for the opening of a junior high school and shall approve or disapprove the opening of the junior high school before the fourth Monday of June preceding the first year of intended operation. If the opening is approved, the joint board of trustees may open the junior high school.

(5) At any time the trustees of the elementary district and the trustees of the high school district shall cease to form a joint board of trustees under the provisions of 20-3-361, the junior high school shall be closed and the districts shall assume the provision of an educational program for the junior high school pupils of their respective districts.

(1) Whenever the opening of a junior high school is approved for the ensuing school fiscal year under 20-6-505, the county superintendent shall estimate the average number belonging (ANB) after investigating the probable enrollment for the junior high school. (2) The cost of operating the junior high school must be prorated between the elementary district and the high school district on the basis of the ratio that the number of pupils of their district is to the total enrollment of the junior high school.

(1) The trustees of a district may purchase, build, exchange, or otherwise acquire, sell, or dispose of sites and buildings of the district. Action may not be taken by the trustees without the approval of the qualified electors of the district at an election called for the purpose of approval unless:

(a) a bond issue has been authorized for the purpose of constructing, purchasing, or acquiring the site or building;

(b) an additional levy under the provisions of 20-9-353 has been approved for the purpose of constructing, purchasing, or acquiring the site or building;

(c) the cost of constructing, purchasing, or acquiring the site or building is financed without exceeding the maximum general fund budget amount for the district and, in the case of a site purchase, the site has been approved under the provisions of 20-6-621; or

(d) money is otherwise available under the provisions of this title and the ballot for the site approval for the building incorporated a description of the building to be located on the site.

(2) Except for land that is granted to or held by the state in trust or land acquired by conditional deed under the provisions of 20-6-605, the trustees may, upon approval by the electorate, accept as partial or total consideration for the exchange of the land a binding written agreement by a public or private entity seeking the exchange to use the property to provide a service that benefits the school district. The deed for the exchange of land must contain reversionary clauses that allow for the return of the land to school district ownership if the binding written agreement is not complied with.

(3) When an election is conducted under the provisions of this section, it must be called under the provisions of 20-20-201 and must be conducted in the manner prescribed by this title for school elections. 20-6-604. Sale of property when resolution passed after hearing — appeal procedure. (1) Whenever the trustees of a district determine that a site, building, or any other real or personal property of the district is or is about to become abandoned, obsolete, undesirable, or unsuitable for the school purposes of the district, the trustees may sell or otherwise dispose of the real or personal property in accordance with this section and without conforming to the provisions of 20-6-603. If a decision to sell or dispose of property is made, the trustees shall adopt a resolution to sell or otherwise dispose of the district real or personal property because it is or is about to become abandoned, obsolete, undesirable, or unsuitable for the school purposes of the district.

(2) The resolution may not become effective for 14 days after the notice required in subsection (3) is made.

(3) The trustees shall provide notice of the resolution in the manner required for school elections in 20-20-204.

(4) A taxpayer may appeal the resolution of the trustees, at any time prior to the effective date of the resolution, to the district court by filing a verified petition with the clerk of the court and serving a copy of the petition upon the district. The petition must set out in detail the objections of the petitioner to the adoption of the resolution or to the disposal of the property. The service and filing of the petition stay the resolution until final determination of the matter by the court. The court shall immediately fix the time for a hearing at the earliest convenient time. At the hearing, the court shall hear the matter de novo and may take testimony as it considers necessary. Its proceedings are summary and informal, and its decision is final.

(5) The trustees of a district that has adopted a resolution to sell or otherwise dispose of district real or personal property and, if appealed, has been upheld by the court shall sell or dispose of the real or personal property in any reasonable manner that they determine to be in the best interests of the district.

(6) The money realized from the sale or disposal of real or personal property of the district must be credited to the debt service fund, building fund, general fund, or other appropriate fund, at the discretion of the trustees.

Whenever the trustees acquire land by deed conditioned upon the use of the land for the conduct of school or related activities or whenever land has been used by the trustees at the will or sufferance of the land's owner or claimant and the district has constructed buildings or made other improvements on the land, the owner or claimant may repossess the land if it ceases to be used as specified by deed or, if not specified, for the conduct of school or related activities. However, the owner or claimant shall first notify the trustees in writing of the intent to repossess the land, and the trustees shall have 1 year after receipt to remove any buildings or improvements placed upon the land by the district. The trustees' failure to remove the buildings or improvements within that time constitutes a forfeiture of the buildings or improvements. Before the owner or claimant has the right to give notice of repossession, the district's intention to permanently cease using the land must have been established by resolution of the trustees and a vote of the district's electors.

K-12 School Districts

20-6-701. K-12 school districts required — definition — procedure for creation — exception. (1) Except as provided in subsection (4), each elementary district with the same district boundaries as a high school district shall attach to the high school district for the purpose of establishing a K-12 school district.

(2) For the purposes of this title, unless the context clearly indicates otherwise, "K-12 school district" means a high school district with an elementary district that has been attached to the high school district under the procedures provided in this section, with the high school district remaining an organized district under the provisions of 20-6-101 and other provisions of law and the elementary district becoming an inactive district under the provisions of 20-6-101.

(3) The attachment of an elementary district to a high school district to form a K-12 school district must be conducted under the following procedure:

(a) The trustees of each district shall pass a resolution requesting the county superintendent to order an attachment involving their districts.

(b) When the county superintendent receives a resolution from each of the districts, the county superintendent shall, within 10 days after receipt of the last resolution, order the attachment of the elementary district to the high school district to take effect on July 1 of the ensuing school fiscal year. Within 30 days of the order, the county superintendent shall send a copy of the order to the board of county commissioners, the trustees of the districts included in the attachment order, and the superintendent of public instruction.

(4) This section does not apply to a school district receiving federal impact aid funding, as provided in 20 U.S.C. 7701, et seq., if creation or continuation of a K-12 district has resulted in or will result in the loss of federal impact aid funding.

History: En. Sec. 1, Ch. 555, L. 1991; amd. Sec. 1, Ch. 194, L. 1993; amd. Sec. 12, Ch. 22, L. 1997; amd. Sec. 1, Ch. 95, L. 1997.

20-6-702. Funding for K-12 school districts. (1) Notwithstanding the provisions of subsections (2) through (6), a K-12 school district formed under the provisions of 20-6-701 is subject to the provisions of law for high school districts.

(2) The number of elected trustees of the K-12 school district must be based on the classification of the attached elementary district under the provisions of 20-3-341 and 20-3-351.

(3) Calculations for the following must be made separately for the elementary school program and the high school program of a K-12 school district:

(a) the calculation of ANB for purposes of determining the total per-ANB entitlements must be in accordance with the provisions of 20-9-311;

(b) the basic county tax for elementary equalization and revenue for the elementary BASE funding program for the district must be determined in accordance with the provisions of 20-9-331, and the basic county tax for high school equalization and revenue for the high school BASE funding program for the district must be determined in accordance with 20-9-333; and

(c) the guaranteed tax base aid for BASE funding program purposes for a K-12 school district must be calculated separately, using each district's guaranteed tax base ratio, as defined in 20-9-366. The BASE budget levy to be levied for the K-12 school district must be prorated based on the ratio of the BASE funding program amounts for elementary school programs to the BASE funding program amounts for high school programs.

(4) The retirement obligation and eligibility for retirement guaranteed tax base aid for a K-12 school district must be calculated and funded as a high school district retirement obligation under the provisions of 20-9-501.

(5) For the purposes of budgeting for a K-12 school district, the trustees shall adopt a single fund for any of the budgeted or nonbudgeted funds described in 20-9-201 for the costs of operating all grades and programs of the district.

(6) Tuition for attendance in the K-12 school district must be determined separately for high school pupils and for elementary pupils under the provisions of 20-5-320 through 20-5-324, except that the actual expenditures used for calculations in 20-5-323 must be based on an amount prorated between the elementary and high school programs in the appropriate funds of each district in the year prior to the attachment of the districts.

(a) the county superintendent shall order the trustees to execute all necessary and appropriate deeds, bills of sale, or other instruments for the conveyance of title to all real and personal property of the elementary district to the high school district;

(b) the trustees of the elementary district shall entrust the minutes of the board of trustees, the elementary district documents, and other records to the high school district to which it is attached; and

(c) the county treasurer shall transfer all end-of-the-year warrants and fund balances of the attached elementary district to the similar funds established for the K-12 school district in the high school district.

(2) All taxes levied by and revenue due from a previous school fiscal year to an elementary district attached to a high school district must be payable to the appropriate fund of the high school district.

(3) The previous year's general fund budget amounts for the elementary district and the high school district that form a K-12 school district must be combined to determine the budget limitation for the ensuing school fiscal year pursuant to 20-9-308.

20-6-704. Dissolution of K-12 school district. (1) Except as provided in subsection (2), in order to dissolve a K-12 district under the provisions of this section, the trustees of a district shall submit for approval to the electors of the K-12 district a proposition dissolving the K-12 district for the purpose of annexing or consolidating the K-12 district's elementary or high school program with a contiguous school district or districts in an ensuing school fiscal year under the provisions of 20-6-422 or 20-6-423.

(2) If the trustees of the school district determine that the creation or continuation of the K-12 district has resulted in or will result in the loss of federal funding for the elementary or high school programs and that it is in the best interest of the district to dissolve into the original elementary district and high school district that existed prior to the formation of the K-12 district, the trustees may dissolve the district under the following procedure:

(a) The trustees of the district shall pass a resolution requesting the county superintendent to order a dissolution of the district.

(b) When the county superintendent receives the resolution from the district, the county superintendent shall, within 10 days, order the dissolution of the K-12 district into the original elementary district and high school district, to take effect on July 1 of the ensuing school fiscal year. Within 30 days of the order, the county superintendent shall send a copy of the order to the board of county commissioners, the trustees of the district, and the superintendent of public instruction.

(3) If the entire territory of the dissolving K-12 district will be annexed to or consolidated with a contiguous district or districts, the resolution or petition required in subsection (1) or (2) must contain a description of the manner in which the real and personal property and funds of the district are to be apportioned in the dissolution of the district and the subsequent annexation to or consolidation with one or more other districts. If a portion of the dissolving K-12 district will not be annexed or consolidated with another district or districts, the resolution or petition must

contain a description of the manner in which the property, funds, and financial obligations, including bonded indebtedness, of the K-12 district are to be apportioned to the district or districts whose territory is not annexed to or consolidated with another district.

(4) After the county superintendent receives the certificate of election provided for in 20-20-416 from the trustees of the K-12 district and from each district included in a consolidation proposition, the county superintendent shall determine whether the dissolution and annexation or consolidation proposition or propositions have been approved. If the K-12 district has approved the dissolution proposition and each district involved in a consolidation has approved the consolidation proposition, the county superintendent shall, within 10 days after the receipt of the election certificate, order the dissolution of the K-12 district into the original elementary district and high school district, to take effect on July 1 of the ensuing school fiscal year. Within 30 days of the order, the county superintendent shall send a copy of the dissolution order to the board of county commissioners, the trustees of the district included in the dissolution order, and the superintendent of public instruction.

(5) Whenever a K-12 district is dissolved, the following provisions apply:

(a) The trustees of the district whose territory is not annexed or consolidated upon dissolution of the K-12 district are responsible for the execution of remaining financial obligations of the K-12 district and for the apportionment between the elementary and high school programs of any obligations not identified in the resolution required under subsection (3).

(b) The provisions of 20-6-410 apply for tenure teachers in the dissolution of a K-12 district.

(c) For purposes of applying the budget limitation provisions of 20-9-308, the budget of a K-12 district during its last year of operations as a K-12 district will be prorated based on rules promulgated by the superintendent of public instruction.

(1) Whenever an elementary district is attached to a high school district to form a K-12 school district under the provisions of 20-6-701, a district superintendent, principal, teacher, or other certified employee of the elementary district who has a right of tenure under Montana law continues to have tenure in the K-12 district and the board of trustees of the high school district in which the person will perform duties shall recognize and give effect to the right of tenure.

(2) A noncertified, nonprobationary employee of an elementary district that is attached to a high school district to form a K-12 district must be given preference in hiring for any position with the K-12 district for which the employee has substantially equal qualifications and, upon acceptance of a position, may not be given probationary status.

The recommendations presented to the board must include an economic impact statement, as described in 2-4-405, prepared in consultation with the negotiated rulemaking committee under subsection (2).

(2) The accreditation standards recommended by the superintendent of public instruction must be developed through the negotiated rulemaking process under Title 2, chapter 5, part 1. (3) Prior to adoption or amendment of any accreditation standard, the board shall submit each proposal, including the economic impact statement required under subsection (1), to the education and local government interim committee for review at least 1 month in advance of a scheduled committee meeting.

(4) Unless the expenditures by school districts required under the proposal are determined by the education and local government interim committee to be insubstantial expenditures that can be readily absorbed into the budgets of existing district programs, the board may not implement the standard until July 1 following the next regular legislative session and shall request that the same legislature fund implementation of the proposed standard.

(5) Standards for the retention of school records must be as provided in 20-1-212.

20-7-104. Transparency and public availability of public school performance data — reporting — availability for timely use to improve instruction. (1) The office of public instruction's statewide data system must, at a minimum:

(a) include data entry and intuitive reporting options that school districts can use to make timely decisions that improve instruction and impact student performance while creating a collaborative environment for parents, teachers, and students to work together in improving student performance. Options that the office of public instruction shall incorporate and make available for each school district must include data linkages to provide for automated conversion of data from systems already in use by school districts or by the office of public instruction that allow districts to collect, manage, and present local classroom assessment scores, grades, attendance, and other data to assist in instructional intervention alongside the existing school accountability and statewide student achievement results. The office of public instruction shall ensure that the design of the system is enhanced to prioritize collaborative support of each student's needs by classroom educators, administrators, and parents.

(b) display a publicly available educational data profile for each school district that protects each student's education records in compliance with the Family Educational Rights and Privacy Act of 1974, 20 U.S.C. 1232g, as amended, and its implementing regulations at 34 CFR, part 99.

(2) Subject to subsection (1)(b), each school district's educational profile must include, at a minimum, the following elements:

(a) school district contact information and links to district websites, when available;

(b) state criterion-referenced testing results;

(d) student enrollment and demographics by grade level; and

(e) graduation rates.

(3) Each school district shall annually report to the office of public instruction and publish and post on the school district's internet website the following district data for the preceding school year:

(a) the number and type of employee positions, including administrators;

(b) for the current employee in each position:

(i) the total amount of compensation paid to the employee by the district. The total amount of compensation includes but is not limited to the employee's base wage or salary, overtime pay, and other income from school-sanctioned extracurricular activities, including coaching and similar activities; and

(ii) the certification held by and required of the employee;

(c) the student-teacher ratio by grade;

(d) (i) the amount, by category, spent by the district for operation and maintenance, stated in total cost and cost per square foot; and

(ii) the amount of principal and interest paid on bonds;

(e) the total district expenditures per student;

(f) the total budget for all funds;

(g) the total number of students enrolled and the average daily attendance;

(h) the total amount spent by the district on extracurricular activities and the total number of students that participated in extracurricular activities; and

(i) the number of students that entered the 9th grade in the school district but did not graduate from a high school in that district and for which the school district did not receive a transfer request. For reporting purposes, the students identified under this subsection (3)(i) are considered to have dropped out of school.

(4) Each school district shall also post on the school district's internet website a copy of every working agreement the district has with any organized labor organization and the district's costs, if any, associated with employee union representation, collective bargaining, and union grievance procedures and litigation resulting from union employee grievances.

(5) If a school district does not have an internet website, the school district shall publish the information required under subsections (2) and (3) in printed form and provide a copy of the information upon request at the cost incurred by the school district for printing only.

(6) The superintendent of public instruction shall continually work in consultation with the K-12 data task force provided for in 20-7-105 to analyze the best options for a statewide data system that will best enhance the ability of school districts to use data for the purposes identified in this section. Emphasis must be placed on developing or purchasing and customizing a statewide data system that promotes and preserves community ownership and local control and that incorporates innovative technologies available in the marketplace that may be in use and that are successfully working in other states. The office of public instruction and the K-12 data task force shall collaborate to enhance the statewide data system to support:

(a) the needs of school districts in using data to improve instruction and student performance;

(b) the collection of data from schools through a process that provides for automated conversion of data from systems already in use by school districts or the office of public instruction and that resolves the repetition of data entry and redundancy of data requested that has been characteristic of the data system in the past and that otherwise reduces the diversion of district staff time away from instruction and supervision;

(c) increased use of data from the centralized system by various functions within the office of public instruction; and

(d) transparency in reporting to schools, school districts, communities, and the public.

(7) The superintendent of public instruction shall gather, maintain, and distribute longitudinal, actionable data in the following areas:

(j) student-level ACT results, scholastic achievement test results, and advanced placement exam data.

(8) The superintendent of public instruction shall emphasize the creation of and distribution of individual diagnostic data for each student in a manner that is timely and protects the privacy rights of students and families as they relate to education so that school districts may use the data to support timely academic intervention as needed and to otherwise improve the academic achievement of the students of each school district.

(9) In addition to the data privacy protections in subsection (1)(b), the superintendent of public instruction may provide personally identifiable information gathered, maintained, and distributed pursuant to subsection (7) and any other personally identifiable data only to the office of public instruction, the school district where the student is or has been enrolled, the parent, and the student. The superintendent of public instruction may not share, sell, or otherwise release personally identifiable information to any for-profit business, nonprofit organization, public-private partnership, governmental unit, or other entity unless the student's parent has provided written consent specifying the data to be released, the reason for the release, and the recipient to whom the data may be released.

(10) On or before June 30, 2013, the superintendent of public instruction shall begin presenting longitudinal data on academic achievement and shall develop plans for a measurement of growth for the statewide student assessment required by the board of public education.

20-9-132. Final budget adjustment procedures. At the final budget meeting of the trustees, the trustees may make any changes or corrections they may consider necessary or proper in any item or amount of the budget either by eliminating the item or amount or by increasing or reducing the amount of any item. When it appears to the trustees that the amount proposed to be expended for any item of the final budget is in excess of the amount actually required to be expended for the item, the trustees shall reduce the amount to the amount actually required to be expended and shall enter in its minutes the reasons for the reduction. If any appropriation item of the final budget provides for the payment of wages or salary to more than one person, the district shall attach to the budget a separate listing of each position of employment, with the budgeted amount of compensation for each position.

(2) Except as provided in subsection (3), the trustees and all officers and employees of the district are limited in making expenditures or incurring liabilities to the total amount of each fund's budget. Transfers from any appropriation item to another appropriation item within a fund's budget or transfers between different funds or between the final budget and a budget amendment may be made as provided by 20-9-208. Except as provided in subsection (3), money of the district may not be used to pay expenditures made, liabilities incurred, or warrants issued in excess of the final budget established for each budgeted fund.

20-9-141. Computation of general fund net levy requirement by county superintendent. (1) The county superintendent shall compute the levy requirement for each district's general fund on the basis of the following procedure:

(a) Determine the funding required for the district's final general fund budget less the sum of direct state aid, the natural resource development K-12 funding payment, and the special education allowable cost payment for the district by totaling:

(i) the district's nonisolated school BASE budget requirement to be met by a district levy as provided in 20-9-303; and

(ii) any general fund budget amount adopted by the trustees of the district under the provisions of 20-9-308 and 20-9-353.

(b) Determine the money available for the reduction of the property tax on the district for the general fund by totaling:

(i) the general fund balance reappropriated, as established under the provisions of 20-9-104;

(ii) amounts received in the last fiscal year for which revenue reporting was required for each of the following:

(A) interest earned by the investment of general fund cash in accordance with the provisions of 20-9-213(4); and

(B) any other revenue received during the school fiscal year that may be used to finance the general fund, excluding any guaranteed tax base aid;

(iii) anticipated oil and natural gas production taxes;

(iv) pursuant to subsection (4), anticipated revenue from coal gross proceeds under 15-23-703;

(v) school district block grants distributed under 20-9-630; and

(vi) any portion of the increment remitted to a school district under 7-15-4291 used to reduce the BASE levy budget.

(c) Notwithstanding the provisions of subsection (2), subtract the money available to reduce the property tax required to finance the general fund that has been determined in subsection (1)(b) from any general fund budget amount adopted by the trustees of the district, up to the BASE budget amount, to determine the general fund BASE budget levy requirement.

(d) Determine the sum of:

(i) any amount remaining after the determination in subsection (1)(c);

(ii) any portion of the increment remitted to a school district under 7-15-4291 used to reduce the over-BASE budget levy; and

(iii) any tuition payments for out-of-district pupils to be received under the provisions of 20-5-320 through 20-5-324, except the amount of tuition received for a pupil who is a child with a disability in excess of the amount received for a pupil without disabilities, as calculated under 20-5-323(2).

(e) Subtract the amount determined in subsection (1)(d) from any additional funding requirement to be met by an over-BASE budget amount, a district levy as provided in 20-9-303, and any additional financing as provided in 20-9-353 to determine any additional general fund levy requirements.

(2) The county superintendent shall calculate the number of mills to be levied on the taxable property in the district to finance the general fund levy requirement for any amount that does not exceed the BASE budget amount for the district by dividing the amount determined in subsection (1)(c) by the sum of:

(a) the amount of guaranteed tax base aid that the district will receive for each mill levied, as certified by the superintendent of public instruction; and

(b) the current total taxable valuation of the district, as certified by the department of revenue under 15-10-202, divided by 1,000.

(3) The net general fund levy requirement determined in subsections (1)(c) and (1)(d) must be reported to the county commissioners by the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values by the county superintendent as the general fund net levy requirement for the district, and a levy must be set by the county commissioners in accordance with 20-9-142.

(4) For each school district, the department of revenue shall calculate and report to the county superintendent the amount of revenue anticipated for the ensuing fiscal year from revenue from coal gross proceeds under 15-23-703.

20-9-161. Definition of budget amendment for budgeting purposes. As used in this title, unless the context clearly indicates otherwise, the term "budget amendment" for the purpose of school budgeting means an amendment to an adopted budget of the district for the following reasons:

(1) an increase in the enrollment of an elementary or high school district that is beyond what could reasonably have been anticipated at the time of the adoption of the budget for the current school fiscal year whenever, because of the enrollment increase, the district's budget for

any or all of the regularly budgeted funds does not provide sufficient financing to properly maintain and support the district for the entire current school fiscal year;

(2) the destruction or impairment of any school property necessary to the maintenance of the school, by fire, flood, storm, riot, insurrection, or act of God, to an extent rendering school property unfit for its present school use;

(3) a judgment for damages against the district issued by a court after the adoption of the budget for the current year;

(4) an enactment of legislation after the adoption of the budget for the current year that imposes an additional financial obligation on the district;

(5) the receipt of:

(a) a settlement of taxes protested in a prior school fiscal year;

(b) taxes from a prior school fiscal year as the result of a tax audit by the department of revenue or its agents;

(c) delinquent taxes from a prior school fiscal year; and

(d) a determination by the trustees that it is necessary to expend all or a portion of the taxes received under subsection (5)(a), (5)(b), or (5)(c) for a project or projects that were deferred from a previous budget of the district; or

(6) any other unforeseen need of the district that cannot be postponed until the next school year without dire consequences affecting:

(a) the safety of the students and district employees; or

(b) the educational functions of the district. Any budget amendment adopted pursuant to this subsection (6)(b) that in combination with other budget amendments within the same school fiscal year exceeds 10% of the district's adopted general fund budget must be reported by the school district to the education and local government interim committee and the board of public education with an explanation of why the budget amendment is necessary.

20-9-162. Authorization for budget amendment adoption. (1) (a) Notwithstanding the provisions of subsections (2) and (3), a budget amendment may be adopted at any time of the school fiscal year, except that a budget amendment required by an enrollment increase as provided in 20-9-161(1) may not be adopted until after October 1.

(b) The trustees may approve a budget amendment pursuant to 20-9-161(2) through (6) by a resolution.

(c) Whenever the trustees of a district decide that a budget amendment is necessary, they may proclaim the need for the budget amendment by a majority vote of the trustees. The proclamation must state the facts constituting the need for the budget amendment, the funds affected by the budget amendment, the anticipated source of financing, the estimated amount of money required to finance the budget amendment, and the time and place the trustees will meet for the purpose of considering and adopting the budget amendment for the current school fiscal year.

(2) The trustees shall send a copy of the proclamation to the county superintendent and to the board of county commissioners of the county.

20-9-163. Resolution for budget amendment — petition to superintendent of public instruction. (1) Whenever the trustees of a district decide that a budget amendment is necessary because of an enrollment increase, they may petition the superintendent of public instruction to adopt a resolution for the budget amendment. The petition must be signed by a majority of the trustees.

(2) The petition must state the facts constituting the need for the budget amendment, the estimated amount of money required to fund the budget amendment, the funds affected by the budget amendment, the anticipated source of financing for the budget amendment, and the current year enrollment.

(3) The superintendent of public instruction shall promptly approve or disapprove the petition requesting approval to adopt a resolution for a budget amendment because of increased enrollment. The superintendent of public instruction shall adjust the district's maximum general fund budget based on the approved enrollment increase. Upon approval, a district may not adopt a budget amendment if the amount will cause the district to exceed the district's adjusted maximum general fund budget. If the petition is approved, the trustees may adopt a resolution for a budget amendment and take all other steps required for the adoption of a budget amendment. Approval of a petition by the superintendent of public instruction authorizes the board of trustees to initiate a budget amendment by resolution and does not relieve the trustees of the necessity of complying with the requirements of the school budgeting laws. Approval of the petition may not be construed as approval of any subsequent application for increased state aid on account of the budget amendment.

A copy of the budget amendment resolution must be published one time in a newspaper that will give notice to the largest number of people of the district as determined by the trustees, and a copy of the resolution must be posted at each schoolhouse of the district. A copy of the budget amendment resolution must also be delivered to the county superintendent and to the county clerk as the clerk of the board of county commissioners of the county. The publication, posting, and delivery of the resolution must be done not less than 1 week before the day specified in the resolution for the consideration and adoption of a budget amendment.

20-9-165. Budget amendment limitation, preparation, and adoption procedures. (1) The meeting of the trustees to consider and adopt a budget amendment must be open to the public, and any taxpayer in the district has the right to appear and be heard. If at the meeting a majority of the trustees present find that there is sufficient need for a budget amendment, the trustees may make and adopt a final budget amendment, setting forth fully the facts constituting the need for the budget amendment. In adopting the final budget amendment, the trustees may budget for any fund that was included on the final budget of the district for the current school fiscal year. The budget must be itemized to show the amount appropriated for each item.

(2) When the budget amendment is the result of increased enrollment, the maximum amount of the budget amendment for all funds must be determined in the following manner:

(a) determine the total amount in the final budget for the current school fiscal year of all funds affected by the enrollment increase, less any amounts appropriated as capital outlay and any amount appropriated for addition to the operating reserve;

(b) divide the amount determined in subsection (2)(a) by the number of pupils originally enrolled in the district during the immediately preceding school fiscal year. The resulting cost per pupil is the maximum permissible per-pupil expenditure in the budget amendment.

(c) determine the enrollment increase of the current school fiscal year by subtracting the number of pupils originally enrolled during the immediately preceding school fiscal year from the number of pupils enrolled for the current school year. The result is the enrollment increase for the current school fiscal year.

(d) multiply the cost per pupil determined in subsection (2)(b) by the enrollment increase determined in subsection (2)(c). The result is the maximum limitation on a budget amendment for amendments resulting from increased enrollment.

(3) For other types of budget amendments, the budget amendment is limited to the expenditures considered by the trustees to be reasonable and necessary to finance the conditions

of the budget amendment and the final budget amendment must include the details of the proposed expenditures.

(4) Whenever the trustees adopt a budget amendment for the transportation fund, the trustees shall attach to the budget amendment a copy of each transportation contract that is connected with the budget amendment and that has been prepared and executed in accordance with the school transportation contract laws.

(5) After the trustees have adopted the budget amendment by a majority vote of the trustees, it must be signed by the presiding officer of the trustees and the clerk of the district and copies must be sent to the county superintendent and the superintendent of public instruction.

20-9-201. Definitions and application. (1) As used in this title, unless the context clearly indicates otherwise, "fund" means a separate detailed account of receipts and expenditures for a specific purpose as authorized by law or by the superintendent of public instruction under the provisions of subsection (2). Funds are classified as follows:

(a) A "budgeted fund" means any fund for which a budget must be adopted in order to expend money from the fund. The general fund, transportation fund, bus depreciation reserve fund, tuition fund, retirement fund, debt service fund, building reserve fund, adult education fund, nonoperating fund, and any other funds designated by the legislature are budgeted funds.

(b) A "nonbudgeted fund" means any fund for which a budget is not required in order to expend money on deposit in the fund. The school food services fund, miscellaneous programs fund, building fund, lease or rental agreement fund, traffic education fund, interlocal cooperative fund, internal service fund, impact aid fund, enterprise fund, agency fund, extracurricular fund, metal mines tax reserve fund, endowment fund, litigation reserve fund, and any other funds designated by the legislature are nonbudgeted funds.

(2) The school financial administration provisions of this title apply to all money of any elementary or high school district. Elementary and high school districts shall record the receipt and disbursement of all money in accordance with generally accepted accounting principles. The superintendent of public instruction has general supervisory authority as prescribed by law over the school financial administration provisions, as they relate to elementary and high school districts. The superintendent of public instruction shall adopt rules necessary to secure compliance with the law.

(3) Except as otherwise provided by law, whenever the trustees of a district determine that a fund is inactive and will no longer be used, the trustees shall close the fund by transferring all cash and other account balances to any fund considered appropriate by the trustees if the fund does not have a cash or fund balance deficit.

20-9-204. Conflicts of interests, letting contracts, and calling for bids — exceptions. (1) It is unlawful for a trustee to:

(a) have any pecuniary interest, either directly or indirectly, in any contract made by the trustee while acting in that official capacity or by the board of trustees of which the trustee is a member; or

(b) be employed in any capacity by the trustee's own school district, with the exception of officiating at athletic competitions under the auspices of the Montana officials association.

(2) For the purposes of subsection (1):

(a) "contract" does not include:

(i) merchandise sold to the highest bidder at public auctions;

(ii) investments or deposits in financial institutions that are in the business of loaning or receiving money when the investments or deposits are made on a rotating or ratable basis among financial institutions in the community or when there is only one financial institution in the community; or

(iii) contracts for professional services, other than salaried services, or for maintenance or repair services or supplies when the services or supplies are not reasonably available from other sources if the interest of any board member and a determination of the lack of availability are entered in the minutes of the board meeting at which the contract is considered; and

(b) "pecuniary interest" does not include holding an interest of 10% or less in a corporation.

(3) (a) Except for district needs that must be met because of an unforeseen emergency, as defined in 20-3-322(5), or as provided in subsections (4) and (6) of this section, whenever any building, furnishing, repairing, or other work for the benefit of the district or purchasing of supplies for the district is necessary, the work done or the purchase made must be by contract if the sum exceeds $80,000.

(b) Except as provided in Title 18, chapter 2, part 5, each contract must be let to the lowest responsible bidder after advertisement for bids. The advertisement for bids under this subsection (3)(b) must be published in the newspaper that will give notice to the largest number of people of the district as determined by the trustees. The advertisement must be made once each week for 2 consecutive weeks, and the second publication must be made not less than 5 days or more than 12 days before consideration of bids. A contract not let pursuant to this section is void. The bidding requirements applicable to services performed for the benefit of the district under this section do not apply to:

(i) a registered professional engineer, surveyor, real estate appraiser, or registered architect;

(ii) a physician, dentist, pharmacist, or other medical, dental, or health care provider;

(4) A district may enter into a cooperative purchasing contract for the procurement of supplies or services with one or more districts. A district participating in a cooperative purchasing group may purchase supplies and services through the group without complying with the provisions of subsection (3) if the cooperative purchasing group has a publicly available master list of items available with pricing included and provides an opportunity at least twice yearly for any vendor, including a Montana vendor, to compete, based on a lowest responsible bidder standard, for inclusion of the vendor's supplies and services on the cooperative purchasing group's master list.

(5) This section may not require the board of trustees to let a contract for any routine and regularly performed maintenance or repair project or service that can be accomplished by district staff whose regular employment with the school district is related to the routine performance of maintenance for the district.

(6) Subsection (3) does not apply to the solicitation or award of a contract for an investment grade energy audit or an energy performance contract pursuant to Title 90, chapter 4, part 11, including construction and installation of conservation measures pursuant to the energy performance contract.

20-9-208. Transfers among appropriation items of fund — transfers from fund to fund. (1) Whenever it appears to the trustees of a district that the appropriated amount of an item of a budgeted fund of the final budget or a budget amendment is in excess of the amount actually required during the school fiscal year for the appropriation item, the trustees may transfer any of the excess appropriation amount to any other appropriation item of the same budgeted fund.

(2) Unless otherwise restricted by a specific provision in this title, transfers may be made between different funds of the same district or between the final budget and a budget amendment under one of the following circumstances:

(a) (i) Except as provided in subsections (2)(a)(ii) through (2)(a)(iv), transfers may be made from one budgeted fund to another budgeted fund or between the final budget and a budget amendment for a budgeted fund whenever the trustees determine, in their discretion, that the transfer of funds is necessary to improve the efficiency of spending within the district or when an action of the trustees results in savings in one budgeted fund that can be put to more efficient use in another budgeted fund. Transfers may not be made with funds approved by the voters or with funds raised by a nonvoted levy unless:

(A) the transfer is within or directly related to the purposes for which the funds were raised and the trustees hold a properly noticed hearing to accept public comment on the transfer; or

(B) the transfer is approved by the qualified electors of the district in an election called for the purpose of approving the transfer, in which case the funds may be spent for the purpose approved on the ballot.

(ii) Unless otherwise authorized by a specific provision in this title, transfers from the general fund to any other fund and transfers to the general fund from any other fund are prohibited.

(iii) Unless otherwise authorized by a specific provision in this title, transfers from the retirement fund to any other fund are prohibited.

(iv) Unless otherwise authorized by a specific provision in this title, transfers from the debt service fund to any other fund are prohibited.

(b) Transfers may be made from one nonbudgeted fund to another nonbudgeted fund whenever the trustees determine that the transfer of funds is necessary to improve the efficiency of spending within the district. Transfers may not be made with funds restricted by federal law unless the transfer is in compliance with any restrictions or conditions imposed by federal law. Before a transfer can occur, the trustees shall hold a properly noticed hearing to accept public comment on the transfer.

(3) The trustees shall enter the authorized transfers upon the permanent records of the district.

(4) The intent of this section is to increase the flexibility and efficiency of school districts without an increase in local taxes. In furtherance of this intent, if transfers of funds are made from any school district fund supported by a nonvoted levy, the district may not increase its nonvoted levy for the purpose of restoring the amount of funds transferred.

(3) The intent of this section is to increase the flexibility and efficiency of school districts without an increase in local taxes. (1) An elementary school that has an ANB of nine or fewer pupils for 2 consecutive years and that is not approved as an isolated school under the provisions of 20-9-302 may budget and spend the BASE budget amount, but the county and state shall provide one-half of the direct state aid, and the district shall finance the remaining one-half of the direct state aid by a tax levied on the property of the district. 20-9-305. Proration and calculation of BASE funding program for joint district. (1) In joint districts, the direct state aid of a joint district must be prorated among the counties in which any part of the joint district is located for the purpose of determining the amount of each source of revenue for the direct state aid for which each county is obligated. The proration of the joint district direct state aid must be calculated as follows:

(a) Divide the joint district direct state aid by the ANB of the joint district to determine the per-ANB amount of the direct state aid.

(b) Determine the ANB for each county's portion of the joint district on the basis of each pupil's resident county. When taken together, the sum of the ANB assigned to all the counties must equal the total ANB for the joint district.

(c) Multiply the per-ANB amount of the direct state aid determined in subsection (1)(a) by the ANB for each county's portion, as determined in subsection (1)(b), to determine the portion of the direct state aid for each county.

(2) The portion of a joint district direct state aid for each county, as determined in subsection (1)(c), is a separate direct state aid amount in the county for the purposes of calculating the various revenues for the BASE funding program. After the calculation of the direct state aid revenues, the remainder of the general fund revenues must be calculated in accordance with the provisions for general fund financing.

20-9-308. BASE budgets and maximum general fund budgets. (1) (a) The trustees of a district shall adopt a general fund budget that is at least equal to the BASE budget established for the district. The trustees of a district may adopt a general fund budget up to the maximum general fund budget or the previous year's general fund budget, whichever is greater.

(b) For purposes of the budget limitation in subsection (1)(a), the trustees may add any increase in direct state aid for the basic and per-ANB entitlements and any increases in state funding of the data-for-achievement payment under 20-9-325 and in the general fund payments in 20-9-327 through 20-9-330 to the district's previous year's general fund budget.

(2) (a) Except as provided in subsection (2)(b), whenever the trustees of a district propose to adopt a general fund budget that exceeds the BASE budget for the district and propose to increase the over-BASE budget levy over the highest revenue previously authorized by the electors of the district or imposed by the district in any of the previous 5 years to support the general fund budget, the trustees shall submit a proposition to the electors of the district, as provided in 20-9-353.

(b) The intent of this section is to increase the flexibility and efficiency of elected school boards without increasing school district property taxes. In furtherance of this intent and provided that budget limitations otherwise specified in law are not exceeded, the trustees of a district may increase the district's over-BASE budget levy without a vote if the board of trustees reduces nonvoted property tax levies authorized by law to be imposed by action of the trustees of the district by at least as much as the amount by which the over-BASE budget levy is increased.

The ongoing authority for any nonvoted increase in the over-BASE budget levy imposed under this subsection (2)(b) must be decreased in future years to the extent that the trustees of the district impose any increase in other nonvoted property tax levies.

(3) The BASE budget for the district must be financed by the following sources of revenue:

(b) For fiscal years 2014 through 2016 for a school district with a maximum general fund budget of less than $1.5 million, the maximum amount of oil and gas production taxes that a school district may retain is 150% of the school district's maximum general fund budget.

(2) Upon receipt of school district budget reports required under 20-9-134, the superintendent of public instruction shall provide the department of revenue with a list reporting the maximum general fund budget for each school district.

(3) The department of revenue shall make the full quarterly distribution of oil and natural gas production taxes as required under 15-36-332(6) until the amount distributed reaches the limitation in subsection (1) of this section. (4) (a) By the last day of the month immediately following the month in which the quarterly distribution of oil and natural gas production taxes in subsection (3) is made, the office of public instruction shall distribute any amount of oil and natural gas production taxes exceeding the limitation in subsection (1) based on allocations determined by the department of revenue pursuant to subsection (3) in the following priority:

(i) to the other school district within the unified school system from which the oil and natural gas production revenue originates or to any school district having a joint board status with the district, as provided in 20-3-361, from which the oil and natural gas production revenue originates, up to 130% of the maximum budget of the school district receiving a distribution of revenue under this subsection (4)(a)(i) on a prorated basis;

If there is more than one school district from which distributable oil and natural gas production revenue originates and is available for a distribution under this subsection (4)(a)(ii) that is immediately contiguous to a school district qualifying for receipt of a distribution of oil and natural gas revenue under this subsection (4)(a)(ii), the distribution of oil and natural gas production revenue must be prorated from the districts from which oil and natural gas production revenue originates in relative proportion to the amount that the oil and natural gas revenue available for distribution from each school district bears to the total oil and natural gas revenue available for distribution from all school districts from which the distributable revenue originates.

(iii) if funds remain to be distributed after distribution to school districts under subsection (4)(a)(ii), to all school districts that are located in whole or in part in the same county as the school district from which the oil and natural gas production revenue originates, up to 130% of the maximum budget of each school district receiving a distribution of revenue under this subsection (4)(a)(iii) on a prorated basis. If there is more than one school district from which distributable oil and natural gas production revenue originates and is available for distribution under this subsection (4)(a)(iii), the distribution of oil and natural gas production revenue must be prorated from the districts from which oil and natural gas production revenue originates in relative proportion to the amount that the oil and natural gas revenue available for distribution from each school district bears to the total oil and natural gas revenue available for distribution from all school districts from which the distributable revenue originates.

(iv) if funds remain to be distributed after distribution to school districts under subsection (4)(a)(iii), to all school districts that are located in whole or in part in a county contiguous to a county where a horizontally completed well, as defined in 15-36-303, has been drilled within the last 3 years according to the department of natural resources and conservation, up to 130% of the maximum budget of each school district receiving a distribution under this subsection (4)(a)(iv) on a prorated basis. If there is more than one school district from which distributable oil and natural gas production revenue originates and is available for distribution under this subsection (4)(a)(iv), the distribution of oil and natural gas production revenue must be prorated from the districts from which oil and natural gas production revenue originates in relative proportion to the amount that the oil and natural gas revenue available for distribution from each school district bears to the total oil and natural gas revenue available for distribution from all school districts from which the distributable revenue originates.

(b) Any funds remaining after distribution under subsections (4)(a)(i) through (4)(a)(iv) must be deposited as follows:

(i) 70% of the retained amount must be deposited in the guarantee account provided for in 20-9-622;

(ii) 5% of the retained amount must be deposited in the state school oil and natural gas impact account provided for in 20-9-517; and

(iii) 25% of the retained amount must be distributed to the counties in proportion to a county's oil and natural gas production taxes for the preceding 3 years compared to the total of all counties' oil and natural gas production taxes for the preceding 3 years. Funds distributed must be deposited in a county's county school oil and natural gas impact fund provided for in 20-9-518.

(5) (a) Subject to the limitation in subsection (1) and the conditions in subsection (5)(b), the trustees shall budget and allocate the oil and natural gas production taxes anticipated by the district in any budgeted fund at the discretion of the trustees. Oil and natural gas production taxes allocated to the district general fund may be applied to the BASE or over-BASE portions of the general fund budget at the discretion of the trustees.

(b) Except as provided in subsection (5)(c), if the trustees apply an amount less than 12.5% of the total oil and natural gas production taxes received by the district in the prior school fiscal year to the district's general fund BASE budget for the upcoming school fiscal year, then:

(i) the trustees shall levy the number of mills required to raise an amount equal to the difference between 12.5% of the oil and natural gas production taxes received by the district in the prior school fiscal year and the amount of oil and natural gas production taxes the trustees budget in the district's general fund BASE budget for the upcoming school fiscal year;

(ii) the mills levied under subsection (5)(b)(i) are not eligible for the guaranteed tax base subsidy under the provisions of 20-9-366 through 20-9-369; and

(iii) the general fund BASE budget levy requirement calculated in 20-9-141 must be calculated as though the trustees budgeted 12.5% of the oil and natural gas production taxes received by the district in the prior year and the number of mills calculated in subsection (5)(b)(i) must be added to the number of mills calculated in 20-9-141(2).

(c) The provisions of subsection (5)(b) do not apply to the following:

(i) a district that has a maximum general fund budget of less than $1 million;

(ii) a district whose oil and natural gas revenue combined with its adopted general fund budget totals 105% or less of its maximum general fund budget;

(iii) a district that has a maximum general fund budget of $1 million or more and has had an unusual enrollment increase approved by the superintendent of public instruction as provided in 20-9-314 in the year immediately preceding the fiscal year to which the provisions of this subsection (5) would otherwise apply; or

(iv) a district that has issued outstanding oil and natural gas revenue bonds. Funds received pursuant to this section must first be applied by the district to payment of debt service obligations for oil and natural gas revenue bonds for the next 12-month period.

(6) The limit on oil and natural gas production taxes that a school district may retain under subsection (1) must be increased for any school district with an unusual enrollment increase approved by the superintendent of public instruction as provided in 20-9-314. The increase in the limit on oil and natural gas productions taxes that a school district may retain under subsection (1) applies in the year immediately following the fiscal year in which the office of public instruction has approved the district's unusual enrollment increase and must be calculated by multiplying $45,000 times each additional ANB approved by the superintendent of public instruction as provided in 20-9-314.

(7) In any year in which the actual oil and natural gas production taxes received by a school district are less than 50% of the total oil and natural gas production taxes received by the district in the prior year, the district may transfer money from any budgeted fund to its general fund in an amount not to exceed the amount of the shortfall. *(Terminates June 30, 2016—sec. 43, Ch. 400, L. 2013.)*

20-9-310. *(Effective July 1, 2016)* **Oil and natural gas production taxes for school districts — allocation and limits.** (1) Except as provided in subsection (6), the maximum amount of oil and natural gas production taxes that a school district may retain is 130% of the school district's maximum budget, determined in accordance with 20-9-308.

(2) Upon receipt of school district budget reports required under 20-9-134, the superintendent of public instruction shall provide the department of revenue with a list reporting the maximum general fund budget for each school district.

(3) The department of revenue shall make the full quarterly distribution of oil and natural gas production taxes as required under 15-36-332(6) until the amount distributed reaches the limitation in subsection (1) of this section. The department of revenue shall deposit any amount exceeding the limitation in subsection (1) in the state school oil and natural gas distribution account provided for in 20-9-520.

(4) (a) By the last day of the month immediately following the month in which the quarterly distribution of oil and natural gas production taxes in subsection (3) is made, the office of public instruction shall distribute any amount of oil and natural gas production taxes exceeding the limitation in subsection (1) based on allocations determined by the department of revenue pursuant to subsection (3) to school districts that are directly impacted by oil and natural gas development, but that receive insufficient oil and natural gas revenue to address the

oil and natural gas development impacts. The office of public instruction shall adopt administrative rules to establish a process, criteria, and a mechanism for distribution under this subsection (4), using the negotiated rulemaking process set forth in the Montana Negotiated Rulemaking Act, Title 2, chapter 5, part 1.

(b) In developing administrative rules, the office of public instruction shall establish two independent negotiated rulemaking committees to consider issues for the purpose of reaching a consensus to develop proposed rules for the distribution of the funds under this subsection (4).

(c) The members of the first negotiated rulemaking committee appointed by the office of public instruction must include public school officials and public school employees from school districts that are located in or are immediately adjacent to a county in which oil and natural gas production taxes are generated and professional organizations representing these public school officials and employees. This committee shall transmit proposed rules regarding distribution of 50% of the funds available under this subsection (4) in accordance with 2-5-108.

(d) The members of the second negotiated rulemaking committee appointed by the office of public instruction must include public school officials and public school employees from school districts around the state and professional organizations representing these public school officials and employees. This committee shall transmit proposed rules regarding the distribution of the remaining 50% of the funds available under this subsection (4) in accordance with 2-5-108.

(5) (a) Subject to the limitation in subsection (1) and the conditions in subsection (5)(b), the trustees shall budget and allocate the oil and natural gas production taxes anticipated by the district in any budgeted fund at the discretion of the trustees. Oil and natural gas production taxes allocated to the district general fund may be applied to the BASE or over-BASE portions of the general fund budget at the discretion of the trustees.

(b) Except as provided in subsection (5)(c), if the trustees apply an amount less than 12.5% of the total oil and natural gas production taxes received by the district in the prior school fiscal year to the district's general fund BASE budget for the upcoming school fiscal year, then:

(i) the trustees shall levy the number of mills required to raise an amount equal to the difference between 12.5% of the oil and natural gas production taxes received by the district in the prior school fiscal year and the amount of oil and natural gas production taxes the trustees budget in the district's general fund BASE budget for the upcoming school fiscal year;

(ii) the mills levied under subsection (5)(b)(i) are not eligible for the guaranteed tax base subsidy under the provisions of 20-9-366 through 20-9-369; and

(iii) the general fund BASE budget levy requirement calculated in 20-9-141 must be calculated as though the trustees budgeted 12.5% of the oil and natural gas production taxes received by the district in the prior year and the number of mills calculated in subsection (5)(b)(i) must be added to the number of mills calculated in 20-9-141(2).

(c) The provisions of subsection (5)(b) do not apply to the following:

(i) a district that has a maximum general fund budget of less than $1 million;

(ii) a district whose oil and natural gas revenue combined with its adopted general fund budget totals 105% or less of its maximum general fund budget;

(iii) a district that has a maximum general fund budget of $1 million or more and has had an unusual enrollment increase approved by the superintendent of public instruction as provided in 20-9-314 in the year immediately preceding the fiscal year to which the provisions of this subsection (5) would otherwise apply; or

(iv) a district that has issued outstanding oil and natural gas revenue bonds. Funds received pursuant to this section must first be applied by the district to payment of debt service obligations for oil and natural gas revenue bonds for the next 12-month period.

(6) The limit on oil and natural gas production taxes that a school district may retain under subsection (1) must be increased for any school district with an unusual enrollment increase approved by the superintendent of public instruction as provided in 20-9-314. The increase in the limit on oil and natural gas production taxes that a school district may retain under subsection (1) applies in the year immediately following the fiscal year in which the office of public instruction has approved the district's unusual enrollment increase and must be calculated by multiplying $45,000 times each additional ANB approved by the superintendent of public instruction as provided in 20-9-314.

(7) In any year in which the actual oil and natural gas production taxes received by a school district are less than 50% of the total oil and natural gas production taxes received by the district in the prior year, the district may transfer money from any budgeted fund to its general fund in an amount not to exceed the amount of the shortfall. *(Terminates June 30, 2019—sec. 7, Ch. 433, L. 2015.)*

20-9-310. *(Effective July 1, 2019)* **Oil and natural gas production taxes for school districts — allocation and limits.** (1) Except as provided in subsection (6), the maximum amount of oil and natural gas production taxes that a school district may retain is 130% of the school district's maximum budget, determined in accordance with 20-9-308.

(2) Upon receipt of school district budget reports required under 20-9-134, the superintendent of public instruction shall provide the department of revenue with a list reporting the maximum general fund budget for each school district.

(3) The department of revenue shall make the full quarterly distribution of oil and natural gas production taxes as required under 15-36-332(6) until the amount distributed reaches the limitation in subsection (1) of this section. The department of revenue shall deposit any amount exceeding the limitation in subsection (1) in the state school oil and natural gas distribution account provided for in 20-9-520.

(4) By the last day of the month immediately following the month in which the quarterly distribution of oil and natural gas production taxes in subsection (3) is made, the office of public instruction shall distribute any amount of oil and natural gas production taxes exceeding the limitation in subsection (1) based on allocations determined by the department of revenue pursuant to subsection (3) as follows:

(a) 70% of the retained amount must be deposited in the guarantee account provided for in 20-9-622;

(b) 5% of the retained amount must be deposited in the state school oil and natural gas impact account provided for in 20-9-517; and

(c) 25% of the retained amount must be distributed to the counties in proportion to a county's oil and natural gas production taxes for the preceding 3 years compared to the total of all counties' oil and natural gas production taxes for the preceding 3 years. Funds distributed must be deposited in a county's county school oil and natural gas impact fund provided for in 20-9-518.

(5) (a) Subject to the limitation in subsection (1) and the conditions in subsection (5)(b), the trustees shall budget and allocate the oil and natural gas production taxes anticipated by the district in any budgeted fund at the discretion of the trustees. Oil and natural gas production taxes allocated to the district general fund may be applied to the BASE or over-BASE portions of the general fund budget at the discretion of the trustees.

(b) Except as provided in subsection (5)(c), if the trustees apply an amount less than 12.5% of the total oil and natural gas production taxes received by the district in the prior school fiscal year to the district's general fund BASE budget for the upcoming school fiscal year, then:

(i) the trustees shall levy the number of mills required to raise an amount equal to the difference between 12.5% of the oil and natural gas production taxes received by the district in the prior school fiscal year and the amount of oil and natural gas production taxes the trustees budget in the district's general fund BASE budget for the upcoming school fiscal year;

(ii) the mills levied under subsection (5)(b)(i) are not eligible for the guaranteed tax base subsidy under the provisions of 20-9-366 through 20-9-369; and

(iii) the general fund BASE budget levy requirement calculated in 20-9-141 must be calculated as though the trustees budgeted 12.5% of the oil and natural gas production taxes received by the district in the prior year and the number of mills calculated in subsection (5)(b)(i) must be added to the number of mills calculated in 20-9-141(2).

(c) The provisions of subsection (5)(b) do not apply to the following:

(i) a district that has a maximum general fund budget of less than $1 million;

(ii) a district whose oil and natural gas revenue combined with its adopted general fund budget totals 105% or less of its maximum general fund budget;

(iii) a district that has a maximum general fund budget of $1 million or more and has had an unusual enrollment increase approved by the superintendent of public instruction as provided in 20-9-314 in the year immediately preceding the fiscal year to which the provisions of this subsection (5) would otherwise apply; or

(iv) a district that has issued outstanding oil and natural gas revenue bonds. Funds received pursuant to this section must first be applied by the district to payment of debt service obligations for oil and natural gas revenue bonds for the next 12-month period.

(6) The limit on oil and natural gas production taxes that a school district may retain under subsection (1) must be increased for any school district with an unusual enrollment increase approved by the superintendent of public instruction as provided in 20-9-314. The increase in the limit on oil and natural gas production taxes that a school district may retain under subsection (1) applies in the year immediately following the fiscal year in which the office of public instruction has approved the district's unusual enrollment increase and must be calculated by multiplying $45,000 times each additional ANB approved by the superintendent of public instruction as provided in 20-9-314.

(7) In any year in which the actual oil and natural gas production taxes received by a school district are less than 50% of the total oil and natural gas production taxes received by the district in the prior year, the district may transfer money from any budgeted fund to its general fund in an amount not to exceed the amount of the shortfall.

20-9-311. Calculation of average number belonging (ANB) — 3-year averaging. (1) Average number belonging (ANB) must be computed for each budget unit as follows:

(a) compute an average enrollment by adding a count of regularly enrolled pupils who were enrolled as of the first Monday in October of the prior school fiscal year to a count of regularly enrolled pupils on the first Monday in February of the prior school fiscal year or the next school day if those dates do not fall on a school day, and divide the sum by two; and

(b) multiply the average enrollment calculated in subsection (1)(a) by the sum of 180 and the approved pupil-instruction-related days for the current school fiscal year and divide by 180.

(2) For the purpose of calculating ANB under subsection (1), up to 7 approved pupil-instruction-related days may be included in the calculation.

(3) When a school district has approval to operate less than the minimum aggregate hours under 20-9-806, the total ANB must be calculated in accordance with the provisions of 20-9-805.

(4) (a) Except as provided in subsection (4)(d), for the purpose of calculating ANB, enrollment in an education program:

(i) from 180 to 359 aggregate hours of pupil instruction per school year is counted as one-quarter-time enrollment;

(ii) from 360 to 539 aggregate hours of pupil instruction per school year is counted as half-time enrollment;

(iii) from 540 to 719 aggregate hours of pupil instruction per school year is counted as three-quarter-time enrollment; and

(iv) 720 or more aggregate hours of pupil instruction per school year is counted as full-time enrollment.

(b) Except as provided in subsection (4)(d), enrollment in a program intended to provide fewer than 180 aggregate hours of pupil instruction per school year may not be included for purposes of ANB.

(c) Enrollment in a self-paced program or course may be converted to an hourly equivalent based on the hours necessary and appropriate to provide the course within a regular classroom schedule.

(d) A school district may include in its calculation of ANB a pupil who is enrolled in a program providing fewer than the required aggregate hours of pupil instruction required under subsection (4)(a) or (4)(b) if the pupil has demonstrated proficiency in the content ordinarily covered by the instruction as determined by the school board using district assessments. The ANB of a pupil under this subsection (4)(d) must be converted to an hourly equivalent based on the hours of instruction ordinarily provided for the content over which the student has demonstrated proficiency.

(e) A pupil in kindergarten through grade 12 who is concurrently enrolled in more than one public school, program, or district may not be counted as more than one full-time pupil for ANB purposes.

(5) For a district that is transitioning from a half-time to a full-time kindergarten program, the state superintendent shall count kindergarten enrollment in the previous year as full-time enrollment for the purpose of calculating ANB for the elementary programs offering full-time kindergarten in the current year. For the purposes of calculating the 3-year ANB, the superintendent of public instruction shall count the kindergarten enrollment as one-half enrollment and then add the additional kindergarten ANB to the 3-year average ANB for districts offering full-time kindergarten.

(6) When a pupil has been absent, with or without excuse, for more than 10 consecutive school days, the pupil may not be included in the enrollment count used in the calculation of the ANB unless the pupil resumes attendance prior to the day of the enrollment count.

(7) The enrollment of preschool pupils, as provided in 20-7-117, may not be included in the ANB calculations.

(8) The average number belonging of the regularly enrolled pupils for the public schools of a district must be based on the aggregate of all the regularly enrolled pupils attending the schools of the district, except that:

(a) the ANB is calculated as a separate budget unit when:

(i) a school of the district is located more than 20 miles beyond the incorporated limits of a city or town located in the district and at least 20 miles from any other school of the district, the number of regularly enrolled pupils of the school must be calculated as a separate budget unit for

ANB purposes and the district must receive a basic entitlement for the school calculated separately from the other schools of the district;

(ii) a school of the district is located more than 20 miles from any other school of the district and incorporated territory is not involved in the district, the number of regularly enrolled pupils of the school must be calculated separately for ANB purposes and the district must receive a basic entitlement for the school calculated separately from the other schools of the district;

(iii) the superintendent of public instruction approves an application not to aggregate when conditions exist affecting transportation, such as poor roads, mountains, rivers, or other obstacles to travel, or when any other condition exists that would result in an unusual hardship to the pupils of the school if they were transported to another school, the number of regularly enrolled pupils of the school must be calculated separately for ANB purposes and the district must receive a basic entitlement for the school calculated separately from the other schools of the district; or

(iv) two or more districts consolidate or annex under the provisions of 20-6-422 or 20-6-423, the ANB and the basic entitlements of the component districts must be calculated separately for a period of 3 years following the consolidation or annexation. Each district shall retain a percentage of its basic entitlement for 3 additional years as follows:

(A) 75% of the basic entitlement for the fourth year;

(B) 50% of the basic entitlement for the fifth year; and

(C) 25% of the basic entitlement for the sixth year.

(b) when a junior high school has been approved and accredited as a junior high school, all of the regularly enrolled pupils of the junior high school must be considered as high school district pupils for ANB purposes;

(c) when a middle school has been approved and accredited, all pupils below the 7th grade must be considered elementary school pupils for ANB purposes and the 7th and 8th grade pupils must be considered high school pupils for ANB purposes; or

(d) when a school has been designated as nonaccredited by the board of public education because of failure to meet the board of public education's assurance and performance standards, the regularly enrolled pupils attending the nonaccredited school are not eligible for average number belonging calculation purposes, nor will an average number belonging for the nonaccredited school be used in determining the BASE funding program for the district.

(9) The district shall provide the superintendent of public instruction with semiannual reports of school attendance, absence, and enrollment for regularly enrolled students, using a format determined by the superintendent.

(10) (a) Except as provided in subsections (10)(b) and (10)(c), enrollment in a basic education program provided by the district through any combination of onsite or offsite instruction may be included for ANB purposes only if the pupil is offered access to the complete range of educational services for the basic education program required by the accreditation standards adopted by the board of public education.

(b) Access to school programs and services for a student placed by the trustees in a private program for special education may be limited to the programs and services specified in an approved individual education plan supervised by the district.

(c) Access to school programs and services for a student who is incarcerated in a facility, other than a youth detention center, may be limited to the programs and services provided by the district at district expense under an agreement with the incarcerating facility.

(d) This subsection (10) may not be construed to require a school district to offer access to activities governed by an organization having jurisdiction over interscholastic activities, contests, and tournaments to a pupil who is not otherwise eligible under the rules of the organization.

(11) A district may include only, for ANB purposes, an enrolled pupil who is otherwise eligible under this title and who is:

(a) a resident of the district or a nonresident student admitted by trustees under a student attendance agreement and who is attending a school of the district;

(b) unable to attend school due to a medical reason certified by a medical doctor and receiving individualized educational services supervised by the district, at district expense, at a home or facility that does not offer an educational program;

(c) unable to attend school due to the student's incarceration in a facility, other than a youth detention center, and who is receiving individualized educational services supervised by the district, at district expense, at a home or facility that does not offer an educational program;

(d) receiving special education and related services, other than day treatment, under a placement by the trustees at a private nonsectarian school or private program if the pupil's services are provided at the district's expense under an approved individual education plan supervised by the district;

(e) participating in the running start program at district expense under 20-9-706;

(f) receiving educational services, provided by the district, using appropriately licensed district staff at a private residential program or private residential facility licensed by the department of public health and human services;

(g) enrolled in an educational program or course provided at district expense using electronic or offsite delivery methods, including but not limited to tutoring, distance learning programs, online programs, and technology delivered learning programs, while attending a school of the district or any other nonsectarian offsite instructional setting with the approval of the trustees of the district. The pupil shall:

(i) meet the residency requirements for that district as provided in 1-1-215;

(ii) live in the district and must be eligible for educational services under the Individuals With Disabilities Education Act or under 29 U.S.C. 794; or

(iii) attend school in the district under a mandatory attendance agreement as provided in 20-5-321.

(h) a resident of the district attending the Montana youth challenge program or a Montana job corps program under an interlocal agreement with the district under 20-9-707.

(12) A district shall, for ANB purposes, calculate the enrollment of an eligible Montana youth challenge program participant as half-time enrollment.

(13) (a) For an elementary or high school district that has been in existence for 3 years or more, the district's maximum general fund budget and BASE budget for the ensuing school fiscal year must be calculated using the current year ANB for all budget units or the 3-year average ANB for all budget units, whichever generates the greatest maximum general fund budget.

(b) For a K-12 district that has been in existence for 3 years or more, the district's maximum general fund budget and BASE budget for the ensuing school fiscal year must be calculated separately for the elementary and high school programs pursuant to subsection (13)(a) and then combined.

(14) The term "3-year ANB" means an average ANB over the most recent 3-year period, calculated by:

(a) adding the ANB for the budget unit for the ensuing school fiscal year to the ANB for each of the previous 2 school fiscal years; and

(b) dividing the sum calculated under subsection (14)(a) by three.

20-9-313. Circumstances under which regular average number belonging may be increased. (1) The average number belonging of a school, calculated in accordance with the ANB formula prescribed in 20-9-311, may be increased when:

(a) the opening of a new elementary school or the reopening of an elementary school has been approved in accordance with 20-6-502. The average number belonging for the school must be established by the county superintendent and approved, disapproved, or adjusted by the superintendent of public instruction.

(b) the opening or reopening of a high school or a branch of the county high school has been approved in accordance with 20-6-503, 20-6-504, or 20-6-505. The average number belonging for the high school must be established by the county superintendent's estimate, after an investigation of the probable number of pupils that will attend the high school.

(c) a district anticipates an increase in the average number belonging due to the closing of a private or public school in the district or a neighboring district. The estimated increase in average number belonging must be established by the trustees and the county superintendent and approved, disapproved, or adjusted by the superintendent of public instruction no later than the fourth Monday in June.

(d) a district anticipates an unusual enrollment increase in the ensuing school fiscal year. The increase in average number belonging must be based on estimates of increased enrollment approved by the superintendent of public instruction and must be computed in the manner prescribed by 20-9-314.

(e) for the initial year of operation of a kindergarten program established under 20-7-117(1), the ANB to be used for budget purposes is:

(i) one-half the number of 5-year-old children residing in the district as of September 10 of the preceding school year, either as shown on the official school census or as determined by some other procedure approved by the superintendent of public instruction, for the purpose of implementing a half-time kindergarten program as provided in 20-1-301; or

(ii) the number of 5-year-old children residing in the district as of September 10 of the preceding school year, either as shown on the official school census or as determined by some other procedure approved by the superintendent of public instruction, for the purpose of implementing a full-time kindergarten program as provided in 20-1-301; or

(f) a high school district provides early graduation for a student who completes graduation requirements in less than eight semesters or the equivalent amount of secondary school enrollment. The increase must be established by the trustees as though the student had attended to the end of the school fiscal year and must be approved, disapproved, or adjusted by the superintendent of public instruction.

20-9-314. Procedures for determining eligibility and amount of increased average number belonging due to unusual enrollment increase. A district that anticipates an unusual increase in enrollment in the ensuing school fiscal year, as provided for in 20-9-313(1)(d), may increase its basic entitlement and total per-ANB entitlement for the ensuing school fiscal year in accordance with the following provisions:

(1) Prior to June 1, the district shall estimate the elementary or high school enrollment to be realized during the ensuing school fiscal year, based on as much factual information as may be available to the district.

(2) No later than June 1, the district shall submit its application for an anticipated unusual enrollment increase by elementary or high school level to the superintendent of public instruction. The application must include:

(a) the enrollment for the current school fiscal year;

(b) the average number belonging used to calculate the basic entitlement and total per-ANB entitlement for the current school fiscal year;

(c) the average number belonging that will be used to calculate the basic entitlement and total per-ANB entitlement for the ensuing school fiscal year;

(d) the anticipated enrollment, including the factual information on which the estimate is based, as provided in subsection (1); and

(e) any other information or data that may be requested by the superintendent of public instruction.

(3) The superintendent of public instruction shall immediately review all the factors of the application and shall approve or disapprove the application or adjust the enrollment used to calculate the budgeted average number belonging for the ensuing school fiscal year. After approving an estimate, with or without adjustment, the superintendent of public instruction shall:

(a) determine the percentage by which the adjusted enrollment exceeds the enrollment used for the budgeted average number belonging; and

(b) approve an increase of the average number belonging used to establish the ensuing year's basic entitlement and total per-ANB entitlement in accordance with subsection (5) if the increase in subsection (3)(a) is at least 4% or 40 students, whichever is less.

(4) The superintendent of public instruction shall notify the district of the decision by the fourth Monday in June.

(5) Whenever an unusual enrollment increase is approved by the superintendent of public instruction, the maximum allowable increase to the average number belonging is equal to the adjusted enrollment as determined by the superintendent of public instruction in subsection (3) minus the sum of:

(a) the enrollment used to calculate the budgeted average number belonging for the ensuing school fiscal year; and

(b) the lesser of 40 students or 4% of the enrollment used to calculate the budgeted average number belonging for the ensuing school fiscal year.

(6) (a) Any entitlement increases resulting from provisions of this section must be reviewed at the end of the ensuing school fiscal year.

(b) If the actual enrollment is less than the enrollment used to determine the budgeted ANB, the superintendent of public instruction shall revise the total per-ANB entitlement and basic entitlement calculations using the actual enrollment in place of the adjusted enrollment. All total per-ANB entitlements received by the district in excess of the revised entitlements are overpayments subject to the refund provisions of 20-9-344(4).

20-9-321. Allowable cost payment for special education. (1) As used in this section, "ANB" means the current year ANB.

(2) The 3-year average ANB provided for in 20-9-311 does not apply to the calculation and distribution of state special education allowable cost payments provided for in this section.

(3) For the purpose of establishing the allowable cost payment for a current year special education program for a school district, the superintendent of public instruction shall determine the total special education payment to a school district, cooperative, or joint board for special education services formed under 20-3-361 prior to July 1, 1992, using the following factors:

(a) the district ANB student count as established pursuant to 20-9-311 and 20-9-313;

(b) a per-ANB amount for the special education instructional block grant;

(c) a per-ANB amount for the special education-related services block grant;

(d) an amount for cooperatives or joint boards meeting the requirements of 20-7-457, to compensate for the additional costs of operations and maintenance, travel, supportive services, recruitment, and administration; and

(e) any other data required by the superintendent of public instruction to administer the provisions of this section.

(4) (a) The total special education allocation must be distributed according to the following formula:

(i) 52.5% through instructional block grants;

(ii) 17.5% through related services block grants;

(iii) 25% to reimbursement of local districts; and

(iv) 5% to special education cooperatives and joint boards for administration and travel.

(b) Special education allowable cost payments outlined in subsection (4)(a) must be granted to each school district and cooperative with a special education program as follows:

(i) The instructional block grant limit prescribed in subsection (4)(a)(i) must be awarded to each school district, based on the district ANB and the per-ANB special education instructional amount.

(ii) The special education-related services block grant limit prescribed in subsection (4)(a)(ii) must be awarded to each school district that is not a cooperative member, based on the district ANB and the per-ANB special education-related services amount, or to a cooperative or joint board that meets the requirements of 20-7-457. The special education-related services block grant amount for districts that are members of approved cooperatives or a joint board must be awarded to the cooperatives or joint board.

(iii) If a district's allowable costs of special education exceed the total of the special education instructional and special education-related services block grant plus the required district match required by subsection (6), the district is eligible to receive at least a 40% reimbursement of the additional costs. To ensure that the total of reimbursements to all districts does not exceed 25% of the total special education allocation limit established in subsection (4)(a)(iii), reimbursement must be made to districts for amounts that exceed a threshold level calculated annually by the office of public instruction. The threshold level is calculated as a percentage amount above the sum of the district's block grants plus the required district match.

(iv) Of the amount distributed under subsection (4)(a)(iv), three-fifths must be distributed based on the ANB count of the school districts that are members of the special education cooperative or joint board and two-fifths must be distributed based on distances, population density, and the number of itinerant personnel under rules adopted by the superintendent of public instruction.

(5) The superintendent of public instruction shall adopt rules necessary to implement this section.

(6) A district shall provide a 25% local contribution for special education, matching every $3 of state special education instructional and special education-related services block grants with at least one local dollar. A district that is a cooperative member is required to provide the 25% match of the special education-related services grant amount to the special education cooperative.

(7) The superintendent of public instruction shall determine the actual district match based on the trustees' reports. Any unmatched portion reverts to the state and must be subtracted from the district's ensuing year's special education allowable cost payment.

(8) A district that demonstrates severe economic hardship because of exceptional special education costs may apply to the superintendent of public instruction for an advance on the reimbursement for the year in which the actual costs will be incurred.

20-9-323. Ending fund balance limits. (1) Beginning July 1, 2020, the combined ending fund balance for all budgeted funds of a school district may not exceed 300% of the maximum general fund budget. The 300% limit is not applicable to the building reserve fund, the debt service fund, or the bus depreciation reserve fund.

(2) The county superintendent shall, upon completion of a school fiscal year, redistribute any amounts in excess of the 300% limit among any other school districts in the same county whose combined ending fund balance for all budgeted funds included in subsection (1) has not exceeded the 300% limit. The county superintendent shall redistribute funds equally to the school districts qualifying for redistribution on a per-quality-educator basis, calculated by dividing the total funds by the total number of quality educators, as defined in 20-4-502, employed by the qualifying school districts in the county in the immediately preceding school fiscal year. School districts receiving the funds may place the funds in any budgeted fund of the district at the discretion of the board of trustees of each district.

(3) Unless an exception is granted under subsection (5), upon completion of a school fiscal year, a school district with combined ending fund balances in excess of the 300% limit shall cooperate with the county superintendent in effectuating the redistribution of excess funds as provided in subsection (2). A school district may make the payment required under this subsection from any fund or funds of the district other than the debt service fund, the building reserve fund, and the bus depreciation reserve fund.

(4) Any funds that cannot be redistributed within a county without causing a school district in the county to exceed the 300% limit must be remitted by the county treasurer to the state for deposit in the guarantee account and distribution in the same manner as provided in 20-9-622(2).

(5) In accordance with 20-9-161, a school district shall report to the education and local government interim committee for any exception taken to the limits prescribed by subsection (1) of this section.

(6) This section does not apply to school districts that are in a nonoperating status under 20-9-505 or that are in the first year of operation after reopening under 20-6-502 or 20-6-503.

(7) Beginning July 1, 2020, the balance of a school district's flexibility fund may not exceed 150% of the school district's maximum general fund budget.

20-9-325. Data-for-achievement payment. (1) The state shall provide a data-for-achievement payment to public school districts as defined in 20-6-101 and 20-6-701. The data-for-achievement payment is calculated as provided in 20-9-306.

(2) Funds received for the data-for-achievement payment must be used by a school district to pay for access fees or other costs associated with use of or participation in the statewide data system administered by the office of public instruction or a comparable data system provided by a private vendor, including data entry and staff training on use of the systems.

(3) Unless funds are otherwise appropriated at higher amounts by the legislature, the office of public instruction may spend no more than $500,000 per biennium for the purposes of mediating with vendors, developing a plan, preparing a request for proposal solicitation package, managing the vendor contract, and implementing a plan with school districts for the statewide data system. This limitation does not apply if the office of public instruction develops and administers the statewide data system without a vendor.

2015 Amendment: Chapter 60 in (1) in second sentence substituted "calculated as provided in 20-9-306" for "the district's ANB, calculated in accordance with 20-9-311, multiplied by:

(a) $10 for fiscal year 2014;

(b) $15 for fiscal year 2015; and

(1) In preparing and submitting an agency budget pursuant to 17-7-111 and 17-7-112, the superintendent of public instruction shall determine the inflation factor for the basic and per-ANB entitlements, the data-for-achievement payment, and the general fund payments in 20-9-327 through 20-9-330 in each fiscal year of the ensuing biennium. The inflation factor is calculated as follows:

(a) for the first year of the biennium, divide the consumer price index for July 1 of the prior calendar year by the consumer price index for July 1 of the calendar year 3 years prior to the prior calendar year and raise the resulting ratio to the power of one-third; and

(b) for the second year of the biennium, divide the consumer price index for July 1 of the current calendar year by the consumer price index for July 1 of the calendar year 3 years prior to the current calendar year and raise the resulting ratio to the power of one-third.

(2) The present law base for the entitlements referenced in subsection (1), calculated under Title 17, chapter 7, part 1, must consist of any enrollment increases or decreases plus the inflation factor calculated pursuant to this section, not to exceed 3% in each year, applied to both years of the biennium.

(3) For the purposes of this section, "consumer price index" means the consumer price index, U.S. city average, all urban consumers, for all items, using the 1982-84 base of 100, as published by the bureau of labor statistics of the U.S. department of labor.

20-9-335. Formula for apportionment of county equalization money. (1) The superintendent of public instruction shall calculate the apportionment of revenue available in the elementary and high school county equalization funds in accordance with the following procedure:

(a) determine the percentage that the county equalization money available for the support of the elementary direct state aid of the districts in the county is of the total elementary direct state aid of all districts in the county;

(b) multiply the elementary direct state aid amount of each district by the percentage determined in subsection (1)(a) to determine the portion of the county equalization money available to each school district.

(2) The procedure in subsection (1) must also be applied for the high school direct state aid.

(3) Territory situated within a county may not be excluded from the calculations of the county equalization money under this section solely because the territory lies within the boundaries of a joint district. Cash balances to the credit of any district at the end of a school fiscal year may not be considered in the apportionment procedure prescribed in this section.

(4) The county equalization money reported under these procedures is the first source of revenue for financing the elementary and high school direct state aid payments.

In order to allow for the estimation of the amount of money to be realized from this source of revenue when the county superintendent is estimating the general fund budget revenues, the county superintendent shall consider that the state BASE funding program revenues and county equalization moneys, together, will be capable of financing 100% of the BASE funding program.

2015 Amendment: Chapter 8 in definitions of "county retirement mill value per elementary ANB", "district mill value per ANB", "facility guaranteed mill value per ANB", and "statewide mill value per elementary ANB" near end substituted "prior year total" for "current year total"; in definition of "district guaranteed tax base ratio" substituted "district's prior year GTBA budget area" for "sum of the district's current year BASE budget amount less direct state aid and the state special education allowable cost payment"; inserted definition of "guaranteed tax base aid budget area"; in definition of "statewide elementary guaranteed tax base ratio" substituted "prior year statewide GTBA budget area for the state elementary school districts or the state high school districts" for "total sum of either the state elementary school districts' or the high school districts' current year BASE budget amounts less total direct state aid"; and made minor changes in style. Amendment effective July 1, 2015.

20-9-367. Eligibility to receive guaranteed tax base aid or state advance or reimbursement for school facilities. (1) If the district guaranteed tax base ratio of any elementary or high school district is less than the corresponding statewide elementary or high school guaranteed tax base ratio, the district may receive guaranteed tax base aid based on the number of mills levied in the district in support of up to 35.3% of the basic entitlement, up to 35.3% of the total per-ANB entitlement, and up to 40% of the special education allowable cost payment budgeted within the general fund budget.

(2) If the county retirement mill value per elementary ANB or the county retirement mill value per high school ANB is less than the corresponding statewide mill value per elementary ANB or high school ANB, the county may receive guaranteed tax base aid based on the number of mills levied in the county in support of the retirement fund budgets of the respective elementary or high school districts in the county.

(3) For the purposes of 20-9-370 and 20-9-371, if the district mill value per elementary ANB or the district mill value per high school ANB is less than the corresponding statewide mill value per elementary ANB or statewide mill value per high school ANB, the district may receive a state advance or reimbursement for school facilities in support of the debt service fund.

20-9-368. Amount of guaranteed tax base aid. (1) The amount of guaranteed tax base aid per ANB that a county may receive in support of the retirement fund budgets of the elementary school districts in the county is the difference between the county mill value per elementary ANB and the statewide mill value per elementary ANB, multiplied by the number of mills levied in support of the retirement fund budgets for the elementary districts in the county.

(2) The amount of guaranteed tax base aid per ANB that a county may receive in support of the retirement fund budgets of the high school districts in the county is the difference between the county mill value per high school ANB and the statewide mill value per high school ANB, multiplied by the number of mills levied in support of the retirement fund budgets for the high school districts in the county.

(3) The amount of guaranteed tax base aid that a district may receive in support of up to 35.3% of the basic entitlement, up to 35.3% of the total per-ANB entitlement budgeted within the general fund budget, and up to 40% of the special education payment is calculated in the following manner:

(a) multiply the sum of the district's prior year GTBA budget area by the corresponding statewide guaranteed tax base ratio;

(b) subtract the prior year taxable valuation of the district from the product obtained in subsection (3)(a); and

(c) divide the remainder by 1,000 to determine the equivalent to the dollar amount of guaranteed tax base aid for each mill levied.

(4) Guaranteed tax base aid provided to any county or district under this section is earmarked to finance the fund or portion of the fund for which it is provided. If a county or district receives more guaranteed tax base aid than it is entitled to, the excess must be returned to the state as required by 20-9-344.

(3) "State reimbursement for school facilities" means the amount of state equalization aid distributed to a district that:

(a) has a district mill value per ANB that is less than the corresponding facility guaranteed mill value per ANB; and

20-9-371. Calculation and uses of school facility entitlement amount. (1) The state reimbursement for school facilities for a district is the percentage determined in 20-9-346(2)(b) times (1-(district mill value per ANB/facility guaranteed mill value per ANB)) times the lesser of the total school facility entitlement calculated under the provisions of 20-9-370 or the district's current year debt service obligations on general obligation bonds that qualify under the provisions of 20-9-370(3).

(2) The state advance for school facilities for a district is determined as follows:

(a) Calculate the percentage of the district's debt service payment that will be advanced by the state using the district ANB, the district mill value and the statewide mill value for the current year, and the percentage used to determine the proportionate share of state reimbursement for school facilities in the prior year.

(b) Multiply the percentage determined in subsection (2)(a) by the lesser of the total school facility entitlement calculated under the provisions of 20-9-370 or the district's current year debt service obligation for general obligation bonds to which the state advance applies.

(3) Within the available appropriation, the superintendent of public instruction shall first distribute to eligible districts the state advance for school facilities. From the remaining appropriation, the superintendent shall distribute to eligible districts the state reimbursement for school facilities.

(4) The trustees of a district may apply the state reimbursement for school facilities to reduce the levy requirement in the ensuing school fiscal year for all outstanding bonded indebtedness on general obligation bonds sold in the debt service fund of the district. The trustees may apply the state advance for school facilities to reduce the levy requirement in the current school fiscal year for debt service payments on general obligation bonds to which the state advance for school facilities applies.

20-9-406. Limitations on amount of bond issue — definition of federal impact aid basic support payment — oil and natural gas payment. (1) (a) Except as provided in subsection (1)(c), the maximum amount for which an elementary district or a high school district may become indebted by the issuance of general obligation bonds, including all indebtedness represented by outstanding general obligation bonds of previous issues, registered warrants, outstanding obligations under 20-9-471, oil and natural gas revenue bonds to which a deficiency tax levy is pledged, and any other loans or notes payable that are held as general obligations of the district, is 100% of the taxable value of the property subject to taxation, as ascertained by the last assessment for state, county, and school taxes previous to the incurring of the indebtedness.

(b) Except as provided in subsection (1)(c), the maximum amount for which a K-12 school district, as formed pursuant to 20-6-701, may become indebted by the issuance of general obligation bonds, including all indebtedness represented by outstanding general obligation bonds of previous issues, registered warrants, outstanding obligations under 20-9-471, oil and natural gas revenue bonds to which a deficiency tax levy is pledged, and any other loans or notes payable that are held as general obligations of the district, regardless of whether the general obligation bonds finance elementary program improvements or high school program improvements, is the sum of 100% of the taxable value of the property in its elementary program subject to taxation and 100% of the taxable value of the property in its high school program subject to taxation, as ascertained by the last assessment for state, county, and school taxes previous to the incurring of the indebtedness.

(c) (i) Unless the maximum amount calculated under subsection (1)(a) yields a greater amount, the maximum amount for which an elementary district or a high school district with a district mill value per elementary ANB or per high school ANB that is less than the facility guaranteed mill value per elementary ANB or high school ANB under 20-9-366 may become indebted by the issuance of general obligation bonds, including all indebtedness represented by outstanding general obligation bonds of previous issues, registered warrants, outstanding obligations under 20-9-471, oil and natural gas revenue bonds to which a deficiency tax levy is pledged, and any other loans or notes payable that are held as general obligations of the district, is the corresponding facility guaranteed mill value per ANB times 1,000 times the ANB of the district. For a K-12 district, unless the maximum amount calculated under subsection (1)(b) yields a greater amount, the maximum amount for which the district may become indebted is the sum of the facility guaranteed mill value per elementary ANB times 1,000 times the elementary ANB of the district and the facility guaranteed mill value per high school ANB times 1,000 times the high school ANB of the district. For the purpose of calculating ANB under this subsection, a district may use the greater of the current year ANB or the 3-year ANB calculated under 20-9-311.

(ii) If mutually agreed upon by the affected districts, for the purpose of calculating its maximum bonded indebtedness under this subsection (1)(c), a district may include the ANB of the district plus the number of students residing within the district for which the district or county pays tuition for attendance at a school in an adjacent district. The receiving district may not use out-of-district ANB for the purpose of calculating its maximum indebtedness if the out-of-district ANB has been included in the ANB of the sending district pursuant to the mutual agreement. For the purpose of calculating ANB under this subsection, a district may use the greater of the current year ANB or the 3-year ANB calculated under 20-9-311.

(2) The maximum amounts determined in subsection (1) do not pertain to indebtedness imposed by special improvement district obligations or assessments against the school district or to general obligation bonds issued for the repayment of tax protests lost by the district. All general obligation bonds issued in excess of the amount are void, except as provided in this section.

(3) The maximum amount of impact aid revenue bonds that an elementary district, high school district, or K-12 school district may issue may not exceed a total aggregate amount equal to three times the average of the school district's annual federal impact aid basic support payments for the 5 years immediately preceding the issuance of the bonds. However, at the time of issuance of the bonds, the average annual payment of principal of and interest on the impact aid bonds each year may not exceed 35% of the total federal impact aid basic support payments of the school district for the current year.

(4) The maximum amount of oil and natural gas revenue bonds that an elementary district, high school district, or K-12 school district may issue may not exceed a total aggregate amount

equal to three times the average of the school district's annual oil and natural gas production taxes received pursuant to 15-36-331, 15-36-332, and 20-9-310 for the 2 fiscal years immediately preceding the issuance of the bonds. At the time of the issuance of the bonds, the average annual payment of principal of and interest on the oil and natural gas revenue bonds each year may not exceed 35% of the total oil and natural gas production taxes received by the school district under the limitations in 20-9-310 for the immediately preceding fiscal year. If the oil and natural gas revenue bonds are also secured by a deficiency tax levy as provided in 20-9-437, the debt limitation provided in subsection (1) of this section applies to the bonds.

(5) When the total indebtedness of a school district has reached the limitations prescribed in this section, the school district may pay all reasonable and necessary expenses of the school district on a cash basis in accordance with the financial administration provisions of this chapter.

(6) Whenever bonds are issued for the purpose of refunding bonds, any money to the credit of the debt service fund for the payment of the bonds to be refunded is applied toward the payment of the bonds and the refunding bond issue is decreased accordingly.

(7) As used in this part, "federal impact aid basic support payment" means the annual impact aid revenue received by a district under 20 U.S.C. 7703(b) but excludes revenue received for impact aid special education under 20 U.S.C. 7703(d) and impact aid construction under 20 U.S.C. 7707.

20-9-407. Industrial facility agreement for bond issue in excess of maximum. (1) In a school district within which a new major industrial facility that seeks to qualify for taxation as class five property under 15-6-135 is being constructed or is about to be constructed, the school district may require, as a precondition of the new major industrial facility qualifying as class five property, that the owners of the proposed industrial facility enter into an agreement with the school district concerning the issuing of bonds in excess of the limitation prescribed in 20-9-406. Under an agreement, the school district may, with the approval of the voters, issue bonds that exceed the limitation prescribed in this section by a maximum of 100% of the estimated taxable value of the property of the new major industrial facility subject to taxation when completed. The estimated taxable value of the property of the new major industrial facility subject to taxation must be computed by the department of revenue when requested to do so by a resolution of the board of trustees of the school district. A copy of the department's statement of estimated taxable value must be printed on each ballot used to vote on a bond issue proposed under this section.

(2) Pursuant to the agreement between the new major industrial facility and the school district and as a precondition to qualifying as class five property, the new major industrial facility and its owners shall pay, in addition to the taxes imposed by the school district on property owners generally, as much of the principal and interest on the bonds provided for under this section as represents payment on an indebtedness in excess of the limitation prescribed in 20-9-406. After the completion of the new major industrial facility and when the indebtedness of the school district no longer exceeds the limitation prescribed in this section, the new major industrial facility is entitled, after all the current indebtedness of the school district has been

paid, to a tax credit over a period of no more than 20 years. The credit must as a total amount be equal to the amount that the facility paid the principal and interest of the school district's bonds in excess of its general liability as a taxpayer within the district.

(3) A major industrial facility is a facility subject to the taxing power of the school district, whose construction or operation will increase the population of the district, imposing a significant burden upon the resources of the district and requiring construction of new school facilities. A significant burden is an increase in ANB of at least 20% in a single year.

20-9-408. Definition of forms of bonds. As used in this part, the following definitions apply:

(1) "Amortization bond" means that form of bond on which a part of the principal is required to be paid each time that interest becomes due and payable. The part payment of principal increases with each following installment in the same amount that the interest payment decreases, so that the combined amount payable on principal and interest is the same on each payment date. However, the payment on the initial interest payment date may be less or greater than the amount of other payments on the bond, reflecting the payment of interest only or the payment of interest for a period different from that between other interest payment dates. The final payment may vary from prior payments in amount as a result of rounding prior payments.

(2) "General obligation bonds" means bonds that pledge the full faith and credit and the taxing power of a school district.

(3) "Impact aid revenue bonds" means bonds that pledge and are payable solely from federal impact aid basic support payments received and deposited to the credit of the fund established in 20-9-514.

(4) "Oil and natural gas revenue bonds" means bonds that pledge and are payable from a first lien on oil and natural gas production taxes received by a school district pursuant to 20-9-310. Oil and natural gas revenue bonds to which a tax deficiency is pledged are not considered general obligation bonds that are eligible to receive guaranteed tax base aid pursuant to 20-9-367 but are to be considered in determining the debt limit of a school district for the purposes of 20-9-406.

(5) "Serial bonds" means a bond issue payable in annual installments of principal commencing not more than 2 years from the date of issue, any one installment consisting of one or more bonds, with the principal amount of bonds maturing or subject to mandatory sinking fund redemption in each installment, commencing with the installment payable in the fourth year after the date of issue, not exceeding three times the principal amount of the bonds payable in the immediately preceding installment.

20-9-410. Limitation of term and interest — timing for redemption. (1) School district bonds may not be issued for a term longer than 20 years, except that bonds issued to refund or redeem outstanding bonds may not be issued for a term longer than 10 years unless the unexpired term of the bonds to be refunded or redeemed is in excess of 10 years, in which case the refunding or redeeming bonds may be issued for the unexpired term. Other than refunding or redeeming bonds, all bonds issued for a longer term than 5 years must be redeemable at the option of the school district on any interest payment date after one-half of the term for which they were issued has expired, and the redemption option must be stated on the face of the bonds. The interest must be as provided under 17-5-102 and must be payable semiannually.

(2) For purposes of this section, the term of a bond issue commences on July 1 of the fiscal year in which the school district first levies taxes to pay the principal and interest on the bonds.

20-9-411. Dates of issue and payments. In order that the dates of payment of installments on school district bond issues may coincide as nearly as possible with the largest monthly tax collections, all school district bonds shall preferably bear a date of some day in June or December. For this reason, the bonds may be dated back not more than 5 months from the time of the actual sale, but no interest shall be charged on these bonds before they have been delivered to the purchaser and payment has been made by the purchaser. Interest accrued on such bonds according to their terms at the time of delivery shall either be refunded by the purchaser or deducted from the first interest payments. The failure to date such bonds in June or December shall not affect their validity.

History: En. 75-7108 by Sec. 309, Ch. 5, L. 1971; R.C.M. 1947, 75-7108.

20-9-412. Issuance of refunding bonds without election. (1) Bonds of a school district issued for the purpose of providing the money needed to redeem outstanding bonds may be issued without submitting the proposition to the electorate at an election. In order to issue refunding bonds, the trustees, at a regular meeting or a special meeting, shall adopt a resolution setting forth:

(a) the facts regarding the outstanding bonds that are to be redeemed;

(b) the reasons for issuing new bonds; and

(c) the term and details of the new bond issue.

(2) After the adoption of the resolution, the trustees shall:

(a) sell the bonds at a private negotiated sale; or

(b) at their option, give notice of the sale of the new bonds in the same manner that notice is required to be given for the sale of bonds authorized at a school election and sell the new bonds in open competitive bidding, by written bids or by sealed bids.

(3) Except for bonds refunded by a school district under the provisions of Title 17, chapter 5, part 16, including any variable rate finance program that is authorized, bonds may not be refunded by the issuance of new bonds unless the rate of interest offered on the new bonds is at least 1/2 of 1% a year less than the rate of interest in the bonds to be refunded or redeemed.

(4) If a refunding bond issue refunds only a portion of an outstanding bond issue, the unrefunded portion of the outstanding bond issue and the refunding bond issue must be treated as a single bond issue for the purposes of 20-9-408.

(5) Refunding bonds may be issued in a principal amount greater than the principal amount of the outstanding bonds if there is a reduction of total debt service cost to the district.

(6) (a) Refunding bonds issued pursuant to this section may be issued to refund outstanding bonds in advance of the date on which the bonds mature or are subject to redemption, provided that the proceeds of the refunding bonds, less any accrued interest or premium received upon the sale of the bonds, are deposited with other funds appropriated to the payment of the outstanding bonds in escrow with a suitable banking institution in or outside of the state.

(b) Except as provided in subsection (6)(c), funds deposited must be invested in securities that are general obligations of the United States or the principal and interest of which are guaranteed by the United States and that mature or are callable at the option of the holder on the dates and bear interest at the rates and are payable on the dates that are required to provide funds sufficient, with any cash retained in the escrow account, to pay when due the interest to accrue on each bond being refunded to its maturity or redemption date, if called for redemption, to pay the principal of the bond at maturity or upon the redemption date, and to pay any redemption premium.

(c) If the funds initially deposited in escrow are sufficient, without regard to any investment income on those funds, to redeem in full the bonds being refunded as of their redemption date and to pay the principal of and interest and premium on the bonds being refunded at their stated maturities, the funds may be invested in the securities described in subsection (6)(b) or in a money market fund that is composed exclusively of eligible securities described in 7-6-202 and that otherwise satisfies the requirements of 7-6-202(3).

(d) The escrow account must be irrevocably appropriated to the payment of the principal of and interest and redemption premium on the bonds being refunded. Funds in the debt service fund for the payment of the bonds being refunded and not required for the payment of principal of or interest on the bonds being refunded due prior to issuance of the refunding bonds may be appropriated by the district to the escrow account. The school district may pay the reasonable costs and expenses of printing the refunding bonds and of establishing and maintaining the escrow account. Bonds that are refunded pursuant to this part are not to be considered outstanding for purposes of 20-9-406 or any other debt limitation.

20-9-439. Computation of net levy requirement for general obligation bonds — procedure when levy inadequate. Subject to 20-6-326, the following provisions apply:

(1) The county superintendent shall compute the levy requirement for each school district's general obligation debt service fund on the basis of the following procedure:

(a) Determine the total money available in the debt service fund for the reduction of the property tax on the district by totaling:

(i) the end-of-the-year fund balance in the debt service fund, less any limited operating reserve as provided in 20-9-438;

(ii) anticipated interest to be earned by the investment of debt service cash in accordance with the provisions of 20-9-213(4) or by the investment of bond proceeds under the provisions of 20-9-435;

(iii) any state advance for school facilities distributed to a qualified district under the provisions of 20-9-346, 20-9-370, and 20-9-371;

(iv) funds transferred from the impact aid fund established pursuant to 20-9-514 that are authorized by 20-9-437(2) to be used to repay the district's bonds; and

(v) any other money, including money from federal sources, anticipated by the trustees to be available in the debt service fund during the ensuing school fiscal year from sources such as legally authorized money transfers into the debt service fund or from rental income, excluding any guaranteed tax base aid.

(b) Subtract the total amount available to reduce the property tax, determined in subsection (1)(a), from the final budget for the debt service fund as established in 20-9-438.

(2) The net debt service fund levy requirement determined in subsection (1)(b) must be reported to the county commissioners by the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values by the county superintendent as the net debt service fund levy requirement for the district, and a levy must be made by the county commissioners in accordance with 20-9-142.

(3) If the board of county commissioners fails in any school fiscal year to make a levy for any issue or series of bonds of a school district sufficient to raise the money necessary for payment of interest and principal becoming due during the next ensuing school fiscal year, in any amounts established under the provisions of this section, the holder of any bond of the issue or series or any taxpayer of the district may apply to the district court of the county in which the school district is located for a writ of mandate to compel the board of county commissioners of the county to make a sufficient levy for payment purposes. If, upon the hearing of the application, it appears to the satisfaction of the court that the board of county commissioners of the county has failed to make a levy or has made a levy that is insufficient to raise the amount required to be raised as established in the manner provided in this section, the court shall determine the amount of the deficiency and shall issue a writ of mandate directed to and requiring the board of county commissioners, at the next meeting for the purpose of fixing tax levies for county purposes, to fix and make a levy against all taxable property in the school district that is sufficient to raise the amount of the deficiency. The levy is in addition to any levy required to be made at that time for the ensuing school fiscal year. Any costs that may be allowed or awarded the petitioner in the proceeding must be paid by the members of the board of county commissioners and may not be a charge against the school district or the county.

20-9-440. Payment of debt service obligations — termination of interest. (1) The school district shall provide the county treasurer with a general obligation bond, oil and natural gas revenue bond, or impact aid revenue bond debt services schedule. The county treasurer shall maintain a separate debt service fund for each school district and, if bonds are to be issued as either impact aid revenue bonds or oil and natural gas revenue bonds, shall maintain a separate impact aid revenue bond debt service fund or oil and natural gas revenue bond debt service fund, as applicable, and an impact aid revenue bond debt service reserve account or oil and natural gas revenue bond debt service reserve account, if required. The school district shall credit all tax money, oil and natural gas revenue, or impact aid revenue collected for debt service to the appropriate fund and use the money credited to the fund for the payment of debt service obligations in accordance with the school financial administration provisions of this title.

(2) The county treasurer shall pay from the debt service fund all amounts of interest and principal on school district bonds as the interest or principal becomes due when the coupons or bonds are presented and surrendered for payment and shall pay all special improvement district assessments as they become due. If the bonds are held by the state of Montana, then all payments must be remitted to the state treasurer who shall cancel the coupons or bonds and return the coupons or bonds to the county treasurer with the state treasurer's receipt. If the bonds are not held by the state of Montana and the interest or principal is made payable at some designated bank or financial institution, the county treasurer shall remit the amount due for interest or principal to the bank or financial institution for payment against the surrender of the canceled coupons or bonds.

(3) Whenever any school district bond or installment on school district bonds becomes due and payable, interest ceases on that date unless sufficient funds are available to pay the bond when it is presented for payment or when payment of an installment is demanded. In either case, interest on the bond or installment continues until payment is made.

(4) Any installment on interest and principal on bonds held by the state that is not promptly paid when due draws interest at an annual rate of 6% from the date due until actual payment, irrespective of the rate of interest on the bonds.

20-9-441. Redemption of bonds — investment of debt service fund money. (1) Whenever there is a sufficient amount of money in any school district debt service fund available to pay and redeem one or more bonds of the school district held by the state of Montana, the county treasurer shall apply the money in payment of as many of the bonds as can be paid and redeemed. The county treasurer shall give notice not less than 30 days before the next interest due date to the board of investments that the bonds will be paid on the interest due date. Before the interest due date, the county treasurer shall remit to the state treasurer the amount of money that is necessary to pay the bonds that are being redeemed and the interest due on the bonds. When the state treasurer receives the payment, the treasurer shall cancel the bonds and any unpaid coupons of the bonds and return the canceled bonds and coupons to the county treasurer.

(2) Whenever there is a sufficient amount of money in any school district debt service fund available to pay and redeem one or more optional bonds of the school district not held by the state of Montana, not yet due but then redeemable or becoming redeemable on the next interest due date, the county treasurer shall apply the available money in payment of as many of the bonds as can be paid and redeemed. The county treasurer shall give notice to the holder of the bonds, if known, or to any bank or financial institution at which the bonds are payable, at least 30 days before the next interest due date, that the bonds will be paid and redeemed on that date. If the bonds are payable at some bank or financial institution, the county treasurer shall remit to the bank or financial institution, before the interest due date, an amount sufficient to pay and redeem the bonds. If the bonds are not presented for payment and redemption on the interest due date, the accrual of interest ceases on the interest due date.

(3) Whenever there is money available in any school district debt service fund sufficient to pay and redeem one or more outstanding bonds not yet due or redeemable and not held by the state of Montana, the trustees of the school district may direct the county treasurer to purchase the bonds of the district if this can be done at not more than par and accrued interest or at a reasonable premium that the trustees may feel justified in paying, but not exceeding 6%.

(4) Whenever the trustees cannot purchase outstanding bonds of the school district at a reasonable price, the available debt service fund money must be invested by the trustees under the provisions of 20-9-213(4). The investments must be sold in ample time before the debt service fund money is required for the payment of the bonds of the school district.

20-9-443. Disposition of remaining debt service fund. (1) Except as provided in subsection (2), when all of the bonds, bond interest, and special improvement district obligations of a school district have been fully paid, all money remaining in the debt service fund for the school district and all money that may come into the debt service fund from the payment of the delinquent taxes must be transferred by the county treasurer to the building reserve levy fund, the technology acquisition and depreciation fund, or the general fund as designated by the school district if the subsequent use of the funds by the school district is limited to constructing, equipping, or enlarging school buildings or purchasing land needed for school purposes in the district.

(2) Any federal impact aid funding remaining in the debt service fund of a school district that has fully repaid the bonds and bond interest must revert to the district's impact aid fund established pursuant to 20-9-514.

20-9-471. Issuance of obligations — authorization — conditions. (1) The trustees of a school district may, without a vote of the electors of the district, issue and sell to the board of investments obligations for the purpose of financing all or a portion of:

(a) the costs of vehicles and equipment;

(b) the costs associated with renovating, rehabilitating, and remodeling facilities, including but not limited to roof repairs, heating, plumbing, electrical systems, and cost-saving measures as defined in 90-4-1102;

(c) any other expenditure that the district is otherwise authorized to make, subject to subsection (4), including the payment of settlements of legal claims and judgments; and

(d) the costs associated with the issuance and sale of the obligations.

(2) The term of the obligation, including an obligation for a qualified energy project, may not exceed 15 fiscal years. For the purposes of this subsection, a "qualified energy project" means a project designed to reduce energy use in a school facility and from which the resulting energy cost savings are projected to meet or exceed the debt service obligation for financing the project, as determined by the department of environmental quality.

(3) At the time of issuing the obligation, there must exist an amount in the budget for the current fiscal year available and sufficient to make the debt service payment on the obligation coming due in the current year. The budget for each following year in which any portion of the principal of and interest on the obligation is due must provide for payment of that principal and interest.

(4) Except as provided in 20-9-502 and 20-9-503, the proceeds of the obligation may not be used to acquire real property or construct a facility unless:

(a) the acquisition or construction project does not constitute more than 20% of the square footage of the existing real property improvements made to a facility containing classrooms;

(b) the 20% square footage limitation may not be exceeded within any 5-year period; and

(c) the electors of the district approve a proposition authorizing the trustees to apply for funds through the board of investments for the construction project. The proposition must be approved at an election held in accordance with all of the requirements of 20-9-428, except that the proposition is considered to have passed if a majority of the qualified electors voting approve the proposition.

(5) The school district may not submit for a vote of the electors of the district a proposition to impose a levy to pay the principal or any interest on an obligation that is payable from the guaranteed cost savings under energy performance contracts as defined in 90-4-1102.

(6) The obligation must state clearly on its face that the obligation is not secured by a pledge of the school district's taxing power but is payable from amounts in its general fund or other legally available funds.

(7) An obligation issued is payable from any legally available fund of the district and constitutes a general obligation of the district.

(8) The obligation may bear interest at a fixed or variable rate and may be sold to the board of investments at par, at a discount, or with a premium and on any other terms and conditions that the trustees determine to be in the best interests of the district.

(9) The principal amount of the obligation, when added to the outstanding bonded indebtedness of the district, may not exceed the debt limitation established in 20-9-406.

(2) Upon receipt of the federal impact aid basic support payment, the county treasurer shall deposit in the impact aid revenue bond debt service fund the amount that is required to pay the principal of and interest on the impact aid revenue bonds coming due in the next 12-month period and to restore any deficiency in the impact aid revenue bond debt service reserve account. Excess federal impact aid basic support payment revenue must be deposited as provided in 20-9-514. (4) The state pledges to and agrees with the holders of impact aid revenue bonds that the state will not limit, alter, or impair the ability of a school district to qualify for impact aid revenue or in any way impair the rights and remedies of the bondholders until all bonds issued under this section, together with interest on the bonds, interest on any unpaid installments of principal or interest, and all costs and expenses in connection with any action or proceedings by or on behalf of the bondholders, are fully met and discharged. The trustees of any district, as agents for the state, may include this pledge and undertaking in resolutions and indentures authorizing and securing the bonds.

(2) Upon receipt of oil and natural gas revenue, the county treasurer shall deposit in the district's debt service fund the amount that is required to pay the principal of and interest on the oil and natural gas revenue bonds due in the next 12-month period and to restore any deficiency in the oil and natural gas revenue debt service reserve account up to reserve requirements. Any remaining oil and natural gas revenue must be deposited as directed by the board of trustees as provided in 20-9-310. The school district and county treasurer may designate a trustee for holders of the bonds to receive the school district's oil and natural gas revenue for purposes of making the annual debt service payments on oil and natural gas revenue bonds and may authorize the trustee to establish and maintain the oil and natural gas revenue bond debt service fund and oil and natural gas revenue bond debt service reserve account.

(3) Any pledge made pursuant to this section is valid and binding from the time the pledge is made, and the money pledged and received by the county treasurer on behalf of the school district to be placed in the debt service fund is immediately subject to the lien of the pledge without any future physical delivery or further act. A lien of any pledge is valid and binding against all parties that have claims of any kind against the school district regardless of whether the parties have notice of the lien. The bond resolution or indenture of trust that creates the pledge, when adopted by the trustees of any district, is notice of the creation of the pledge, and those instruments are not required to be recorded in any other place to perfect the pledge.

(4) The state may not limit, alter, or impair the ability of a school district to qualify for oil and natural gas revenue or in any way impair the rights and remedies of the bondholders until all bonds issued under this section, together with interest on the bonds, interest on any unpaid installments of principal or interest, and all costs and expenses in connection with any action or proceedings by or on behalf of the bondholders, are fully met and discharged. (1) The trustees of a district or the management board of a cooperative employing personnel who are members of the teachers' retirement system or the public employees' retirement system, who are covered by unemployment insurance, or who are covered by any federal social security system requiring employer contributions shall establish a retirement fund for the purposes of budgeting and paying the employer's contributions to the systems as provided in subsection (2)(a). The district's or the cooperative's contribution for each employee who is a member of the teachers' retirement system must be calculated in accordance with Title 19, chapter 20, part 6. The district's or the cooperative's contribution for each employee who is a member of the public employees' retirement system must be calculated in accordance with 19-3-316. The district's or the cooperative's contributions for each employee covered by any federal social security system must be paid in accordance with federal law and regulation. The district's or the cooperative's contribution for each employee who is covered by unemployment insurance must be paid in accordance with Title 39, chapter 51, part 11.

(2) (a) The district or the cooperative shall pay the employer's contributions to the retirement, federal social security, and unemployment insurance systems from the retirement fund for the following:

(i) a district employee whose salary and health-related benefits, if any health-related benefits are provided to the employee, are paid from state or local funding sources;

(ii) a cooperative employee whose salary and health-related benefits, if any health-related benefits are provided to the employee, are paid from the cooperative's interlocal cooperative fund if the fund is supported solely from districts' general funds and state special education allowable cost payments, pursuant to 20-9-321, or are paid from the miscellaneous programs fund, provided for in 20-9-507, from money received from the medicaid program, pursuant to 53-6-101;

(iii) a district employee whose salary and health-related benefits, if any health-related benefits are provided to the employee, are paid from the district's school food services fund provided for in 20-10-204; and

(iv) a district employee whose salary and health-related benefits, if any health-related benefits are provided to the employee, are paid from the district impact aid fund, pursuant to 20-9-514.

(b) For an employee whose benefits are not paid from the retirement fund, the district or the cooperative shall pay the employer's contributions to the retirement, federal social security, and unemployment insurance systems from the funding source that pays the employee's salary.

(3) The trustees of a district required to make a contribution to a system referred to in subsection (1) shall include in the retirement fund of the final budget the estimated amount of the employer's contribution. After the final retirement fund budget has been adopted, the trustees shall pay the employer contributions to the systems in accordance with the financial administration provisions of this title.

(4) When the final retirement fund budget has been adopted, the county superintendent shall establish the levy requirement by:

(a) determining the sum of the money available to reduce the retirement fund levy requirement by adding:

(i) any anticipated money that may be realized in the retirement fund during the ensuing school fiscal year;

(ii) oil and natural gas production taxes;

(iii) coal gross proceeds taxes under 15-23-703;

(iv) any fund balance available for reappropriation as determined by subtracting the amount of the end-of-the-year fund balance earmarked as the retirement fund operating reserve for the ensuing school fiscal year by the trustees from the end-of-the-year fund balance in the retirement fund. The retirement fund operating reserve may not be more than 20% of the final retirement fund budget for the ensuing school fiscal year and must be used for the purpose of paying retirement fund warrants issued by the district under the final retirement fund budget.

(v) property tax reimbursements made pursuant to 15-1-123(6);

(vi) any other revenue anticipated that may be realized in the retirement fund during the ensuing school fiscal year, excluding any guaranteed tax base aid;

(b) notwithstanding the provisions of subsection (9), subtracting the money available for reduction of the levy requirement, as determined in subsection (4)(a), from the budgeted amount for expenditures in the final retirement fund budget.

(5) The county superintendent shall:

(a) total the net retirement fund levy requirements separately for all elementary school districts, all high school districts, and all community college districts of the county, including any prorated joint district or special education cooperative agreement levy requirements; and

(b) report each levy requirement to the county commissioners by the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values as the respective county levy requirements for elementary district, high school district, and community college district retirement funds.

(6) The county commissioners shall fix and set the county levy or district levy in accordance with 20-9-142.

(7) The net retirement fund levy requirement for a joint elementary district or a joint high school district must be prorated to each county in which a part of the district is located in the same proportion as the district ANB of the joint district is distributed by pupil residence in each county. The county superintendents of the counties affected shall jointly determine the net retirement fund levy requirement for each county as provided in 20-9-151.

(8) The net retirement fund levy requirement for districts that are members of special education cooperative agreements must be prorated to each county in which the district is located in the same proportion as the special education cooperative budget is prorated to the member school districts. The county superintendents of the counties affected shall jointly determine the net retirement fund levy requirement for each county in the same manner as provided in 20-9-151, and the county commissioners shall fix and levy the net retirement fund levy for each county in the same manner as provided in 20-9-152.

(9) The county superintendent shall calculate the number of mills to be levied on the taxable property in the county to finance the retirement fund net levy requirement by dividing the amount determined in subsection (5)(a) by the sum of:

(a) the amount of guaranteed tax base aid that the county will receive for each mill levied, as certified by the superintendent of public instruction; and

(b) the taxable valuation of the district divided by 1,000.

(10) The levy for a community college district may be applied only to property within the district.

(11) The county superintendent of each county shall submit a report of the revenue amounts used to establish the levy requirements for county school funds supporting elementary and high school district retirement obligations to the superintendent of public instruction on or before September 15. The report must be completed on forms supplied by the superintendent of public instruction.

20-9-502. Purpose and authorization of building reserve fund by election — levy for school transition costs. (1) The trustees of any district, with the approval of the qualified electors of the district, may establish a building reserve for the purpose of raising money for the future construction, equipping, or enlarging of school buildings, for the purpose of purchasing land needed for school purposes in the district, or for the purpose of funding school transition costs as provided in subsections (5) and (6). In order to submit to the qualified electors of the district a building reserve proposition for the establishment of or addition to a building reserve, the trustees shall pass a resolution that specifies:

(a) the purpose or purposes for which the new or addition to the building reserve will be used;

(b) the duration of time over which the new or addition to the building reserve will be raised in annual, equal installments;

(c) the total amount of money that will be raised during the duration of time specified in subsection (1)(b); and

(d) any other requirements under 15-10-425 and 20-20-201 for the calling of an election.

(2) Except as provided in subsections (5)(b) and (6), a building reserve tax authorization may not be for more than 20 years.

(3) The election must be conducted in accordance with the school election laws of this title, and the electors qualified to vote in the election must be qualified under the provisions of 20-20-301. The ballot for a building reserve proposition must be substantially in compliance with 15-10-425.

(4) The building reserve proposition is approved if a majority of those electors voting at the election approve the establishment of or addition to the building reserve. The annual budgeting and taxation authority of the trustees for a building reserve is computed by dividing the total authorized amount by the specified number of years. The authority of the trustees to budget and impose the taxation for the annual amount to be raised for the building reserve lapses when, at a later time, a bond issue is approved by the qualified electors of the district for the same purpose or purposes for which the building reserve fund of the district was established. Whenever a subsequent bond issue is made for the same purpose or purposes of a building reserve, the money in the building reserve must be used for the purpose or purposes before any money realized by the bond issue is used.

(5) (a) The trustees may submit a proposition to the qualified electors of the district for a levy to provide funding for transition costs incurred when the trustees:

(i) open a new school under the provisions of Title 20, chapter 6;

(ii) close a school;

(iii) replace a school building; or

(iv) consolidate with or annex another district under the provisions of Title 20, chapter 6.

(b) Except as provided in subsections (5)(c) and (6), the total amount the trustees may submit to the electorate for transition costs may not exceed the number of years specified in the proposition times the greater of 5% of the district's maximum general fund budget for the current year or $250 per ANB for the current year. Except as provided in subsection (6), the duration of the levy for transition costs may not exceed 6 years.

(c) If the levy for transition costs is for consolidation or annexation:

(i) the limitation on the amount levied is calculated using the ANB and the maximum general fund budget for the districts that are being combined; and

(ii) the proposition must be submitted to the qualified electors in the combined district.

(d) The levy for transition costs may not be considered as outstanding indebtedness for the purpose of calculating the limitation in 20-9-406.

(6) The trustees of a K-12 district shall impose a levy for transition costs to fund the payment required by 20-6-326(6)(b) when a proposition to create the K-12 district and to assess the transition levy has been approved pursuant to 20-6-326(2). The levy is limited to the amount required by 20-6-326(6)(b) for a period not to exceed 3 years.

20-9-503. Budgeting, tax levy, and use of building reserve fund. (1) Whenever an annual building reserve authorization to budget is available to a district, the trustees shall include the authorized amount in the building reserve fund of the final budget. The county superintendent shall report the amount as the building reserve fund levy requirement to the county commissioners by the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values, and a levy on the district must be made by the county commissioners in accordance with 20-9-142.

(2) The trustees of any district maintaining a building reserve fund may:

(a) pledge the revenue for loans from the building reserve fund levy for up to 5 years. However, loan proceeds may be used only for projects authorized by 20-9-502.

(b) expend money from the fund for the purpose or purposes for which it was authorized without the specific expenditures being included in the final budget when, in their discretion, there is a sufficient amount of money to begin the authorized projects. The expenditures may not invalidate the district's authority to continue the annual imposition of the building reserve taxation authorized by the electors of the district.

(3) Whenever there is money credited to the building reserve fund for which there is no immediate need, the trustees may invest the money in accordance with 20-9-213(4). The interest earned from the investment must be credited to the building reserve fund or the debt service fund, at the discretion of the trustees, and expended for any purpose authorized by law for the fund.

20-9-504. Extracurricular fund for pupil functions. (1) The trustees of a district may establish an extracurricular fund for the purposes of receiving and expending money collected for pupil extracurricular functions. All extracurricular money of a pupil organization of the school must be deposited and expended by check from a bank account maintained for the extracurricular fund.

(2) An accounting system for the extracurricular fund recommended by the superintendent of public instruction must be implemented by the trustees. The accounting system must provide for:

(a) the internal control of the cash receipts and expenditures of the money; and

(b) a general account that can be reconciled with the bank account for the extracurricular fund and reconciled with the detailed accounts within the extracurricular fund maintained for each student function.

(3) The trustees may invest any excess money in the extracurricular fund in accordance with the provisions of 20-9-213(4). Interest earned as a result of the investments may either be:

(a) credited to a general operating account within the fund to be used to offset expenses incurred in administering the fund; or

(b) distributed to the fund from which the money was withdrawn for investment.

20-9-505. Purpose and establishment of nonoperating fund. (1) The trustees of a district that will not operate a school during the ensuing school fiscal year shall establish a nonoperating fund on the first day of the school fiscal year. In establishing the nonoperating fund, the trustees shall cause the transfer of the end-of-the-year fund balance of each fund maintained by the district during the immediately preceding school fiscal year to the nonoperating fund. However, fund balances of the debt service fund and the miscellaneous programs fund, if any, must be maintained in their individual funds.

(2) The trustees of a district establishing a nonoperating fund for the first year of nonoperation may earmark a portion of the nonoperating fund balance as a nonoperating fund operating reserve when they anticipate the reopening of a school in the following school fiscal year. The operating reserve may not be more than the general fund operating reserve designated for the immediately preceding school fiscal year. If a school is not operated in the following school fiscal year, the authority of the trustees to earmark a nonoperating fund operating reserve terminates and the money earmarked as an operating reserve must be used to reduce the levy requirement of the nonoperating fund. If the trustees acquire approval to reopen a school in the following school fiscal year under the provisions of 20-6-502 or 20-6-503 and operate the school, the nonoperating fund operating reserve must be restored as the general fund operating reserve.

(3) The purpose of the nonoperating fund is to centralize the financing and budgeting for the limited functions of a district not operating a school. The functions include:

(a) elementary tuition obligations to other districts;

(b) transportation of the resident pupils;

(c) maintenance of district-owned property; and

(d) any other nonoperating school function of the district considered necessary by the trustees or required by law.

(4) Any expenditure of nonoperating fund money must be made in accordance with the financial administration provisions of this title for a budgeted fund.

(1) The trustees of any district that does not operate a school or will not operate a school during the ensuing school fiscal year shall adopt a nonoperating school district budget in accordance with the school budgeting provisions of this title. The nonoperating budget must contain the nonoperating fund and, when appropriate, a debt service fund. The nonoperating budget form must be promulgated and distributed by the superintendent of public instruction under the provisions of 20-9-103.

(2) After the adoption of a final budget for the nonoperating fund, the county superintendent shall compute the net levy requirement for the fund by subtracting from the amount authorized by the budget the sum of:

(a) the end-of-the-year cash balance of the nonoperating fund or, if it is the first year of nonoperation, the cash balance determined under the transfer provisions of 20-9-505;

(b) the estimated state and county transportation reimbursements; and

(c) any other money that may become available during the ensuing school fiscal year.

(3) The county superintendent shall report the net nonoperating fund levy requirement and any net debt service fund levy requirement determined under the provisions of 20-9-439 to the county commissioners on or before the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values, and the county commissioners shall impose the required levies on the district in accordance with 20-9-142.

The money may be a reimbursement of miscellaneous program fund expenditures already realized by the district, indirect cost recoveries, or a grant of money for the financing of expenditures to be realized by the district for a special, approved program to be operated by the district. When the money is a reimbursement, the money may be expended at the discretion of the trustees for school purposes. When the money is a grant, the money must be expended according to the conditions of the program approval by the superintendent of public instruction or any other approval agent. Within the miscellaneous programs fund, the trustees shall maintain a separate accounting for each local, state, or federal grant project and the indirect cost recoveries.

(b) At least 3 school days or the equivalent aggregate hours must have been made up before the trustees can declare that a reasonable effort has been made.

(2) The board of trustees may close school for 1 school day each school year because of an unforeseen emergency and may not be required to reschedule the pupil-instruction time lost because of the unforeseen emergency.

(1) Every district, its trustees and employees, and every person under a transportation contract with a district is subject to the policies prescribed by the board of public education and the rules prescribed by the superintendent of public instruction. As provided in 20-10-141(1), a district that operates a bus route not approved by its county transportation committee may not receive transportation reimbursement on that route, but if the route is operated in compliance with transportation law, the operation of the routes is not a violation that will result in the forfeiture of all transportation aid to the district.

Upon discovering a violation, the trustees of the district shall give written notice to the person that unless the violation is corrected within 10 days of the giving of notice, the contract will be canceled. The trustees of a district shall order the operation of a bus operated under contract suspended when the bus is being operated in violation of transportation law or policies and the trustees find that the violation jeopardizes the safety of pupils.

(2) A representative of the applicable district and a parent or guardian of the child to be transported shall be present when the distance is measured.

(3) The measurement shall begin 6 yards from the family home and end 6 yards from the entrance of the school grounds closest to the route.

(a) secure bids by publishing during a period of 21 days at least three calls for bids in a newspaper of the county that will give notice to the largest number of people of the district or in the official newspaper of the county; the trustees shall let the contract to the lowest responsible bidder, and the trustees shall have the right to reject any and all bids; or

(b) negotiate a new contract with the current school bus contractor, provided the negotiated contract costs do not exceed by more than 12% per year the basic costs of the previous year's contract. Such a negotiated contract can be entered into only at a public meeting of the trustees at which meeting the patrons of the district may appear and be heard. Notice of the meeting must have been published in a newspaper of wide circulation within the district at least 1 week prior to the meeting.

(2) The provisions of this section for awarding a contract for school bus transportation shall be subject to the provisions of 20-9-204.

(3) The trustees shall not expend any moneys of the district for school bus transportation by a private party or for individual transportation unless:

(a) a contract for such transportation services has been completed; and

(b) such contracted services for school bus transportation by a private party have been actually furnished except that the failure to perform may be excused by the trustees for reasons not under the control of the contractor; or

(c) such contracted services for individual transportation have been actually furnished as confirmed by the actual attendance of school by the eligible transportees and recorded on the school attendance records or, in the case of a supervised correspondence course or supervised home study, as confirmed by the trustees; except that the contracted services furnished one way on any school day shall be reimbursed at one-half the daily contract amount.

20-10-126. Establishment of transportation service areas. (1) The territory of a transportation service area is the territory of a school district unless the county transportation committee approves alternative boundaries after determining that the adjustments will improve pupil safety, transportation efficiency, or the cost-effectiveness of the pupil transportation system of the county.

(2) (a) Except as provided in subsection (2)(b), a district may not extend a bus route to transport pupils from outside its transportation service area unless the district has a written agreement with the district that the county transportation committee has assigned to transport the pupils.

(b) A district may extend a bus route across another transportation service area if the district determines that it is necessary in order to provide transportation to pupils in the district's own transportation service area. Under this subsection (2)(b), a district may not transport pupils from outside its transportation service area.

(3) When the trustees of two or more districts enter into a written agreement to authorize transportation services among transportation service areas, a copy of the agreement must be submitted to the county superintendent and approved by the county transportation committee. Upon approval by the committee, the transportation agreements are valid for the current school year.

(4) The trustees of any district who object to a particular bus route or transportation service area to which the district has been assigned may request a transfer to another bus route or transportation service area. The county transportation committee may transfer the territory of the district to an adjacent transportation service area or approved bus route with the consent of the district providing transportation in the adjacent transportation service area.

(5) The trustees of any district who object to a bus route operated by another district may bring that route to the attention of the county transportation committee. If the committee agrees that the district is operating a portion of its route as an unapproved route outside of its district boundaries, the committee shall file with the district a written warning concerning the unapproved route, and if the district, in spite of the warning, continues to operate the route, the committee may withdraw its approval of the entire route.

(6) If the qualified electors of the district object to the decision of the county transportation committee and the adjacent district is willing to provide school bus service, 20% of the qualified electors, as prescribed in 20-20-301, may petition the trustees to conduct an election on the proposition that the territory of the district be transferred for pupil transportation purposes to the adjacent transportation service area. If a satisfactory petition is presented to the trustees, the trustees shall call an election on the proposition in accordance with 20-20-201 for the next ensuing regular school election day. The election must be conducted in accordance with the school election laws. If a majority of those voting at the election approve the transfer, the transfer is effective on July 1 of the ensuing school fiscal year.

(7) Unless a transfer of territory from one transportation service area or approved bus route to another area or bus route is approved by the superintendent of public instruction and the county transportation committee, the state transportation reimbursement is limited to the reimbursement amount for pupil transportation to the nearest operating public elementary school or public high school, whichever is appropriate for the affected pupils.

(a) the county superintendent;

(b) the presiding officer of the board of county commissioners or a member of the board designated by the presiding officer;

(c) except for a K-12 school district, a trustee or district employee designated by the trustees of each high school district of the county;

(d) one representative from each high school district of the county who is a trustee of an elementary district encompassed within the high school district and who has been selected at a meeting of the trustees of the elementary districts;

(e) two representatives of each K-12 school district of the county, each of whom is either a trustee or a district employee designated by the trustees; and

(f) a representative of a district of another county when the transportation services of the district are affected by the actions of the county transportation committee, but the representative has a voice only in matters affecting transportation within the district or by the district.

(2) The county transportation committee must have at least five members, and if this minimum membership cannot be realized in the manner prescribed in subsections (1)(a) through (1)(e), the county superintendent shall appoint a sufficient number of members to satisfy the minimum membership requirement.

(3) The county superintendent is the presiding officer of the county transportation committee, and a quorum is a majority of the membership. A quorum must be present for the committee to conduct business. The committee shall meet on the call of the presiding officer or any three members of the committee.

20-10-132. Duties of county transportation committee. (1) It is the duty of the county transportation committee to:

(a) establish the transportation service areas within the county, without regard to district boundary lines, for each district that operates a school bus transportation program;

(b) except as provided in subsection (2), approve, disapprove, or adjust the school bus routes submitted by the trustees of each district in conformity with the transportation service areas established in subsection (1)(a);

(c) approve, disapprove, or adjust applications, approved by the trustees, for increased reimbursements for individual transportation because of isolated conditions of the eligible transportee's residence;

(d) conduct hearings to establish the facts of transportation controversies that have been appealed from the decision of the trustees and act on the appeals on the basis of the facts established at the hearing; and

(e) determine if geographic conditions make it impractical for a child to attend school in the district of residence, in accordance with 20-5-321(1)(b).

(2) In an emergency situation, a temporary bus route change may be approved by the county superintendent. A bus route change approved by the county superintendent must be confirmed by the county transportation committee within 90 days in order to be continued for a period longer than 90 days.

(3) When the county transportation committee reviews a request for a new bus route or a change to an existing route, the committee shall consider the following:

(a) a map of the existing and proposed bus route;

(b) a description of turnarounds;

(c) conditions affecting safety;

(d) the total mileage and change in mileage of the affected bus route;

(e) the approximate total cost;

(f) reasons for the proposed bus route change;

(g) the number of children to be served;

(h) a copy of the official minutes of the meeting at which the school trustees approved the new bus route or route change; and

(i) any other information that the county transportation committee considers relevant.

(4) When an application for increased reimbursement for individual transportation is presented to the county transportation committee, it must include a signed individual transportation contract and a copy of the official minutes of the meeting at which the trustees acted upon the request for increased reimbursement.

(5) After a factfinding hearing and decision on a transportation controversy, the trustees or a patron of the district may appeal the decision to the superintendent of public instruction, who shall issue a decision on the basis of the facts established at the county transportation committee hearing.

20-10-141. Schedule of maximum reimbursement by mileage rates. (1) The mileage rates in subsection (2) for school transportation constitute the maximum reimbursement to districts for school transportation from state and county sources of transportation revenue under the provisions of 20-10-145 and 20-10-146. These rates may not limit the amount that a district may budget in its transportation fund budget in order to provide for the estimated and necessary cost of school transportation during the ensuing school fiscal year. All bus miles traveled on bus routes approved by the county transportation committee are reimbursable. Nonbus mileage is reimbursable for a vehicle driven by a bus driver to and from an overnight location of a school bus when the location is more than 10 miles from the school. A district may approve additional bus or nonbus miles within its own district or approved service area but may not claim reimbursement for the mileage. Any vehicle, the operation of which is reimbursed for bus mileage under the rate provisions of this schedule, must be a school bus, as defined by this title, driven by a qualified driver on a bus route approved by the county transportation committee and the superintendent of public instruction.

(2) (a) The rate for each bus mile traveled must be determined in accordance with the following schedule:

(i) 95 cents for a school bus with a rated capacity of not more than 49 passenger seating positions;

(ii) $1.15 for a school bus with a rated capacity of 50 to 59 passenger seating positions;

(iii) $1.36 for a school bus with a rated capacity of 60 to 69 passenger seating positions;

(iv) $1.57 for a school bus with a rated capacity of 70 to 79 passenger seating positions; and

(v) $1.80 for a school bus with 80 or more passenger seating positions.

(b) Nonbus mileage, as provided in subsection (1), must be reimbursed at a rate of 50 cents a mile.

(3) The rated capacity is the number of passenger seating positions of a school bus as determined under the policy adopted by the board of public education. If modification of a school bus to accommodate pupils with disabilities reduces the rated capacity of the bus, the reimbursement to a district for pupil transportation is based on the rated capacity of the bus prior to modification.

(4) The number of pupils riding the school bus may not exceed the passenger seating positions of the bus.

20-10-142. Schedule of maximum reimbursement for individual transportation. The following rates for individual transportation constitute the maximum reimbursement to districts for individual transportation from state and county sources of transportation revenue under the provisions of 20-10-145 and 20-10-146. These rates constitute the limitation of the budgeted amounts for individual transportation for the ensuing school fiscal year. The schedules provided in this section may not be altered by any authority other than the legislature. When the trustees contract with the parent or guardian of any eligible transportee to provide individual transportation for each day of school attendance, they shall reimburse the parent or guardian for actual miles transported on the basis of the following schedule:

(1) When a parent or guardian transports an eligible transportee or transportees from the residence of the parent or guardian to a school or to schools located within 3 miles of one another, the total reimbursement for each day of attendance is determined by multiplying the distance in miles between the residence and the school, or the most distant school if more than one, by 2, subtracting 6 miles from the product, and multiplying the difference by 35 cents, provided that:

(a) if two or more eligible transportees are transported by a parent or guardian to two or more schools located within 3 miles of one another and if the schools are operated by different school districts, the total amount of the reimbursement must be divided equally between the districts;

(b) if two or more eligible transportees are transported by a parent or guardian to two or more schools located more than 3 miles from one another, the parent or guardian must be separately reimbursed for transporting the eligible transportee or transportees to each school;

(c) if a parent transports two or more eligible transportees to a school and a bus stop that are located within 3 miles of one another, the total reimbursement must be determined under the provisions of this subsection (1) and must be divided equally between the district operating the school and the district operating the bus;

(d) if a parent transporting two or more eligible transportees to a school or bus stop must, because of varying arrival and departure times, make more than one round-trip journey to the bus stop or school, the total reimbursement allowed by this section is limited to one round trip a day for each scheduled arrival or departure time;

(e) notwithstanding subsection (1)(a), (1)(b), (1)(c), or (1)(d), a reimbursement may not be less than 35 cents a day.

(2) When the parent or guardian transports an eligible transportee or transportees from the residence to a bus stop of a bus route approved by the trustees for the transportation of the transportee or transportees, the total reimbursement for each day of attendance is determined by multiplying the distance in miles between the residence and the bus stop by 2, subtracting 6 miles from the product, and multiplying the difference by 35 cents, provided that:

(a) if the eligible transportees attend schools in different districts but ride on one bus, the districts shall divide the total reimbursement equally; and

(b) if the parent or guardian is required to transport the eligible transportees to more than one bus, the parent or guardian must be separately reimbursed for transportation to each bus.

(3) When, because of excessive distances, impassable roads, or other special circumstances of isolation, the rates prescribed in subsection (1) or (2) would be an inadequate reimbursement for the transportation costs or would result in a physical hardship for the eligible transportee, a parent or guardian may request an increase in the reimbursement rate. A request for increased rates because of isolation must be made by the parent or guardian on the contract for individual transportation for the ensuing school fiscal year by indicating the special facts and circumstances that exist to justify the increase. Before an increased rate because of isolation may be paid to the requesting parent or guardian, the rate must be approved by the county transportation committee and the superintendent of public instruction after the trustees have

indicated their approval or disapproval. Regardless of the action of the trustees and when approval is given by the committee and the superintendent of public instruction, the trustees shall pay the increased rate because of isolation. The increased rate is 1 ½ times the rate prescribed in subsection (1).

(4) The state and county transportation reimbursement for an individual transportation contract may not exceed $12.95 for each day of attendance for the first eligible transportee and $8.40 for each day of attendance for each additional eligible transportee.

(5) When the isolated conditions of the household where an eligible transportee resides require an eligible transportee to live away from the household in order to attend school, the eligible transportee is eligible for the room and board reimbursement. Approval to receive the room and board reimbursement must be obtained in the same manner prescribed in subsection (3). The per diem rate for room and board is $12.95 for one eligible transportee and $8.40 for each additional eligible transportee of the same household.

(6) When the individual transportation provision is to be satisfied by supervised home study or supervised correspondence study, the reimbursement rate is the cost of the study, provided that the course of instruction is approved by the trustees and supervised by the district.

20-10-143. Budgeting for transportation and transmittal of transportation contracts. (1) The trustees of a district furnishing transportation to pupils who are residents of the district shall provide a transportation fund budget that is adequate to finance the district's transportation contractual obligations and any other transportation expenditures necessary for the conduct of its transportation program. The transportation fund budget must include:

(a) an adequate amount to finance the maintenance and operation of school buses owned and operated by the district;

(b) the annual contracted amount for the maintenance and operation of school buses by a private party;

(c) the annual contracted amount for individual transportation, including any increased amount because of isolation, which may not exceed the schedule amounts prescribed in 20-10-142;

(d) any amount necessary for the purchase, rental, or insurance of school buses; and

(e) any other amount necessary to finance the administration, operation, or maintenance of the transportation program of the district, as determined by the trustees.

(2) The trustees may include a contingency amount in the transportation fund budget for the purpose of enabling the district to fulfill an obligation to provide transportation in accordance with this title for:

(a) pupils not residing in the district at the time of the adoption of the final budget and who subsequently became residents of the district during the school fiscal year;

(b) pupils who have become eligible transportees since the adoption of the final budget because their legal residence has been changed; or

(c) other unforeseen increases in bus route mileage or obligations for payment of additional contracts for individual transportation for an eligible transportee for which state and county reimbursement is authorized under 20-10-141 and 20-10-142. The budgeted contingency amount may not exceed 10% of the transportation schedule amount as calculated under the provisions of 20-10-141 and 20-10-142 for all transportation services authorized by the schedules and provided by the district unless 10% of the transportation schedule amount is less than $100, in which case $100 is the maximum limitation for the budgeted contingency amount.

(3) A budget amendment to the transportation fund budget may be adopted subject to the provisions of 20-9-161 through 20-9-166.

(4) The trustees shall report the transportation fund budget on the regular budget form prescribed by the superintendent of public instruction in accordance with 20-9-103, and the

adoption of the transportation fund budget must be completed in accordance with the school budgeting laws. When the adopted final budget is sent to the county superintendent, the trustees shall also send copies of all completed transportation contracts for school bus transportation to the county superintendent. The contracts must substantiate all contracted school bus transportation services incorporated in the final budget.

20-10-144. Computation of revenue and net tax levy requirements for district transportation fund budget. Before the second Monday of August, the county superintendent shall compute the revenue available to finance the transportation fund budget of each district. The county superintendent shall compute the revenue for each district on the following basis:

(1) The "schedule amount" of the budget expenditures that is derived from the rate schedules in 20-10-141 and 20-10-142 must be determined by adding the following amounts:

(a) the sum of the maximum reimbursable expenditures for all approved school bus routes maintained by the district (to determine the maximum reimbursable expenditure, multiply the applicable rate for each bus mile by the total number of miles to be traveled during the ensuing school fiscal year on each bus route approved by the county transportation committee and maintained by the district); plus

(b) the total of all individual transportation per diem reimbursement rates for the district as determined from the contracts submitted by the district multiplied by the number of pupil-instruction days scheduled for the ensuing school attendance year; plus

(c) any estimated costs for supervised home study or supervised correspondence study for the ensuing school fiscal year; plus

(d) the amount budgeted in the budget for the contingency amount permitted in 20-10-143, except if the amount exceeds 10% of the total of subsections (1)(a), (1)(b), and (1)(c) or $100, whichever is larger, the contingency amount on the budget must be reduced to the limitation amount and used in this determination of the schedule amount; plus

(e) any estimated costs for transporting a child out of district when the child has mandatory approval to attend school in a district outside the district of residence.

(2) (a) The schedule amount determined in subsection (1) or the total transportation fund budget, whichever is smaller, is divided by 2 and is used to determine the available state and county revenue to be budgeted on the following basis:

(i) one-half is the budgeted state transportation reimbursement; and

(ii) one-half is the budgeted county transportation fund reimbursement and must be financed in the manner provided in 20-10-146.

(b) When the district has a sufficient amount of fund balance for reappropriation and other sources of district revenue, as determined in subsection (3), to reduce the total district obligation for financing to zero, any remaining amount of district revenue and fund balance reappropriated must be used to reduce the county financing obligation in subsection (2)(a)(ii) and, if the county financing obligations are reduced to zero, to reduce the state financial obligation in subsection (2)(a)(i).

(c) The county revenue requirement for a joint district, after the application of any district money under subsection (2)(b), must be prorated to each county incorporated by the joint district in the same proportion as the ANB of the joint district is distributed by pupil residence in each county.

(3) The total of the money available for the reduction of property tax on the district for the transportation fund must be determined by totaling:

(a) anticipated federal money received under the provisions of 20 U.S.C. 7701, et seq., or other anticipated federal money received in lieu of that federal act;

(b) anticipated payments from other districts for providing school bus transportation services for the district;

(c) anticipated payments from a parent or guardian for providing school bus transportation services for a child;

(d) anticipated or reappropriated interest to be earned by the investment of transportation fund cash in accordance with the provisions of 20-9-213(4);

(e) anticipated revenue from coal gross proceeds under 15-23-703;

(f) anticipated oil and natural gas production taxes;

(g) anticipated transportation payments for out-of-district pupils under the provisions of 20-5-320 through 20-5-324;

(h) school district block grants distributed under 20-9-630;

(i) any other revenue anticipated by the trustees to be earned during the ensuing school fiscal year that may be used to finance the transportation fund; and

(j) any fund balance available for reappropriation as determined by subtracting the amount of the end-of-the-year fund balance earmarked as the transportation fund operating reserve for the ensuing school fiscal year by the trustees from the end-of-the-year fund balance in the transportation fund. The operating reserve may not be more than 20% of the final transportation fund budget for the ensuing school fiscal year and is for the purpose of paying transportation fund warrants issued by the district under the final transportation fund budget.

(4) The district levy requirement for each district's transportation fund must be computed by:

(a) subtracting the schedule amount calculated in subsection (1) from the total preliminary transportation budget amount; and

(b) subtracting the amount of money available to reduce the property tax on the district, as determined in subsection (3), from the amount determined in subsection (4)(a).

(5) The transportation fund levy requirements determined in subsection (4) for each district must be reported to the county commissioners on or before the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values by the county superintendent as the transportation fund levy requirements for the district, and the levy must be made by the county commissioners in accordance with 20-9-142.

20-10-145. State transportation reimbursement. (1) A district providing school bus transportation or individual transportation in accordance with this title, board of public education transportation policy, and superintendent of public instruction transportation rules must receive a state reimbursement of its transportation expenditures under the transportation reimbursement rate provisions of 20-10-141 and 20-10-142. The state transportation reimbursement is one-half of the reimbursement amounts established in 20-10-141 and 20-10-142 or one-half of the district's transportation fund budget, whichever is smaller, and must be computed on the basis of the number of days the transportation services were actually rendered, not to exceed 180 pupil-instruction days. In determining the amount of the state transportation reimbursement, an amount claimed by a district may not be considered for reimbursement unless the amount has been paid in the regular manner provided for the payment of other financial obligations of the district.

(2) Requests for the state transportation reimbursement must be made by each district semiannually during the school fiscal year on the claim forms and procedure promulgated by the superintendent of public instruction. The claims for state transportation reimbursements must be routed by the district to the county superintendent, who after reviewing the claims shall send them to the superintendent of public instruction. The superintendent of public instruction shall establish the validity and accuracy of the claims for the state transportation reimbursements by determining compliance with this title, board of public education transportation policy, and the transportation rules of the superintendent of public instruction. After making any necessary

adjustments to the claims, the superintendent of public instruction shall order a disbursement from the state money appropriated by the legislature of the state of Montana for the state transportation reimbursement.

(3) The superintendent of public instruction shall make the disbursement to each school district according to the following schedule:

(a) By September 1 of each year, the superintendent of public instruction shall make a payment equal to 50% of the state transportation reimbursement paid to the district in the previous school year.

(b) By March 31 of each year, the superintendent of public instruction shall make a payment to the district equal to the approved amount of state reimbursement for first semester transportation claims less the amount distributed to the district under subsection (3)(a).

(c) By June 30 of each year, the superintendent of public instruction shall make a payment to the district to pay the balance of the approved amount due to the district for first and second semester transportation.

(4) The payment of all the district's claims within one county must be made to the county treasurer of the county, and the county superintendent shall apportion the payment in accordance with the apportionment order supplied by the superintendent of public instruction.

(5) After adopting a budget amendment for the transportation fund in accordance with 20-9-161 through 20-9-166, the district shall send to the superintendent of public instruction a copy of each new or amended individual transportation contract and each new or amended bus route form to which the budget amendment applies. State reimbursement for the additional obligations must be paid as provided in subsection (1).

(1) It is the intent of the legislature that all community college spending, other than from restricted funds, designated funds, or funds generated by an optional, voted levy, be governed by the provisions of this part and the state general appropriations act.

(2) (a) The state general fund appropriation must be determined as follows:

(i) multiply the variable cost of education per student by the full-time equivalent student count and add the budget amount for the fixed cost of education; and

(ii) multiply the total in subsection (2)(a)(i) by the state share.

(b) The variable cost of education per student, the budget amount for fixed costs, and the state share must be determined by the legislature. The state share, expressed as a percentage, and the variable cost of education per student must be specified in the appropriations act appropriating funds to the community colleges for each biennium.

(3) The student count may not include those enrolled in community service courses as defined by the board of regents.

(4) As used in this section, the following definitions apply:

(a) "Adjusted cost of education" means the cost of education minus any reversion calculated under 17-7-142, expenditures from one-time-only legislative appropriations, and expenditures funded by local mill levies provided for in 2-9-212 and 20-9-501 in excess of the 2012 mill levy levels.

(b) "Cost of education" means the actual costs incurred by the community colleges during the budget base fiscal year, as reported on the current unrestricted operating fund schedule that is statutorily required to be submitted to the board of regents.

(c) "Fixed cost of education" means that portion of the adjusted cost of education, as determined by the legislature, that is not influenced by increases or decreases in student enrollment.

(d) "Variable cost of education per student" means that portion of the adjusted cost of education, as determined by the legislature, that is subject to change as a result of increases or decreases in student enrollment, divided by the actual student enrollment during the budget base fiscal year.

(3) subject to 15-10-420, the adult education levy authorized under provisions of 20-15-305;

(4) the state general fund appropriation;

(5) an optional voted levy on the community college district that must be submitted to the electorate in accordance with general school election laws and 15-10-425;

(6) all other income, revenue, balances, or reserves not restricted by a source outside the community college district to a specific purpose;

(7) income, revenue, balances, or reserves restricted by a source outside the community college district to a specific purpose. Student fees paid for community service courses, as defined by the board of regents, are considered restricted to a specific purpose.

(8) income from a political subdivision that is designated a community college service region under 20-15-241.

(a) The general fund appropriation must be determined pursuant to 20-15-310.

(b) The mandatory levy amount must represent a specific percentage of the combined total of the fixed cost of education and the variable cost of education, as those terms are defined in 20-15-310, and as determined by the legislature. This percentage must be specified for each community college by the board of trustees of the district and approved by the board of regents.

(c) The funding obtained pursuant to subsections (1)(a) and (1)(b) plus the revenue derived from tuition and fee schedules approved by the board of regents and unrestricted income from any other source is the amount of the unrestricted budget. A detailed expenditure schedule for the unrestricted budget must be submitted to the board of regents for their review and approval.

(d) The amount estimated to be raised by the voted levy must be detailed separately in an expenditure schedule.

(e) The spending of each restricted or designated funding source must be detailed separately in an expenditure schedule.

(f) The expenditure schedules provided in subsections (1)(c) through (1)(e) represent the total operating budget of the community college.

20-15-323. Definition of emergency for budgeting purposes. As used in this chapter, unless the context clearly indicates otherwise, the term "emergency" for the purpose of community college budgeting means:

(1) the destruction or impairment of any community college district property necessary to the maintenance of the district, by fire, flood, storm, riot, insurrection, or act of God, to an extent rendering the property unfit for its present use;

(2) a judgment for damages against the district issued by a court after the adoption of the budget for the current year;

(3) an enactment of legislation after the adoption of the budget for the current year that imposes an additional financial obligation on the district; or

(4) any other reason of similar consequence that has been approved by the board of regents upon petition by the trustees of the district.

History: En. Sec. 51, Ch. 767, L. 1991.

20-15-324. Resolution for emergency budget — petition to board of regents. (1) Whenever the trustees of a community college district decide that an emergency exists, they may adopt a resolution proclaiming the emergency by a unanimous vote of all members present at any meeting for which each trustee has been given reasonable notice of the time and place of holding the meeting. The emergency resolution must also state the facts constituting the emergency, the estimated amount of money required to meet the emergency, the funds affected by the emergency, and the time and place the board will meet for the purpose of considering and adopting an emergency budget for the funds for the current school fiscal year.

(2) If the trustees decide that an emergency exists for any reason other than the conditions specified in 20-9-161(1) through (3), they shall petition the board of regents for permission to adopt a resolution of emergency. The petition must set forth in writing the reasons for the request, the district funds affected by the emergency, the estimated amount of money required to meet the emergency for each affected fund, the anticipated sources of financing for the emergency expenditures, and any other information required by the board of regents. The petition must be signed by each trustee.

(3) The board of regents shall promptly approve or disapprove the petition requesting approval to adopt a resolution of emergency. If the petition is approved, the trustees may adopt a resolution of emergency and take all other steps required for the adoption of an emergency budget. Approval of a petition by the board of regents authorizes the board of trustees to initiate emergency budget proceedings by resolution and does not relieve the trustees of the necessity of complying with the requirements of the emergency budgeting laws.

History: En. Sec. 52, Ch. 767, L. 1991.

20-15-325. Emergency budget limitation, preparation, and adoption procedures. (1) The meeting of the trustees of a community college district to consider and adopt an emergency budget must be open to the public, and any taxpayer in the district has the right to appear and be heard. If at the meeting a majority of the trustees present find that an emergency exists, the trustees may make and adopt a preliminary emergency budget, on the regular budget form, setting forth fully the facts constituting the emergency. In adopting the preliminary emergency budget, the trustees may budget for any fund that was included on the final budget of the district for the current fiscal year. The budget must be itemized to show the amount appropriated for each item as required on the budget form.

(2) When the emergency is the result of increased enrollment, the maximum amount of the emergency budget for all funds must be determined by budget amendment.

(3) If another type of emergency occurs, the budget must be limited to the expenditures considered by the trustees to be reasonable and necessary to finance the conditions of the emergency, and the preliminary emergency budget must include the details of the proposed expenditures.

(4) After a majority of the trustees have voted to adopt the emergency budget, it must be signed by the presiding officer of the trustees and the clerk of the district and copies must be sent to the county superintendent and the board of regents.

History: En. Sec. 53, Ch. 767, L. 1991; amd. Sec. 9, Ch. 260, L. 1995.

20-15-326. Determination of available financing — fixing and levying property taxation for emergency budget. (1) After the last day of the fiscal year for which an emergency budget has been adopted, the board of trustees shall determine the amount of the cash balance that is available to finance the emergency budget's outstanding warrants or registered warrants for each fund included on the emergency budget. The available amount of the cash balance of each fund must be determined by deducting from the county treasurer's yearend cash balance for the fund the outstanding warrants or registered warrants issued under the regularly adopted final budget for the fund and the cash reserve for the fund that the trustees have established, within the limitations of law, for the following fiscal year.

(2) The county treasurer shall prepare and deliver a statement on the financial cash status of each fund included on an emergency budget for a district that had an emergency budget during the preceding year to the board of county commissioners by the first Monday in August. The statement for each district emergency budget must include:

(a) the total amount of emergency warrants that are registered against each fund of the district; and

(b) the additional amount of money that is required to finance the registered warrants and interest on the warrants and that must be raised by a tax levy.

(3) For each fund of the emergency budget of each district requiring a tax levy as established by subsection (2)(b), the board of county commissioners shall at the time all other district and county taxes are fixed and levied, levy a tax on the taxable value of all taxable property of each applicable district that will raise sufficient financing to pay the amount established by the county treasurer.

(a) the Friday following Thanksgiving;

(b) the Monday before Christmas Day or New Year's Day if either holiday falls on Tuesday; and

(c) the Friday after Christmas Day or New Year's Day if either holiday falls on Thursday.

(2) A full-time employee who is scheduled for a day off on a day that is designated as a holiday under subsection (1) is entitled to receive another day off with pay during the same pay period of the designated holiday or as scheduled by the employee and the employee's supervisor in addition to the employee's regularly scheduled days off if the employee is in a pay status on the last regularly scheduled working day immediately before the holiday or on the first regularly

20-25-307. Disposition of land. (1) The board of regents may sell, exchange, and lease land and grant easements and licenses on land that is held or administered by the board of regents or the system and that is held by the state for the use and benefit of the board of regents or the system.

(2) The board of regents may not grant an estate or interest in land that was granted to the state in trust for the support and benefit of the system.

(3) In disposing of any estate or interest in land pursuant to subsection (1), the board of regents shall obtain consideration that equals or exceeds the full market value of the land. For sales and exchanges, full market value must be determined by the board of regents after an appraisal by a certified or licensed appraiser. If the appraiser determines that the valuation is not complicated and estimates, based on available data, that the full market value of the property is $10,000 or less, the board of regents may use a restricted or limited appraisal.

(4) Before approving an exchange of land, the board of regents shall give the public notice of the proposed exchange and an opportunity to comment. The board of regents shall, upon request of any person, hold a public hearing in the area where the state land to be conveyed is located. Subject to subsection (6), the board of regents may, after review of the comments, approve the exchange if it determines that the exchange is in the best interests of the system.

(5) Prior to the sale of land, the board of regents shall prepare a request for proposals to purchase the land and publish public notice of the sale once a week for 4 consecutive weeks in a newspaper of general circulation published in the county where the land is situated. If a newspaper is not published in that county, notice must be published in any newspaper of general circulation in that county. The notice must describe the land to be sold, the appraised value of the land, the procedure by which persons may obtain the request for proposals, the terms and conditions of sale, and the criteria upon which each proposal will be evaluated. The sale procedure must provide reasonable opportunity for members of the public to submit proposals to purchase the land. The board of regents may sell the land only if it determines that the sale is in the best interests of the system. If the board of regents sells the land, the sale must be to the offeror whose proposal the board determines to be the most advantageous to the system, taking into consideration the price and the other evaluation criteria listed in the request for proposals.

(6) (a) The board of regents may sell or exchange the land only if the board of regents first:

(i) requests and obtains the written concurrence of the board of land commissioners;

(ii) provides proof that no use restrictions, encumbrances, or other conditions have been placed by the board of regents on the land proposed for sale or exchange that prevent the state from obtaining full market value for the land, taking into consideration the price and the other evaluation criteria listed in the request for proposals;

(iii) complies with the requirements of the Montana Environmental Policy Act provided in Title 75, chapter 1, parts 1 through 3; and

(iv) complies with the requirements of Montana antiquities laws provided in Title 22, chapter 3, part 4.

(b) The board of land commissioners may refuse to concur if it determines that:

(i) the sale or exchange does not return to the state full market value;

(ii) the evaluation criteria in the request for proposals or the sale procedure and proposal selection process did not provide the public with a reasonable opportunity to submit proposals to purchase the land or to have reasonable proposals selected;

(iii) the sale or exchange is not in the best interests of the state; or

(iv) the system has not complied with the requirements of subsections (6)(a)(ii) through (6)(a)(iv).

(7) After obtaining written concurrence of the board of land commissioners required in subsection (6), the board of regents shall convey the land by deed, executed by the presiding officer of the board or other person designated by the board, without covenants of warranty.

(a) borrow money for any purpose or purposes stated in parts 3 and 4 of this chapter, including, if considered desirable by the regents, the payment of interest on the money borrowed for a facility during the construction of the facility and for 1 year after construction and the creation of a reserve for the payment of bond principal and interest;

(b) make purchases on a time or installment basis;

(c) issue bonds, notes, and other securities, negotiable or otherwise, secured as provided in this section, including bearer bonds with appurtenant interest coupons, which must be fully negotiable notwithstanding any limitation on the source of payment of the bonds, notes, or securities, or fully registered bonds or bonds registered as to ownership of principal only;

(d) pledge for the payment of the purchase price of any facility or of the principal and interest on bonds, notes, or other securities authorized in this chapter or otherwise obligate:

(i) the net income received from rents, board, or both in housing, food service, and other facilities;

(ii) receipts from student building, activity, union, and other special fees prescribed by the regents for all students; and

(iii) (A) other income in the form of gifts, bequests, contributions, or federal grants of funds, including the proceeds or income from grants of lands or other real or personal property;

(B) receipts from athletic and other contests, exhibitions, and performances; and

(C) collections of admissions and other charges for the use of facilities, including all use by other persons, firms, and corporations for athletic and other contests, exhibitions, and performances and for the conduct of their business, educational, or governmental functions;

(e) make payments on loans or purchases from any other available income not obligated for those purposes, including receipts from sale of materials, equipment, and fixtures of the facilities or from sales of the facilities themselves, other than land;

(f) secure any bonds authorized under this section by a trust indenture between the regents and any bank or trust company within or outside of the state of Montana or by a resolution establishing covenants of the regents with the holders of the bonds relating to:

(i) the construction, operation, use, and insurance of the facilities;

(ii) the segregation, expenditure, and audit of accounts of the bond proceeds and of the income pledged;

(iii) the establishment and collection of rents, charges, admissions, and fees sufficient to provide net income adequate for prompt payment of principal and interest on bonds and creation and maintenance of reserves for that purpose; and

(iv) other matters that the regents may determine to be necessary or desirable for the security and marketability of the bonds;

(g) subject to the following provisions, issue and sell or exchange bonds, secured as provided in this section, for the refunding of any outstanding bonds or other obligations issued by the regents:

(i) refunding bonds may, with the consent of the holders of the bonds to be refunded, be exchanged at par plus accrued interest for all or part of the bonds or may be sold at a price not less than par plus accrued interest. They may be secured by a pledge of the same revenue as the bonds refunded or by a pledge of different or additional revenues received at the same unit of the university. This subsection (1)(g) may not require the holder of any outstanding bond to accept payment of the bond or the delivery of a refunding bond in exchange for the bond, except in accordance with the terms of the outstanding bond. Bonds may be issued to refund interest as well as principal actually due and payable if the revenue pledged for the bonds are not sufficient, but not to refund any bonds or interest due that can be paid from revenue then on hand.

(ii) refunding bonds may bear interest at a rate lower or higher than the bonds refunded by the refunding bonds if they are issued to refund matured principal or interest for the payment of which revenue on hand is not sufficient, for the purpose of releasing revenue required for payment of the outstanding bonds permitting the pledge of the revenue for the security of other bonds as well as the refunding bonds, subject to the rights of the holders of the outstanding bonds until those bonds are fully paid and redeemed. Except as authorized in the preceding sentence, refunding bonds may not be issued unless their average annual interest rate, computed to their stated maturity dates and excluding any premium from the computation, is at least 3/8 of 1% less than the average annual interest rate on the bonds refunded, computed to their respective stated maturity dates.

(iii) in any case in which refunding bonds are issued and sold 6 months or more before the earliest date on which all bonds refunded by the refunding bonds mature or are prepayable in accordance with their terms, the proceeds of the refunding bonds, including any premium and accrued interest, must be deposited in escrow with a suitable bank or trust company having its principal place of business within or outside of the state, which is a member of the federal reserve system and has a combined capital and surplus of not less than $1 million, and must be invested in the amount and in securities maturing on the dates and bearing interest at the rates that will be required to provide funds sufficient to pay when due the interest to accrue on each bond refunded to its maturity or, if it is prepayable, to the earliest prior date upon which the bond may be called for redemption from the proceeds of the refunding bonds and to pay and redeem the principal amount of each bond at maturity or, if prepayable, on that redemption date and any premium required for redemption on that date. The resolution or indenture authorizing the refunding bonds must irrevocably appropriate for these purposes the escrow fund and all income from the escrow fund and must provide for the call of all prepayable bonds in accordance with their terms. The securities to be purchased with the escrow funds must be limited to general obligations of the United States, securities for which principal and interest payments are guaranteed by the United States, and securities issued by the following United States government agencies, including only banks for cooperatives, federal home loan banks, federal intermediate credit banks, federal land banks, and the federal national mortgage association. The securities must be purchased simultaneously with the delivery of the refunding bonds.

(iv) revenue or other funds on hand in excess of the amount pledged by resolutions or indentures authorizing outstanding bonds for the payment of principal and interest currently due on the outstanding bonds and reserves securing the payment may be used to pay the expenses incurred by the regents for the purpose of refunding, including but without limitation the cost of advertising and printing refunding bonds, legal and financial advice and assistance in connection with refunding the bonds, and the reasonable and customary charges of escrow agents and paying agents. Revenue and other funds on hand, including reserves pledged for the payment and security of outstanding revenue bonds, may be deposited in an escrow fund created for the retirement of those bonds and may be invested and disbursed as provided in subsection (1)(g)(iii) to the extent consistent with the resolutions or indentures authorizing the outstanding bonds.

(h) sell bonds and sell or exchange refunding bonds issued under this section in the manner and upon the terms as to maturities, interest rates, and redemption privileges and for the price that the regents determine with the approval of the department of administration.

(2) If applicable, the regents shall specify whether the bonds issued under this section are tax credit bonds as provided in 17-5-117.

20-25-428. Tribal college reimbursement for services provided to resident nonbeneficiary students. (1) Subject to a line item appropriation for purposes of this section, the regents shall provide a reimbursement to tribally controlled community colleges for enrolled resident nonbeneficiary students who, except as provided in subsection (8), are taking courses for which credit is transferable to another Montana college or university.

(2) Each tribal community college shall apply to the regents for this reimbursement. Except as provided in subsection (6), the money must be distributed on a prorated basis according to the eligible resident nonbeneficiary student enrollment in each tribal community college during the previous year. To qualify, a resident nonbeneficiary student must meet the residency requirements as prescribed for the system by the regents and, except as provided in subsection (8), must be enrolled in courses for which credit is transferable to another Montana college or university. The distribution for any resident nonbeneficiary student reimbursement must be limited to a maximum annual amount of $3,280 for each full-time equivalent student.

(3) A reimbursement is contingent upon the tribal community college:

(a) being accredited or being a candidate for accreditation by the northwest commission on colleges and universities;

(b) entering into a contract or a state-tribal cooperative agreement, pursuant to Title 18, chapter 11, with the regents to provide the regents with information relating to eligibility of resident nonbeneficiary students and documentation on the curriculum to ensure that the content and quality of courses offered by the tribal community college are consistent with the standards adopted by the system;

(c) providing the regents with documentation that credits for the courses in which the resident nonbeneficiary students are enrolled, except as provided in subsection (8), will be accepted at another Montana college or university; and

(d) filing with the regents evidence that the college's enrollment of Indian students is at least 51%, as required by the Tribally Controlled Community College Assistance Act of 1978, 25 U.S.C. 1804.

(4) If funding is available pursuant to subsection (1), the legislature intends that the money be an amount in addition to the system budget approved in the general appropriations act.

(5) All funds appropriated under subsection (1) that are unspent revert to the state general fund.

(6) Prior to receiving money pursuant to subsection (1), each tribal community college shall grant to eligible resident nonbeneficiary students who meet the residency requirements, as prescribed for the system by the regents, fee waivers in the same percentage as the number of Indian students who are receiving fee waivers to attend a unit of the system bears to the total enrollment in the system.

(7) The calculation in subsection (6) is not intended to allow the university system to retain the calculated amount of funds. Waivers must be given to eligible students.

(8) The limit of financial assistance to nonbeneficiary students is limited to students enrolled in courses for which credit is transferable to another Montana college or university.

(9) As used in this section, "resident nonbeneficiary student" means a resident of the state of Montana who is not:

(a) a member of an Indian tribe; or

(b) a biological child of a member of an Indian tribe, living or deceased.

The program must allow a private donor to make tax deductible contributions by cash, check, or money order that benefit a qualifying institution and students of these public institutions.

(2) As part of the program, the board of regents shall:

(a) provide a donor with a receipt that reflects the contribution in sufficient detail for the donor to claim any applicable credits or deductions for state and federal income tax purposes;

(b) deposit donations to the program in the state special revenue account established by 20-25-456;

(c) develop procedures and forms that enable a donor to make contributions by cash, check, or money order for the benefit of a specific qualifying institution. If a donor does not select an institution, the donation must be allocated on an equal basis to all qualifying institutions by dividing the total donation by the number of qualifying institutions.

(d) develop procedures and forms that enable a donor to select the percentage of the donation that will be used by a qualifying institution for building projects, educational programs, and academic scholarships. If a donor does not make a selection, the donation may be used for the general support, maintenance, or improvement of the institution as provided in 17-3-1001(2).

(2) All donations must be from a private source and may not be expended for any purpose other than for the benefit of qualifying institutions.

(3) Earnings in the account are allocable to each qualifying institution in proportion to each qualifying institution's share of the account balance.

(4) The board of regents shall distribute donor contributions to the qualifying institution's endowment fund. A distribution may not exceed the institution's allocation and must be used for the purpose established by the donor as provided in 20-25-455(2)(d). 20-25-501. Definitions. (1) Terms used in this part are defined as follows:

(a) "Domicile" means a person's true, fixed, and permanent home and place of habitation.

(b) "Minor" means a male or female person who has not obtained the age of 18 years.

(c) "Qualified person" means a person legally qualified to determine the person's own domicile.

(d) "Resident student" means:

(i) a student who has been domiciled in Montana for 1 year immediately preceding registration at any unit for any term or session for which resident classification is claimed. Attendance as a full-time student at any college, university, or other institution of higher education is not alone sufficient to qualify for residence in Montana.

(ii) any graduate of a Montana high school who is a citizen or resident alien of the United States and whose parents, parent, or guardian has resided in Montana at least 1 full year of the 2 years immediately preceding the student's graduation from high school. The classification continues for not more than 4 academic years if the student remains in continuous attendance at a unit; or

(iii) a member of the armed forces of the United States assigned to and residing in Montana, the member's spouse, or the member's dependent children.

(2) In the event that the definition of residency or any portion of the definition is declared unconstitutional as it is applied to payment of nonresident fees and tuition, the regents of the Montana university system may make rules on what constitutes adequate evidence of residency status not inconsistent with those court decisions.

20-25-503. Presumptions and rules as to domicile. (1) Unless the contrary appears to the unit registering authority, it is presumed the domicile of a minor is that:

(a) of the parents or, if one of them is deceased or they do not share the same domicile, of the parent having legal custody or, if neither parent has legal custody, the parent with whom the minor customarily resides; or

(b) of the minor's guardian when the court appointing the guardian certifies that the primary purpose of the appointment is not to qualify the minor as a resident of this state.

(2) A resident student who marries a nonresident does not by that fact alone lose resident status for tuition and fee purposes for a period of 4 years after marriage.

(3) Residence is not lost because of relocation as a member of the armed forces of the United States.

(4) A new domicile is established by a qualified person if the person is physically present in Montana with no intention to acquire a domicile outside of Montana.

(5) Domicile is not lost by absence from Montana with no intention to establish a new domicile.

(6) Montana high school graduates who are citizens or resident aliens of the United States are resident students of the system for 4 consecutive years of attendance if:

(a) they apply for admittance to the system within 1 year after graduation; and

(b) their parents or the parent having legal custody or, if neither parent has legal custody, the parent with whom they customarily reside has resided in Montana in one of the 2 years immediately preceding the graduation.

(7) Upon moving to Montana, an adult employed on a full-time basis within the state of Montana may apply for in-state tuition classification for the adult's spouse or any dependent minor child, or both. If the person meets the requirement of full-time employment within the state of Montana and files for the payment of Montana state income taxes or files estimates of those taxes or is subject to withholding of those taxes and renounces residency in any other state and is not in the state primarily as a student, the person's spouse or any dependent minor child, or both, may at the next registration after qualifying be classified at the in-state rate so long as the person continues a Montana domicile. In the administration of this subsection, neither the full-time employee or spouse is eligible for in-state tuition classification if the primary purpose for coming to Montana was the education of the employee or spouse.

20-25-504. Evidence as to domiciliary intent — changes in status. (1) To determine the domicile of a person, the units of the system shall apply the following rules:

(a) Nonpayment of Montana income tax by a person whose income is sufficient to be taxed is highly persuasive evidence of non-Montana domicile.

(b) A person shall intend to establish a domicile in Montana.

(2) After registration, a student's classification for tuition and fee purposes remains unchanged in the absence of evidence to the contrary. A written statement of the evidence must be filed with the registering authority of the unit. Changes in classification must be in writing signed by the registering authority and take effect at the student's next registration.

(3) A minor shall qualify for a change in status only if the minor's parents or the parent having legal custody or, if neither parent has legal custody, the parent with whom the minor customarily resides or legal guardian or person having legal custody completes the requirements for establishing domicile.

(4) It is presumed a minor or adult registered as a full-time student at any unit is not qualified for a change in the person's dependent's classification for tuition and fee purposes unless the person completes 12 continuous months of residence while not attending a unit of the system or other institution of higher learning or while serving in the armed forces.

(5) Any student whose request for classification as a resident student is denied has the right of appeal to the executive secretary of the Montana university system. Immediately upon rejection and at the request of the student, the registering authority shall forward a copy of the authority's decision and a complete file on the student to the executive secretary. The executive secretary may accept other evidence of residence from either the student, the registering authority, or other interested persons. Within 30 days of the receipt of the decision of the registering authority, the executive secretary shall determine the resident status of the student and shall notify the student and the registering authority of the decision. The executive secretary's decision may be appealed to the regents if the regents agree to entertain an appeal.

The board of regents may assess a fee to students preparing to be physicians in the fields of medicine or osteopathic medicine who are supported by the state pursuant to an interstate compact for a professional education program in those fields, as those fields are defined by the compact. The fee may not exceed an amount equal to 16% of the annual individual medicine support fee paid by the state pursuant to 20-25-804. The fee must be assessed by the board of regents and deposited in the state special revenue account established in 20-26-1501.

History: En. Sec. 2, Ch. 394, L. 1991; amd. Sec. 15, Ch. 389, L. 1999; amd. Sec. 4, Ch. 361, L. 2007.

(b) the expenses of administering the incentive program. The expenses of administering the program may not exceed 10% of the annual fees assessed pursuant to 20-26-1502.

(2) The board of regents shall establish procedures for determining rural areas and medically underserved areas or populations of the state that qualify for assistance in physician recruitment. An eligible area or eligible population must demonstrate that a physician shortage exists or that the area or population has been unsuccessful in recruiting physicians in other ways.

(3) A physician from an area or serving a population determined to be eligible under subsection (2) may apply to the board of regents for payment of an educational debt directly related to a professional school, as provided in subsection (4). Physicians who have paid the fee authorized in 20-26-1502 must be given a preference over other applicants. To receive the educational debt payments, the physician shall sign an annual contract with the board of regents. The contract must provide that the physician is liable for the payments if the physician ceases to practice in the eligible area or serve the eligible population during the contract period.

(4) The maximum amount of educational debt payment that a physician practicing in a rural area or medically underserved area or for a medically underserved population may receive is $100,000 over a 5-year period or a proportionally reduced amount for a shorter period.

(b) The reimbursement under this section is limited to a maximum of $3,750 a year for 4 years and must be based on a participant's actual loan balance.

(c) An individual with a loan balance of less than $1,000 is not eligible for the program provided for in this section.

(3) (a) The board of regents shall reimburse a participant in the loan reimbursement program at the end of every 12-month period that the participant works at either the Montana state prison or the Montana state hospital. The amount to be reimbursed as determined in subsection (2) must be reimbursed in equal annual installments over 4 years as long as the participant continues to work at either facility.

Part 6
Interstate Library Compact

22-1-601. Library compact. The Interstate Library Compact is approved, enacted into law, and entered into by the state of Montana. The compact is in full as follows:

INTERSTATE LIBRARY COMPACT

Article I. Policy and Purpose

Because the desire for the services provided by libraries transcends governmental boundaries and can most effectively be satisfied by giving such services to communities and people regardless of jurisdictional lines, it is the policy of the states party to this compact to cooperate and share their responsibilities; to authorize cooperation and sharing with respect to those types of library facilities and services which can be more economically or efficiently developed and maintained on a cooperative basis; and to authorize cooperation and sharing among localities, states, and others in providing joint or cooperative library services in areas where the distribution of population or of existing and potential library resources make the provision of library service on an interstate basis the most effective way of providing adequate and efficient service.

Article II. Definitions

As used in this compact:

(1) "public library agency" means any unit or agency of local or state government operating or having power to operate a library;

(2) "private library agency" means any nongovernmental entity which operates or assumes a legal obligation to operate a library;

(3) "library agreement" means a contract establishing an interstate library district pursuant to this compact or providing for the joint or cooperative furnishing of library services.

Article III. Interstate Library Districts

(1) Any one or more public library agencies in a party state in cooperation with any public library agency or agencies in one or more other party states may establish and maintain an interstate library district. Subject to the provisions of this compact and any other laws of the party states which pursuant hereto remain applicable, such district may establish, maintain, and operate some or all of the library facilities and services for the area concerned in accordance with the terms of a library agreement therefor. Any private library agency or agencies within an interstate library district may cooperate therewith, assume duties, responsibilities, and obligations thereto, and receive benefits therefrom as provided in any library agreement to which such agency or agencies become party.

(2) Within an interstate library district, and as provided by a library agreement, the performance of library functions may be undertaken on a joint or cooperative basis or may be undertaken by means of one or more arrangements between or among public or private library agencies for the extension of library privileges to the use of facilities or services operated or rendered by one or more of the individual library agencies.

(3) If a library agreement provides for joint establishment, maintenance, or operation of library facilities or services by an interstate library district, such district shall have power to do any one or more of the following in accordance with such library agreement:

(a) undertake, administer, and participate in programs or arrangements for:

(i) securing, lending, or servicing books and other publications, any other materials suitable to be kept or made available by libraries, or library equipment; or

(ii) for the dissemination of information about libraries, the value and significance of particular items therein, and the use thereof;

(b) accept for any of its purposes under this compact any and all donations and grants of money, equipment, supplies, materials, and services (conditional or otherwise) from any state or the United States or any subdivision or agency thereof or interstate agency or from any institution, person, firm, or corporation and receive, utilize, and dispose of the same;

(c) operate mobile library units or equipment for the purpose of rendering bookmobile service within the district;

(d) employ professional, technical, clerical, and other personnel and fix terms of employment, compensation, and other appropriate benefits; and where desirable, provide for the in-service training of such personnel;

(e) sue and be sued in any court of competent jurisdiction;

(f) acquire, hold, and dispose of any real or personal property or any interest or interests therein as may be appropriate to the rendering of library service;

(g) construct, maintain, and operate a library, including any appropriate branches thereof;

(h) do such other things as may be incidental to or appropriate for the carrying out of any of the foregoing powers.

Article IV. Interstate Library Districts, Governing Board

(1) An interstate library district which establishes, maintains, or operates any facilities or services in its own right shall have a governing board which shall direct the affairs of the district and act for it in all matters relating to its business. Each participating public library agency in the district shall be represented on the governing board which shall be organized and conduct its business in accordance with provision therefor in the library agreement. But in no event shall a governing board meet less often than twice a year.

(2) Any private library agency or agencies party to a library agreement establishing an interstate library district may be represented on or advise with the governing board of the district in such manner as the library agreement may provide.

Article V. State Library Agency Cooperation

Any two or more state library agencies of two or more of the party states may undertake and conduct joint or cooperative library programs, render joint or cooperative library services, and enter into and perform arrangements for the cooperative or joint acquisition, use, housing, and disposition of items or collections of materials which, by reason of expense, rarity, specialized nature, or infrequency of demand therefor would be appropriate for central collection and shared use. Any such programs, services, or arrangements may include provision for the exercise on a cooperative or joint basis of any power exercisable by an interstate library district, and an agreement embodying any such program, service, or arrangement shall contain provisions covering the subjects detailed in Article VI of this compact for interstate library agreements.

Article VI. Library Agreements

(1) In order to provide for any joint or cooperative undertaking pursuant to this compact, public and private library agencies may enter into library agreements. Any agreement executed pursuant to the provisions of this compact shall, as among the parties to the agreement:

(a) detail the specific nature of the services, programs, facilities, arrangements, or properties to which it is applicable;

(b) provide for the allocation of costs and other financial responsibilities;

(c) specify the respective rights, duties, obligations, and liabilities of the parties;

(d) set forth the terms and conditions for duration, renewal, termination, abrogation, disposal of joint or common property, if any, and all other matters which may be appropriate to the proper effectuation and performance of the agreement.

(2) No public or private library agency shall undertake to exercise, itself or jointly with any other library agency, by means of a library agreement, any power prohibited to such agency by the constitution or statutes of its state.

(3) No library agreement shall become effective until filed with the compact administrator of each state involved and approved in accordance with Article VII of this compact.

Article VII. Approval of Library Agreements

(1) Every library agreement made pursuant to this compact shall, prior to and as a condition precedent to its entry into force, be submitted to the attorney general of each state in which a public library agency party thereto is situated, who shall determine whether the agreement is in proper form and compatible with the laws of that state. The attorneys general shall approve any agreement submitted to them unless they shall find that it does not meet the conditions set forth herein and shall detail in writing addressed to the governing bodies of the public library agencies concerned the specific respects in which the proposed agreement fails to meet the requirements of law. Failure to disapprove an agreement submitted hereunder within 90 days of its submission shall constitute approval thereof.

(2) In the event that a library agreement made pursuant to this compact shall deal in whole or in part with the provision of services or facilities with regard to which an officer or agency of the state government has constitutional or statutory powers of control, the agreement shall, as a condition precedent to its entry into force, be submitted to the state officer or agency having such power of control and shall be approved or disapproved by the officer or it as to all matters within the officer's or its jurisdiction in the same manner and subject to the same requirements governing the action of the attorneys general pursuant to paragraph (1) of this article. This requirement of submission and approval shall be in addition to and not in substitution for the requirement of submission to and approval by the attorneys general.

Article VIII. Other Laws Applicable

Nothing in this compact or in any library agreement shall be construed to supersede, alter, or otherwise impair any obligation imposed on any library by otherwise applicable law nor to authorize the transfer or disposition of any property held in trust by a library agency in a manner contrary to the terms of such trust.

Article IX. Appropriations and Aid

(1) Any public library agency party to a library agreement may appropriate funds to the interstate library district established thereby in the same manner and to the same extent as to a library wholly maintained by it and, subject to the laws of the state in which such public library agency is situated, may pledge its credit in support of an interstate library district established by the agreement.

(2) Subject to the provisions of the library agreement pursuant to which it functions and the laws of the states in which such district is situated, an interstate library district may claim and receive any state and federal aid which may be available to library agencies.

Article X. Compact Administrator

Each state shall designate a compact administrator with whom copies of all library agreements to which the administrator's state or any public library agency thereof is party shall be filed. The administrator shall have such other powers as may be conferred upon the administrator by the laws of that state and may consult and cooperate with the compact administrators of other party states and take such steps as may effectuate the purposes of this compact. If the laws of a party state so provide, such state may designate one or more deputy compact administrators in addition to its compact administrator.

Article XI. Entry into Force and Withdrawal

(1) This compact shall enter into force and effect immediately upon its enactment into law by any two states. Thereafter, it shall enter into force and effect as to any other state upon the enactment thereof by such state.

(2) This compact shall continue in force with respect to a party state and remain binding upon such state until 6 months after such state has given notice to each other party state of the repeal thereof. Such withdrawal shall not be construed to relieve any party to a library agreement entered into pursuant to this compact from any obligation of that agreement prior to the end of its duration as provided therein.

Article XII. Construction and Severability

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable, and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state party thereto, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters.

(4) Disbursements to grantees must be as follows, based upon the cash flow needs of the projects and the revenues available:

(a) Projects that are to receive more than $10,000 may receive an amount not exceeding 25% of the grant award in the first 6 months of the biennium, 50% in the first year of the biennium, 75% in the first 18 months of the biennium, and the balance in the remainder of the biennium. Within the limitations contained in this subsection, the amount of each payment must be determined by the Montana arts council in its discretion. Each payment may be made only after an examination of the costs incurred in the project and the amount, if any, of the unencumbered or unexpended balance of prior grant payments for the project.

(b) Projects that are to receive $10,000 or less may receive the total grant in any fiscal quarter if the Montana arts council determines that the cultural and aesthetic project account has funds available and that, after an examination of the costs incurred by the project, total payment is appropriate.

(c) A grant award budget may be modified in accordance with this subsection. A grantee may modify line items in an approved budget in an amount not to exceed 10% of the total grant award. A grantee may, with permission of the Montana arts council, modify line items in an approved budget in an amount not to exceed 20% of the total grant award. A modification may not increase the grant award or change the scope or purpose of the award.

(5) The grantee must maintain accounts, records, and other pertinent material pertaining to the costs incurred and expenditures made under the grant. The system of accounting employed by the grantee must be in accordance with generally accepted accounting principles and be applied in a consistent manner so that project costs and expenditures can be clearly identified. Accounts, records, and other pertinent material must be maintained for 3 years from the official termination date of the grant period or until an audit, approved by the council, has been completed and any questions arising from the audit have been resolved to the satisfaction of the council.

(6) Grantees must submit to the council semiannual reports of expenditures during the course of the project and other financial and descriptive reports that the council may require. The grantee must submit, within 30 days after completion of the project, a final financial report

and a narrative report stating what was accomplished with the grant. Five percent of the total grant award must be held pending receipt of final reports by the council. With regard to grantees who in the past have submitted late reports, 30% of the grant award may be held pending receipt of final reports by the council.

(7) The council may, at the principal place of business of the grantee and during regular business hours, examine any directly pertinent records, accounts, and documents of the grantee involving transactions related to the grant.

(d) challenge grants for permanent endowments to benefit cultural nonprofit grant recipients.

(2) The Montana arts council may require a match in cash or donated services for special project and operational support grants. The Montana arts council may accept matches in excess of the presumed value or may in its discretion require a lesser amount.

(3) Capital expenditures may not exceed 25% of the total grant funds appropriated. Capital expenditure grants require a match of at least $3 in cash or donated goods and services, which goods and services must be donated specifically for the capital expenditure project, to receive each dollar of grant funds.

(2) (a) If a state building recommended for construction in the report required by Title 17, chapter 7, part 2, is also recommended as appropriate for the inclusion of works of art as provided in 22-2-403(2), the report shall so state, and in addition the report shall include any recommendation made by the Montana arts council concerning the appropriateness of the building for the inclusion of works of art, the types of works of art suggested for inclusion in such building, and the anticipated cost of such suggested works of art, including costs of acquisition, maintenance, and administrative expenses associated with the suggested works of art. The Montana arts council may submit a recommendation even if the architecture and engineering division of the department of administration has determined that a structure is not appropriate for inclusion of works of art.

Beneficiaries, Title 72, ch. 38.
Trustees, Title 72, ch. 38, part 8.

22-2-501. Definitions. As used in this part, unless the context requires otherwise, the following definitions apply:

(1) "Art dealer" means a person engaged in the business of selling works of fine art, other than a person exclusively engaged in the business of selling goods at public auction.

(2) "Artist" means a person who creates a work of fine art or, if the person is deceased, the person's heir, devisee, or personal representative.

(3) "Consignment" means that no title to, estate in, or right to possession of fine art superior to that of the consignor vests in the consignee, notwithstanding the consignee's power or authority to transfer and convey to a third person all of the right, title, and interest of the consignor in and to such fine art.

(4) "Fine art" means a painting, sculpture, drawing, work of graphic art (including an etching, lithograph, signed limited edition offset print, silk screen, or a work of graphic art of like nature), a work of calligraphy, photographs, original works in ceramics, wood, metals, glass, plastic, wax, stone, or leather, or a work in mixed media (including a collage, assemblage, or any combination of the art media mentioned in this subsection).

(5) "Person" means an individual, partnership, corporation, association, or other group, however organized.

History: **En. Sec. 1, Ch. 534, L. 1985.**

22-2-502. Artist-art dealer relationship. Notwithstanding any custom, practice, or usage of the trade to the contrary, whenever an artist delivers or causes to be delivered a work of fine art of the artist's own creation to an art dealer in this state for the purpose of exhibition and sale on a commission, fee, or other basis of compensation, the delivery to and acceptance of such work of fine art by the dealer constitutes a consignment, unless the delivery to the art dealer is pursuant to an outright sale for which the artist receives upon delivery or has received prior to delivery full compensation for the work of fine art.

History: **En. Sec. 2, Ch. 534, L. 1985.**

22-2-503. Agency relationship — trust property. A consignment of a work of fine art results in the following:

(1) The art dealer, after delivery of the work of fine art, is an agent of the artist for the purpose of sale or exhibition of the consigned work of fine art within the state of Montana. This relationship must be defined in writing and renewed at least every 3 years by the art dealer and the artist. It is the responsibility of the artist to identify clearly the work of art by securely attaching identifying marking to or clearly signing the work of art.

(2) The work of fine art constitutes property held in trust by the consignee for the benefit of the consignor and is not subject to claim by a creditor of the consignee.

(3) The consignee is responsible for the loss of or damage to the work of fine art while in the possession of or on the premises of the consignee.

(4) The proceeds from the sale of the work of fine art constitute funds held in trust by the consignee for the benefit of the consignor. The proceeds must first be applied to pay any balance due to the consignor, unless the consignor expressly agrees otherwise in writing.

History: **En. Sec. 3, Ch. 534, L. 1985.**

22-2-504. Subsequent sale — payment to consignor. A work of fine art received as a consignment remains trust property, notwithstanding the subsequent purchase thereof by the consignee directly or indirectly for the consignee's own account, until the price is paid in full to the consignor. If the work is resold to a bona fide purchaser before the consignor has been paid in full, the proceeds of the resale received by the consignee constitute funds held in trust for the benefit of the consignor to the extent necessary to pay any balance due to the consignor and the trusteeship continues until the fiduciary obligation of the consignee with respect to the transaction is discharged in full.

History: **En. Sec. 4, Ch. 534, L. 1985.**

(1) in consultation with the historical society adopt rules for the identification and preservation of heritage properties and paleontological remains on lands owned by the state to avoid, whenever feasible, state actions or state assisted or licensed actions that substantially alter heritage properties or paleontological remains on lands owned by the state or, in the absence of such rules, act in compliance with rules adopted under 22-3-423;

22-3-428. Heritage property — procedures and guidelines required. The historic preservation officer shall adopt standardized procedures and guidelines for inventorying, collecting data on, documenting, and evaluating all types of heritage property. In adopting the standardized procedures and guidelines, the historic preservation officer may consult with state and federal agencies experienced in reviewing and mitigating environmental and cultural impacts caused by development of properties.

History: En. Sec. 4, Ch. 343, L. 1995.

22-3-429. Requests for consultation — public notice — appeal of findings. (1) A federal or state entity that acts upon a proposed federal or state action or an application for a federal, state, or local permit, license, lease, or funding may request the views of the historic preservation officer concerning:

(a) the recommended eligibility for a register listing of any heritage property or paleontological remains;

(b) the effects of a proposed action, activity, or undertaking on heritage property or remains that are found to be eligible for register listing; and

(c) the appropriateness of a proposed plan for the avoidance or mitigation of effects.

(2) A request for comment pursuant to 16 U.S.C. 470f may be made simultaneously with a request pursuant to subsection (1). The historic preservation officer shall respond in writing to a request within 30 calendar days of receiving the request and shall address each property in the request and each topic of the request. In the event that an agency requests simultaneous consultation for two or more criteria under this section, the agency and historic preservation officer may extend the 30-day review period by mutual agreement. If the historic preservation officer fails to comment within that time, that failure is construed as concurrence with the agency's recommendation. In the event of failure to comment on a specific undertaking, the historic preservation officer may not change a finding for a heritage property at a later date.

(3) If the proposed finding is that a heritage property or paleontological remains are involved and that a proposed activity will have an adverse impact on the property or remains, the proposed finding must address all properties or remains involved and describe the characteristics that illustrate the qualities that make the property or remains eligible for inclusion in the register. If the proposed finding includes a conclusion that a property or remains may be eligible but additional information or study is needed to reach an eligibility finding, the finding must specify the type and amount of information required in accordance with standards and guidelines as provided in 22-3-428.

(4) At the time that the state or federal agency requests the views of the historic preservation officer as provided in subsection (1), the agency shall provide notice to the applicant, affected property owners, and other interested persons of the request for consultation and shall identify locations where the submitted materials may be reviewed.

(5) The applicant and any affected property owners have 20 days in which to appeal the historic preservation officer's finding to the director. The appeal notice must include a written statement of reasons for the appeal and any additional supporting information.

(6) The director of the historical society shall issue a final finding within 30 days of the expiration of the 20-day appeal period provided for under subsection (5). The issuance of this

finding does not limit the rights of any applicant or affected property owner to challenge a finding under an existing federal law, regulation, or regulatory or administrative process.

(7) If the applicant or an affected property owner is not satisfied with the finding of the director of the historical society concerning the eligibility of the property or remains for listing in the register or a finding of adverse effect to the property, the entity or property owner may appeal the finding to the district court in either Lewis and Clark County or a county in which affected property is located. Appeal may be taken by filing a petition with the district court citing the decision by the director of the historical society and the evidence upon which the director relied. On appeal, the district court may consider any documents supporting or not supporting the finding, the written comments received by the director of the historical society, and any additional evidence that may be submitted to the court. The district court may substitute its judgment for the judgment of the director of the historical society as to the weight of the evidence.

History: En. Sec. 5, Ch. 343, L. 1995; amd. Sec. 120, Ch. 42, L. 1997.

22-3-430. Avoidance and mitigation of impacts. (1) Avoidance of impacts to heritage property or paleontological remains is preferred. Avoidance may not be construed to constitute neglect of the property or anticipatory demolition.

(2) If it is not feasible to avoid impacts to heritage property or paleontological remains, a mitigation plan must be developed by the agency, in consultation with the applicant, to minimize adverse effects to the property or remains. Mitigation must be directed at the characteristics of the property that make it eligible for listing in the register. If requested by the agency, the historic preservation officer shall identify suggested mitigation actions in writing at the time that the historic preservation officer submits a proposed finding under 22-3-429.

History: En. Sec. 6, Ch. 343, L. 1995.

22-3-431. Registration of heritage properties. (1) Any citizen of Montana may submit to the historic preservation officer for consideration the necessary forms to nominate heritage properties to the register.

(2) (a) For private properties, the historic preservation officer shall notify the owner of the property and allow the owner a reasonable period of time to concur or object to the nomination of the property for registration. If the owner of the property, or a majority of owners if the property has more than one owner, objects to registration, the historic preservation officer may not nominate the property unless the objection is withdrawn. If there are no objections, the historic preservation officer may, upon approval by the preservation review board, nominate heritage properties to the register.

(b) The historic preservation officer and the preservation review board may review the nomination of property that was not nominated because of owner objection to determine whether the property is eligible for registration. If the historic preservation officer and the preservation review board determine that the property is eligible for registration, the preservation officer shall provide for the register information about the property for determination of registration eligibility.

(c) The historic preservation officer shall follow the procedures mandated by 36 CFR 60.6 relating to seeking property owner concurrence or objection to registration.

(3) For lands owned by the state, a county, or a municipality, the historic preservation officer may, upon approval by the preservation review board, nominate heritage properties to the register. The historic preservation officer shall notify the appropriate governmental agency and give public notice when any governmental property is being considered for nomination. Unless agency or public objections are submitted in writing within 30 days after notification, the historic preservation officer shall complete the nominations. When an agency or any citizen of Montana submits written objections, the historic preservation officer shall consider the objections and may conduct a public hearing. If a hearing is held, it must be commenced within 30 days after the final date for submission of written objections. Within 60 days after submission of the objections or after the public hearing, the historic preservation officer shall make a final decision on the proposed registration and prepare a statement responsive to the objections submitted.

22-3-432. Antiquities permits. (1) A person may not excavate, remove, or restore any heritage property or paleontological remains on lands owned by the state without first obtaining an antiquities permit from the historic preservation officer.

(2) Antiquities permits are to be granted only after careful consideration of the application for a permit and after consultation with the appropriate state agency. Permits are subject to strict compliance with the following guidelines:

(a) Antiquities permits may be granted only for work to be undertaken by reputable museums, universities, colleges, or other historical, scientific, or educational institutions, societies, or persons with a view toward dissemination of knowledge about cultural properties, provided a permit may not be granted unless the historic preservation officer is satisfied that the applicant possesses the necessary qualifications to guarantee the proper excavation of those sites and objects that may add substantially to knowledge about Montana and its antiquities.

(b) The antiquities permit must specify that a summary report of the investigations, containing relevant maps, documents, drawings, and photographs, must be submitted to the historic preservation officer. The historic preservation officer shall determine the appropriate time period allowable between all work undertaken and submission of the summary report.

(3) All heritage property and paleontological remains collected under an antiquities permit are the permanent property of the state and must be deposited in museums or other institutions within the state or loaned to qualified institutions outside the state, unless otherwise provided for in the antiquities permit.

(4) An antiquities permit is not a substitution for any other type of permit that a state agency may require for other purposes.

22-3-433. Environmental review process. (1) Each state agency responsible for the preparation of an environmental impact statement in accordance with the Montana Environmental Policy Act shall, as a part of its evaluation and study process, consult with and obtain the comments of the historic preservation officer concerning the identification and location of heritage properties and paleontological remains on lands owned by the state that may be adversely impacted by the proposed action. However, where the grant of an interest in state land requires the preparation of an environmental impact statement under the Montana Environmental Policy Act, the environmental impact statement shall be limited to an evaluation of the heritage properties and paleontological remains located in, on, under, and within only the affected state land.

(2) When heritage properties and paleontological remains are located and identified as described in subsection (1), the responsible state agency, in consultation with the historic preservation officer and the preservation review board, shall include as part of its environmental impact statement a plan for the avoidance or mitigation of damage to heritage properties and paleontological remains to the greatest extent practicable. Whenever necessary or appropriate, the state agency may require an applicant for a lease, permit, license, or other approval for use of land owned by the state to develop an avoidance or mitigation plan in consultation with the historic preservation officer and the preservation review board.

22-3-502. Purpose. The people of Montana have an interest in preserving and protecting objects of scientific, historic, artistic, or cultural value and making them accessible to the public. The purpose of this part is to serve this interest by establishing a uniform procedure for lenders to preserve their interests in property loaned to museums; to require lenders to notify museums of changes of address and transfers of ownership of loaned property; and to vest title to unclaimed property in the museum that holds it.

History: En. Sec. 2, Ch. 630, L. 1985.

22-3-503. Definitions. As used in this part, the following definitions apply:

(1) "Loan" means a deposit of property not accompanied by a transfer of title to the property.

(2) "Museum" means an institution located in Montana and operated by a nonprofit corporation or a public agency primarily for educational, scientific, or aesthetic purposes, and that owns, borrows, or cares for and exhibits, studies, or catalogs property.

(3) "Property" includes any tangible object, animate or inanimate, that has intrinsic historic, artistic, scientific, or cultural value.

History: En. Sec. 3, Ch. 630, L. 1985.

22-3-504. Loans for an indefinite term. (1) If a museum accepts a loan of property for an indefinite term or for a term longer than 7 years, the museum must inform the lender in writing at the time of the loan of the provisions of this part.

(2) For the purposes of this part, a loan for a specified term becomes a loan for an indefinite term if the property remains in the custody of the museum after the specified term expires.

History: En. Sec. 4, Ch. 630, L. 1985.

22-3-505. Manner of giving notice to lender. When the provisions of this part require a museum to give notice to a lender, the museum is considered to have given notice if the museum mails the notice to the lender at the lender's address and proof of receipt is received by the museum within 30 days from the date the notice was mailed. If the museum does not have a current address for the lender or if proof of receipt is not received by the museum, notice is considered given if the museum publishes it at least once a week for 3 consecutive weeks in a newspaper of general circulation in both the county in which the museum is located and the county of the lender's most recent address as shown on the museum's records.

History: En. Sec. 5, Ch. 630, L. 1985.

22-3-506. Notice of intent to preserve interest. (1) The owner of property on loan to a museum may file with the museum a notice of intent to preserve an interest in the property. This notice must be in writing and must contain a description of the property adequate to enable the museum to identify the property.

(2) The filing of a notice of intent to preserve an interest in property on loan to a museum does not validate or make enforceable any claim that would be extinguished under the terms of a written loan agreement or that would otherwise be invalid or unenforceable.

(3) (a) Unless the loaned property is returned to the claimant, the museum shall retain for not less than 25 years the original or an accurate copy of any notice filed by a claimant under this section.

(b) The fact that the museum retains a notice may not be construed to mean that the notice is sufficient or accurate or that it is effective to preserve an interest in property on loan to the museum.

(2) No action may be brought against a museum to recover property on loan if more than 3 years have passed from the date the museum gave the lender notice of its intent to terminate the loan as provided in 22-3-510.

(3) No action may be brought against a museum to recover property on loan if more than 25 years have passed from the date of the last written contact between the lender and the museum, as evidenced in the museum's records.

Human Skeletal Remains and Burial Site Protection

Repatriation of human remains and funerary objects, Title 22, ch. 3, part 9.

22-3-801. Short title. This part may be cited as the "Human Skeletal Remains and Burial Site Protection Act".

History: En. Sec. 1, Ch. 748, L. 1991.

22-3-802. Legislative findings and intent. (1) The legislature of the state of Montana finds that:

(a) the state and its citizens have an obligation to protect from disturbance or destruction all human skeletal remains, burial sites, and burial material, including those in marked, unmarked, unrecorded, registered, or unregistered graves or burial grounds located on state or private lands that are not protected as cemeteries or graveyards under existing state law;

(b) marked, unmarked, unrecorded, registered, or unregistered graves or burial grounds not protected as cemeteries or graveyards under existing state law are increasingly subject to pilferage, disturbance, and destruction for commercial purposes, including land development, agriculture, mining, and the sale of artifacts;

(c) private collection of artifacts may result in the destruction of burial sites. Existing law reflects the value society places on preserving human burial sites, but the law does not clearly provide equal and adequate protection or incentives to ensure preservation and protection of all burial sites in the state regardless of ethnic origin, burial context, or age.

(d) while some human skeletal remains and burial sites may be of interest to science, the needs of the scientific community to gather information and material from burial sites must be balanced with the legal, moral, and religious rights and obligations of tribal groups, next of kin, or descendants;

(e) preservation in place is the preferred policy for all human skeletal remains, burial sites, and burial material; and

(f) notwithstanding any other provision of law, this part is the exclusive law governing the treatment of human skeletal remains, burial sites, and burial materials.

(2) It is the intent of the legislature to:

(a) ensure that all burials be accorded equal treatment and respect for human dignity without reference to ethnic origin, cultural background, or religious affiliation;

(b) provide adequate protection for all interests related to any burial site encountered during archaeological excavation or agricultural, mining, construction, or other ground-disturbing activity on state and private lands without causing avoidable or undue delay or hardship for any person who has an interest in using the land on which the burial site is located;

(c) recognize the interests, concerns, and obligations of those having a kinship, tribal, cultural, or religious affiliation with the burial site and balance those interests against the interests of scientists, landowners, and developers;

(d) provide to the board an exemption from the open meeting and public records laws when public disclosure of the location of a burial site could result in pilferage, disturbance, or destruction of the site; and

(e) recognize the need for forensic examination of human skeletal remains, burial sites, and burial material if the county coroner, county attorney, or state medical examiner determines an examination is necessary under state law.

(a) one representative of each of the seven reservations, appointed by the governor from a list of up to three nominees provided by each of the respective tribal governments;

(b) one person appointed by the governor from a list of up to three nominees submitted by the Little Shell band of Chippewa Indians;

(f) one representative of the Montana coroners' association appointed by the governor from a list of up to three nominees submitted by the Montana coroners' association; and

(g) one representative of the public, appointed by the governor, who is not associated with tribal governments; state government; the fields of historic preservation, archaeology, or anthropology; or the Montana coroners' association.

(2) Members of the board shall serve staggered 2-year terms. A vacancy on the board must be filled in the same manner as the original appointment and only for the unexpired portion of the term.

(3) The board shall:

(a) provide for the establishment and maintenance of a registry of burial sites located in the state;

(b) designate the appropriate member or members of the board or a representative or representatives of the board to conduct a field review upon notification of the discovery of human skeletal remains, a burial site, or burial material;

(c) assist interested landowners in the development of agreements with the board for the treatment and disposition, with appropriate dignity, of human skeletal remains and burial material;

(5) Each member of the board is entitled to be paid $50 for each day in which the member is actually and necessarily engaged in the performance of board duties and is also entitled to be reimbursed for travel, meals, and lodging pursuant to 2-18-501 through 2-18-503.

History: En. Sec. 4, Ch. 748, L. 1991; amd. Sec. 54, Ch. 483, L. 2001; amd. Sec. 1, Ch. 99, L. 2015.

2015 Amendment: Chapter 99 in (5) substituted current text for "Members of the board shall serve without pay but are entitled to reimbursement for travel, meals, and lodging pursuant to 2-18-501 through 2-18-503"; and made minor changes in style. Amendment effective July 1, 2015.

22-3-805. Discovery — reporting requirements — field review. (1) A person who by archaeological excavation or by agricultural, mining, construction, or other ground-disturbing activity discovers human skeletal remains, a burial site, or burial material shall immediately notify the county coroner. Failure to notify the county coroner subjects a person to the penalty provided in 22-3-808.

(2) Upon discovery of human skeletal remains, a burial site, or burial material, excavation or further disturbance must cease until the coroner has determined whether the remains are subject to the provisions of Title 46, chapter 4, or any other related provisions of law concerning the investigation of the circumstances, manner, and cause of death or whether a forensic examination of the human skeletal remains, burial site, or burial material is necessary. The coroner shall make a determination within 2 working days from the time the person responsible for the excavation notifies the coroner of the discovery or recognition of the remains. If the coroner cannot make the determination within 2 working days, the coroner shall notify a member of the board of the reason for and the approximate length of the delay. The coroner shall take all reasonable steps to make a determination without removing or causing further disturbance of the remains.

(3) If a forensic examination, action under Title 46, chapter 4, or action under any other related provisions of law concerning the investigation of the circumstances, manner, and cause of death is necessary and yields evidence of criminal activity, the evidence may be seized by the coroner or law enforcement agency with jurisdiction for use in a criminal proceeding as provided by law.

(4) If the coroner determines that the remains are not subject to the provisions of Title 46, chapter 4, or any other provisions of law concerning the investigation of the circumstances, manner, and cause of death and that a forensic examination is not necessary, the coroner shall telephone the state historic preservation officer within 24 hours. Within 24 hours of notification, the state historic preservation officer shall contact either the landowner and the board or the landowner and the board member representing the nearest reservation and notify them of the discovery of human skeletal remains, a burial site, or burial material.

(5) If the state historic preservation officer cannot be contacted, the coroner shall notify a member of the board or the law enforcement agency of the nearest reservation within 24 hours. The board or the agency shall immediately notify the landowner and the board member representing that reservation.

(6) Within 36 hours after the board receives notification of a discovery of human skeletal remains, a burial site, or burial material, the board shall designate representatives to conduct, with the permission of the landowner, an initial field review. If the field review cannot be completed within the next 36 hours, the board's representatives shall negotiate with the landowner or the landowner's representative for a reasonable time extension to complete the review. The field review must include:

(a) a determination of whether the site can be preserved;

(b) negotiation with the landowner concerning onsite reburial or disinterment and reburial; and

(c) a recommendation, including a timeframe, concerning final treatment or disposition of the human skeletal remains or burial material.

(7) If the board's representatives fail to make a recommendation or if the landowner and the board cannot agree and mediation fails to provide, within 40 days after notification to the board, a resolution acceptable to the landowner and the board, the human skeletal remains and burial materials must be removed and control is vested in the board. The board shall give control of the remains or materials in the following priority to:

(a) the descendants, if identifiable;

(b) the tribe or other cultural group that has the closest cultural affiliation with the human skeletal remains or burial materials;

(c) the tribe or other cultural group recognized as having aboriginally or historically occupied the area where the remains or materials were discovered if, upon notification by the board, the tribe or cultural group states a claim for the remains or materials; or

(d) if unclaimed by any tribe or cultural group, the board, which shall determine the appropriate disposition and oversee the reinterment of the remains and materials.

(8) For purposes of this section, "cultural group" means a present-day group or organization that has a relationship of shared group identity that can be reasonably traced historically or prehistorically to an identifiable earlier group or organization.

22-3-806. Scientific analysis — permit required. (1) Although onsite reburial is preferred, the board may, upon petition by a person seeking permission to perform scientific analysis, grant a permit for the scientific removal and analysis of human skeletal remains and burial material upon proof and determination by the board that the analysis is scientifically justifiable. A petition for a permit must include:

(a) payment of the nonrefundable application fee provided for in 22-3-804; and

(b) a brief narrative describing the methodology to be used, the timeframe needed to complete the scientific study, and any other information specifically requested by the board relating to the proposed study.

(2) The methodology proposed must be reviewed by the state historic preservation officer or the officer's designated representative and the physical anthropologist on the board, and a recommendation must be made to the full board. Once approved by the board, any change in methodology or in the timeframe must be approved by the board before the original timeframe expires. The timeframe for scientific study may not exceed 12 months from the date of issuance of the permit.

(3) A permit for scientific analysis issued by the board is subject to terms, conditions, and procedures prescribed by the board and must include the condition that a permittee shall pay all costs of excavation, study, and disposition.

(4) The board shall either issue or deny a permit within 30 working days from the date of the permit petition. If the board denies a permit upon a finding that scientific analysis is not justifiable, the board shall provide the applicant with a written statement outlining the grounds for its finding. The applicant may appeal the decision of the board under the provisions of Title 2, chapter 4, part 6, of the Montana Administrative Procedure Act.

(5) The board may suspend or revoke a permit pursuant to the Montana Administrative Procedure Act upon a finding that the permittee has violated any provision of this part or any term, condition, or procedure of a permit issued by the board.

(6) The provisions of this section do not apply to a forensic examination by the county coroner, action under Title 46, chapter 4, or action under any other related provisions of law concerning the investigation of the circumstances, manner, and cause of death.

Repatriation of Human Remains and Funerary Objects

Part Cross-References

Human skeletal remains and burial site protection, Title 22, ch. 3, part 8.

22-3-901. Short title. This part may be cited as the "Montana Repatriation Act".

History: En. Sec. 1, Ch. 558, L. 2001.

22-3-902. Legislative findings and intent. (1) The legislature of the state of Montana finds that:

(a) since July 1, 1991, and passage of the Human Skeletal Remains and Burial Site Protection Act, Montana law has provided a mechanism to protect marked, unmarked, unrecorded, registered, or unregistered graves or burial grounds discovered on state and private land from pilferage, disturbance, and destruction in an effort to provide equal protection and respect for all burial sites, human skeletal remains, and funerary objects;

(b) despite the state's success in balancing the interests of those persons who have tribal, kinship, cultural, or religious affiliation with a burial site with the interests of scientists, agencies, law enforcement, and private landowners, the 1991 Human Skeletal Remains and Burial Site Protection Act did not provide a mechanism to repatriate culturally affiliated human skeletal remains or funerary objects that were taken from burial sites prior to July 1, 1991;

(c) funerary objects interred with culturally affiliated human skeletal remains are not abandoned when interred. Discoverers, therefore, have no right of ownership, and they cannot confer a right of ownership to another because the person who interred funerary objects with the deceased did not through interment abandon a property interest in the objects, but intended for those objects to remain with the deceased.

(d) the state of Montana has an obligation to avoid infringing upon the right to religious beliefs and practices guaranteed to all citizens under the free exercise clause of the first amendment of the United States constitution and under Article II, section 4, of the Montana constitution and to preserve the cultural integrity of American Indian citizens recognized by the state under Article X, section 1(2), of the Montana constitution;

(e) the state of Montana acknowledges the paramount privacy right of a tribal group, lineal descendant, next of kin, agency, or museum to protect sensitive and sacred information that may be required to be disclosed to demonstrate cultural affiliation or lineal descent and therefore authorizes the protection of that information to the full extent allowed by the Montana constitution; and

(f) the state of Montana acknowledges the right of an agency, museum, or person to maintain possession or control of human skeletal remains or funerary objects that are currently under scientific study or that require testing prior to the effective date of the board's determination regarding repatriation.

(2) It is the intent of the legislature to:

(a) provide a consistent state policy to ensure that all human skeletal remains and all funerary objects interred with those human skeletal remains be treated with dignity and respect;

(b) encourage voluntary disclosure and repatriation of culturally affiliated human skeletal remains and funerary objects by an agency, museum, or person;

(c) provide a mechanism to provide for repatriation of human skeletal remains and funerary objects to a tribal group, lineal descendant, or next of kin establishing cultural affiliation with those human skeletal remains or funerary objects that were taken from unprotected burial sites prior to July 1, 1991, and that are currently in the possession or control of an agency, museum, or person in this state; and

(d) protect the right of privacy guaranteed to tribal groups, lineal descendants, next of kin, agencies, or museums regarding the disclosure of sacred or religious information to the full extent allowed by the Montana constitution.

History: En. Sec. 2, Ch. 558, L. 2001.

(9) "Inventory" means an itemized list that summarizes the collection of human skeletal remains and funerary objects in the possession or control of an agency or museum.

(1) An agency or museum that on or after May 2, 2001, has possession or control over human skeletal remains or funerary objects shall within 6 months complete an inventory of all human skeletal remains and funerary objects and, to the extent possible based on all information possessed by the agency or museum:

(c) each tribal government located in Montana.

(3) The agency, museum, board, or state historic preservation office shall provide a copy of an inventory list or a portion of a list to any other requesting party only after the agency, museum, board, or office, pursuant to Article II, section 9, of the Montana constitution, has balanced the public's right to the information and the individual privacy interest associated with the information and has determined that the right of individual privacy does not clearly exceed the merits of public disclosure.

(4) Following completion of the initial inventory, each agency or museum shall, whenever the agency or museum receives new human skeletal remains or funerary objects through a loan or donation, update its inventory list within 6 months of the loan or donation. Upon completion, the agency or museum shall provide a copy of this update to the entities listed in subsection (2) within 3 months.

History: En. Sec. 4, Ch. 558, L. 2001.

22-3-912. Claims for repatriation. (1) A claim for repatriation of human skeletal remains or funerary objects must be made by:

(a) filing a written claim for the human skeletal remains or funerary objects with the board and the possessing entity having possession or control of the human skeletal remains or funerary objects; and

(b) proving, by a preponderance of the evidence:

(i) the claimant's cultural affiliation to the human skeletal remains or funerary objects; and

(ii) that the possessing entity does not have the right of possession.

(2) A claim for repatriation under this section may be made by a claimant:

(a) who claims cultural affiliation and requests the return of human skeletal remains or funerary objects listed in the inventory of an agency or museum; or

(b) who requests the repatriation of human skeletal remains or funerary objects that are not listed in the inventory of an agency or museum but are in the possession or control of the possessing entity.

History: En. Sec. 5, Ch. 558, L. 2001.

22-3-913. Hearing — hearings examiner — evidence — study or testing order and costs — findings. (1) The board shall appoint an attorney licensed to practice law in Montana as a hearings examiner to hold a hearing pursuant to Title 2, chapter 4, part 6, on a claim filed under 22-3-912. At a hearing under this section, the hearings examiner shall hear the evidence presented by each party, including evidence presented by a possessing entity or intervenor in support of a request for a temporary delay in repatriation made under 22-3-915.

(2) Either party or an intervenor may request and is responsible for the cost of genetic or other study or testing necessary to determine cultural affiliation. Upon such a request, the hearings examiner may order any study or testing necessary and may require a surety bond to ensure protection of human skeletal remains or funerary objects. The hearings examiner may grant the study or testing requested along with sufficient time to conduct the study or testing or may deny any study or testing requested upon a finding that the study or testing would not likely be pertinent to the determination of cultural affiliation.

(3) (a) If, based on a preponderance of the evidence, the hearings examiner finds that the claimant has a cultural affiliation with the human skeletal remains or funerary objects and that the possessing entity does not have the right of possession, the hearings examiner shall recommend to the board that the board order repatriation under 22-3-916. If the hearings examiner finds that there is a need to temporarily delay repatriation based on an ongoing scientific study or a good faith effort toward scientific study under 22-3-915, the hearings examiner shall recommend a delay as provided in 22-3-915.

(b) If, based on a preponderance of the evidence, the hearings examiner finds that the claimant has not proven that the claimant has a cultural affiliation with the human skeletal remains or funerary objects and that the possessing entity has the right of possession, the hearings examiner shall recommend to the board that the board deny the claimant's request for repatriation and shall recommend that the board order that the possessing entity be granted uncontested control and possession of the human skeletal remains or funerary objects under 22-3-916.

(c) A recommendation under this subsection (3) shall be made in the form of a proposal for decision as provided in 2-4-621. The provisions of 2-4-621 apply to a recommendation made under this subsection (3).

(4) If the hearings examiner recommends repatriation, the hearings examiner shall issue an order requiring the possessing entity to consult with the claimant to arrange for the expeditious repatriation of the culturally affiliated human skeletal remains or funerary objects to the claimant, upon order of the board under 22-3-916.

History: En. Sec. 6, Ch. 558, L. 2001.

22-3-914. Closure of hearings. To the extent allowed by Montana law, the board shall, upon the request of either party or an intervenor, close any part of a board hearing or any part of a hearing under 22-3-913 to the public if the board finds that information required at the hearing may include identification of the specific location of a burial site that may lead to compromise of a burial site, human skeletal remains, or funerary objects or that information necessary for a determination regarding repatriation may compromise or interfere with any religious practice or custom.

History: En. Sec. 11, Ch. 558, L. 2001.

22-3-915. Delay of repatriation for scientific study. (1) If repatriation is ordered after a hearing, a possessing entity may request a temporary delay in repatriation because of:

(a) scientific study being conducted on or proposed to be conducted on human skeletal remains or funerary objects in its possession or control; or

(b) good faith efforts to initiate or proceed with a scientific study of human skeletal remains or funerary objects in its possession or control.

(2) If a hearings examiner determines that a possessing entity has provided evidence supporting a good faith effort regarding scientific study, the hearings examiner shall provide a reasonable period of delay to allow completion of the study prior to repatriation.

History: En. Sec. 7, Ch. 558, L. 2001.

22-3-916. Board decision — order — immunity against aggrieved parties — relinquishment of control by tribal group. (1) Subject to the provisions of 2-4-621 and 2-4-623, at the conclusion of the hearing and upon receipt of the recommendations of the hearings examiner, the board shall:

(a) issue findings of facts and conclusions related to any decision regarding its determination supporting or denying a claimant's written request for the repatriation of human skeletal remains or funerary objects;

(b) issue findings of facts and conclusions related to any decision regarding a possessing entity's or intervenor's request for a temporary delay in repatriation pending completion of ongoing scientific study; and

(c) provide the claimant, respondent, possessing entity, or intervenor with a written copy of its findings and conclusions regarding the specific repatriation request.

(2) A possessing entity that repatriates culturally affiliated human skeletal remains or funerary objects in good faith pursuant to this section is not liable for claims by an aggrieved party or for claims of breach of a fiduciary duty or the public trust or of violation of state law that are inconsistent with this part.

(3) This section does not prevent the governing body of a tribal group from expressly relinquishing control over any human skeletal remains or control or title to any funerary object. The acquisition of a funerary object from a tribal group or individual with the voluntary consent of the tribal group or individual with authority to alienate the object constitutes the right of possession over that object. Divestiture of culturally affiliated human skeletal remains or funerary objects from a person without a right of possession does not constitute an unconstitutional taking of property.

History: En. Sec. 8, Ch. 558, L. 2001.

22-3-917. Appeals — stay of order pending appeal — court costs and attorney fees. (1) Within 30 days of a board decision regarding human skeletal remains or a funerary object located within the jurisdiction of the state, either party may file an appeal in the district court in the county in which the subject of the dispute is located. The court may include a grant of attorney fees to the prevailing party when it would serve the interests of justice. The court shall grant an award of costs to the prevailing party. An appeal under this section is subject to the provisions of Title 2, chapter 4, part 7.

(2) The filing of an appeal by either party automatically stays a board order on repatriation of human skeletal remains or funerary objects.

(3) A protection order issued by the board remains in effect until the issue is finally resolved by a state court.

History: En. Sec. 9, Ch. 558, L. 2001.

22-3-918. Multiple claims — care and handling of human skeletal remains or funerary objects pending disposition. If multiple requests for repatriation of human skeletal remains or funerary objects occur and the appropriate claimant cannot be determined, the board shall provide for the appropriate care and handling of the human skeletal remains or funerary objects until:

(1) the requesting parties agree upon the disposition;

(2) the dispute is resolved by the board pursuant to 22-3-916; or

(3) the issue is finally resolved in a state court of competent jurisdiction.

History: En. Sec. 10, Ch. 558, L. 2001.

22-3-919 and 22-3-920 reserved.

22-3-921. Exclusions. The provisions of this part do not apply to any lithic material or other artifacts of nonhuman derivation removed from the Anzick site (known as Montana historical site No. 24PA506) on or before July 1, 1991, regardless of where the material or artifacts are located or by whom the material or artifacts are controlled or possessed.

History: En. Sec. 13, Ch. 558, L. 2001.

(b) The provisions of Title 18 may not be construed as prohibiting contracts under this section from being let by direct negotiation. The contracts may be entered into directly with a vendor and are not subject to state procurement laws.

(c) Architectural and engineering review and approval do not apply to the historic renovation projects or projects at historic sites unless stated in specific state appropriations for construction permitted under the commission's jurisdiction.

(e) A contract for supplies or services, or both, may be negotiated in accordance with commission rules.

(f) Management activities must be undertaken to encourage the operation of properties in a manner that results in economic stability.

(2) (a) Except as provided in subsection (2)(b), the commission may not contract for the construction of a building, as defined in 18-2-101, in excess of $300,000 without the consent of the legislature. Building construction must be in conformity with applicable guidelines developed by the national park service of the U.S. department of the interior, the Montana historical society, and the Montana department of fish, wildlife, and parks. Funding for these projects must pass through directly to the commission.

(b) The commission may contract for the preservation, stabilization, or maintenance of existing structures or buildings for an amount that exceeds $300,000 without legislative consent if the commission determines that waiting for legislative consent would cause unnecessary damage to the structures or buildings or would result in a significant increase in cost to conduct those activities in the future.

(3) (a) Subject to subsection (3)(b), the commission, as part of a contract, shall require that a portion of any profit be reinvested in the property and that a portion be used to pay the administrative costs of the property and the commission.

(7) The commission shall establish a subcommittee composed of an equal number of members of the Montana historical society board of trustees and commission members to review and recommend the sale of personal property from the former Bovey assets acquired by the 55th legislature. A recommendation to sell may be presented to the commission only if the recommendation is supported by a majority of the members of the subcommittee.

(8) The commission shall adopt rules establishing a policy for making acquisitions and sales of real and personal property. With respect to each acquisition or sale, the policy must give consideration to:

(a) whether the property represents the state's culture and history;

(b) whether the property can become economically stable;

(c) whether the property can contribute to the economic and social enrichment of the state;

(d) whether the property lends itself to programs to interpret Montana history;

(e) whether the acquisition or sale will create significant social and economic impacts to affected local governments and the state;

(f) whether the sale is supported by the director of the Montana historical society;

(g) whether the commission should include any preservation covenants in a proposed sale agreement for real property;

(h) whether the commission should incorporate any design review ordinances established by Virginia City into a proposed sale agreement for real property; and

(i) other matters that the commission considers necessary or appropriate.

(9) Except as provided in subsection (11), the proceeds of any sale under subsection (8) must be placed in the account established in 22-3-1004.

(10) Public notice and the opportunity for a hearing must be given in the geographical area of a proposed acquisition or sale of real property before a final decision to acquire or sell the property is made. The commission shall approve proposals for acquisition or sale of real property and recommend the approved proposal to the board of land commissioners.

(11) The commission, working with the board of investments, may establish trust funds to benefit historic properties. Interest from any trust fund established under this subsection must be used to preserve and manage assets owned by the commission.

(12) Prior to the convening of each regular session, the commission shall report to the governor and the legislature, as provided in 5-11-210, concerning financial activities during the prior biennium, including the acquisition or sale of any assets.

Gross revenue from the sale of educational, commemorative, and interpretive merchandise and other related goods and services must be deposited in the fund. Other fees for the use of state parks and fishing access sites, such as overnight camping fees, are still chargeable and may be collected by the department.

(2) The operation of an off-highway vehicle, as defined in 23-2-801, within state parks and fishing access sites is prohibited except:

Development of Outdoor Recreational Resources

23-2-101. Legislative findings — purpose. Montana is uniquely endowed with scenic landscapes and areas rich in recreational value. This outdoor heritage enriches the lives of citizens, attracts new residents and businesses to the state, and is of major significance to the expanding tourist industry. It is the purpose of this part to give authority to the department of fish, wildlife, and parks to plan and develop outdoor recreational resources in the state, which authority shall permit receiving and expending funds including federal grants for this purpose.

23-2-301. Definitions. For purposes of this part, the following definitions apply:

(1) "Barrier" means an artificial obstruction located in or over a water body, restricting passage on or through the water, that totally or effectively obstructs the recreational use of the surface water at the time of use. A barrier may include but is not limited to a bridge or fence or any other artificial obstacle to the natural flow of water.

(2) "Class I waters" means surface waters, other than lakes, that:

(a) lie within the officially recorded federal government survey meander lines of the waters;

(b) flow over lands that have been judicially determined to be owned by the state by reason of application of the federal navigability test for state streambed ownership;

(c) are or have been capable of supporting the following commercial activities: log floating, transportation of furs and skins, shipping, commercial guiding using multiperson watercraft, public transportation, or the transportation of merchandise, as these activities have been defined by published judicial opinion as of April 19, 1985; or

(d) are or have been capable of supporting commercial activity within the meaning of the federal navigability test for state streambed ownership.

(3) "Class II waters" means all surface waters that are not class I waters, except lakes.

(4) "Commission" means the fish and wildlife commission provided for in 2-15-3402.

(5) "Department" means the department of fish, wildlife, and parks provided for in 2-15-3401.

(6) "Diverted away from a natural water body" means a diversion of surface water through a constructed water conveyance system, including but not limited to:

(a) an irrigation or drainage canal or ditch;

(b) an industrial, municipal, or domestic water system, excluding the lake, stream, or reservoir from which the system obtains water;

(c) a flood control channel; or

(d) a hydropower inlet and discharge facility.

(7) "Lake" means a body of water where the surface water is retained by either natural or artificial means and the natural flow of water is substantially impeded.

(8) "Occupied dwelling" means a building used for a human dwelling at least once a year.

(9) "Ordinary high-water mark" means the line that water impresses on land by covering it for sufficient periods to cause physical characteristics that distinguish the area below the line from the area above it. Characteristics of the area below the line include, when appropriate, but are not limited to deprivation of the soil of substantially all terrestrial vegetation and destruction of its agricultural vegetative value. A flood plain adjacent to surface waters is not considered to lie within the surface waters' high-water marks.

(10) "Recreational use" means with respect to surface waters: fishing, hunting, swimming, floating in small craft or other flotation devices, boating in motorized craft unless otherwise prohibited or regulated by law, or craft propelled by oar or paddle, other water-related pleasure activities, and related unavoidable or incidental uses.

(11) "Supervisors" means the board of supervisors of a soil conservation district, the directors of a grazing district, or the board of county commissioners if a request pursuant to 23-2-311(3)(b) is not within the boundaries of a conservation district or if the request is refused by the board of supervisors of a soil conservation district or the directors of a grazing district.

(12) "Surface water" means, for the purpose of determining the public's access for recreational use, a natural water body, its bed, and its banks up to the ordinary high-water mark.

(c) the placement or creation of any seasonal object; or

(d) other activities that are not primarily water-related pleasure activities as defined in 23-2-301(10).

(5) The commission shall adopt rules pursuant to 87-1-303, in the interest of public health, public safety, or the protection of public and private property, governing recreational use of class I and class II waters. These rules must include the following:

23-2-311. Right to portage — establishment of portage route. (1) A member of the public making recreational use of surface waters may, above the ordinary high-water mark, portage around barriers in the least intrusive manner possible, avoiding damage to the landowner's land and violation of the landowner's rights.

(2) A landowner may create barriers across streams for purposes of land or water management or to establish land ownership as otherwise provided by law. If a landowner erects a structure that does not interfere with the public's use of the surface waters, the public may not go above the ordinary high-water mark to portage around the structure.

(3) (a) A portage route around or over a barrier may be established to avoid damage to the landowner's land and violation of the landowner's rights, as well as to provide a reasonable and safe route for the recreational user of the surface waters.

(b) A portage route may be established when either a landowner or a member of the recreating public submits a request to the supervisors that a route be established.

(c) Within 45 days of the receipt of a request, the supervisors shall, in consultation with the landowner and a representative of the department, examine and investigate the barrier and the adjoining land to determine a reasonable and safe portage route.

(d) Within 45 days of the examination of the site, the supervisors shall make a written finding of the most appropriate portage route.

(e) The cost of establishing the portage route around artificial barriers must be borne by the department, including the cost of construction of notification signs of the route.

(f) Once the route is established, the department has the exclusive responsibility to maintain the portage route at reasonable times agreeable to the landowner. The department shall post notices on the stream of the existence of the portage route and the public's obligation to use it as the exclusive means around a barrier.

(g) If either the landowner or the recreationist disagrees with the route described in subsection (3)(e), the person may petition the district court to name a three-member arbitration panel. The panel must consist of an affected landowner, a member of an affected recreational group, and a member selected by the two other members of the arbitration panel. The arbitration panel may accept, reject, or modify the supervisors' finding under subsection (3)(d).

(h) The determination of the arbitration panel is binding upon the landowner and upon all parties that use the water for which the portage is provided. Costs of the arbitration panel, computed as for jurors' fees under 3-15-201, must be borne by the contesting party or parties. All other parties shall bear their own costs.

(i) The determination of the arbitration panel may be appealed within 30 days to the district court.

(j) Once a portage route is established, the public shall use the portage route as the exclusive means to portage around or over the barrier.

(4) This part does not address the issue of natural barriers or portage around the barriers, and this part does not make the portage lawful or unlawful.

The cost of establishing a portage route around artificial barriers not owned by the landowner on whose land the portage route will be placed must be borne by the department"; and made minor changes in style. (a) a public bridge, its right-of-way, and its abutments; and

(b) a county road right-of-way.

(2) When accessing surface waters pursuant to subsection (1), a person shall stay within the road or bridge right-of-way. Absent definition in an easement or deed to the contrary, the width of a bridge right-of-way is the same width as the right-of-way of the road to which the bridge is attached.

(3) The provisions in 7-14-2134, 23-2-313, and this section related to public access to surface waters for recreational use neither create nor extinguish any right related to county roads established by prescriptive use that exist on April 13, 2009.

(4) For purposes of determining liability, a person accessing surface waters for recreational use pursuant to this section is owed no duty by a landowner or an agent or tenant of that landowner other than for an act or omission that constitutes willful or wanton misconduct.

History: En. Sec. 2, Ch. 201, L. 2009.

23-2-313. Fencing for livestock control and public passage — negotiation — costs. (1) At county road bridges for which public access is authorized pursuant to 23-2-312, each fence attached to or abutting a county road bridge edge, guardrail, or abutment for livestock control or for property management pursuant to 7-14-2134(4) must provide for public passage to surface waters for recreational use pursuant to this section.

(2) (a) If a dispute arises regarding public passage pursuant to subsection (1), the department, pursuant to the department's policy in 87-1-229 to work with private land managers to resolve and reduce user conflicts, shall negotiate with the affected landowner regarding the characteristics of an access feature of a legal fence for public passage and livestock control or property management. Examples of an access feature of a legal fence that provides public passage and livestock control or property management may include:

(i) a stile;

(ii) a gate;

(iii) a roller;

(iv) a walkover;

(v) a wooden rail fence that provides for passage; or

(vi) any other method designed for public passage and livestock control or property management.

(b) One access feature, as described in subsection (2)(a), on each side of the stream is sufficient. When practicable, one access feature must be located on the downstream bridge edge, guardrail, or abutment. The department may waive these provisions when one access feature is sufficient.

(c) If the landowner and the department cannot reach agreement within 60 days after the department's initial contact with the landowner for negotiation, the department shall provide the landowner with options for methods to provide public passage while controlling livestock or managing property. If the landowner does not choose one of the method options within 30 days after the options are offered, the department shall choose and then may install one of the method options.

(3) The department, in cooperation with other interested parties, shall provide the materials, installation, and maintenance of any fence modifications necessary to provide public passage as required by this section.

(b) pursue projects that serve to protect, enhance, and restore fisheries habitat, streambank stabilization, erosion control, and recreational values within the Smith River corridor, including Smith River tributaries; and

(c) pursue projects that serve to maintain and enhance instream flows for recognized recreational and aquatic ecosystem values in the Smith River corridor.

History: En. Sec. 7, Ch. 512, L. 1989; amd. Sec. 1, Ch. 86, L. 2005.

23-2-511. Operation of unnumbered motorboats or sailboats prohibited — display of registration and validation decals. (1) A motorboat on the waters of this state that is propelled by a motor or an engine of any description or a sailboat on the waters of this state must be properly numbered and display valid registration and validation decals. A person may not operate or give permission for the operation of any motorboat or sailboat on the waters of this state unless the motorboat or sailboat is numbered and displays valid registration and validation decals in accordance with this part and applicable federal law or with a federally approved numbering system of another state and unless:

(a) the certificate of number assigned to the motorboat or sailboat is in effect;

(b) the identifying number set forth in the certificate of number and the valid license decals are displayed on the motorboat or sailboat; and

(c) a temporary permit has been obtained from the county in which a motorboat is being operated if that county requires a temporary permit for out-of-state motorboats, as provided in 7-16-2121.

(2) Upon transfer of ownership of a motorboat or sailboat, the transferred motorboat or sailboat may be operated on the waters of this state for 40 consecutive calendar days immediately following the transfer of ownership without displaying the registration and validation decals required by subsection (1) if when the motorboat or sailboat is operated during

those 40 consecutive calendar days, a temporary registration permit has been issued under 61-3-224 and is shown to a warden or other officer upon request.

Sec. 2, Ch. 237, L. 2005; amd. Sec. 22, Ch. 596, L. 2005.

23-2-512. Identifying number. (1) The owner of each motorboat, sailboat, or personal watercraft requiring numbering by this state shall file an application for number in the office of the county treasurer in the county where the motorboat, sailboat, or personal watercraft is owned, on forms prepared and furnished by the department of justice. The application must be signed by the owner of the motorboat, sailboat, or personal watercraft and be accompanied by the fee prescribed in 61-3-321(10). Any alteration, change, or false statement contained in the application renders the certificate of number void. Upon receipt of the application in approved form, the county treasurer shall issue to the applicant a certificate of number prepared and furnished by the department of justice, stating the number assigned to the motorboat, sailboat, or personal watercraft and the name and address of the owner. Validation decals verifying the identifying number for each motorboat, sailboat, or personal watercraft must be issued along with the certificate of number and must be displayed on the motorboat, sailboat, or personal watercraft.

(2) The fine for failing to display the validation decals may not be more than the cost incurred by the justice's court.

(3) The department may give only verbal or written warnings until December 31, 2007, for failing to display validation decals in an attempt to educate the boating public.

(4) If the ownership of a motorboat, sailboat, or personal watercraft changes, a new application form with the certification fee must be filed within 40 days with the county treasurer and a new certificate of number assigned in the same manner as provided for in an original assignment of number. New validation decals must be issued simultaneously.

(5) If an agency of the United States government has in force a comprehensive system of identification numbering for motorboats in the United States, the numbering system employed pursuant to this part by the department of justice must be in conformity.

(6) A certificate of number and validation decals issued under this part are effective unless terminated or discontinued in accordance with the provisions of this part. All motorboats, sailboats, or personal watercraft already numbered must exhibit validation decals by December 31, 2005. All validation decals expire on February 28, 2008. Validation decals must be obtained by the expiration date at any regional office of the department or through the department website and are in effect for another 3-year period ending February 28, 2011. The requirement of renewal validation decals must continue in subsequent 3-year periods, and renewal validation decals must be identified by color in accordance with the federal numbering system. Except as provided in 23-2-511(2) and subsection (4) of this section, the operation of a motorboat, sailboat, or personal watercraft is prohibited without current validation decals.

(7) Validation decals must be approximately 3 square inches. The validation decals must be serially numbered in accordance with the federal numbering system and must be displayed on each side of the vessel.

(8) If ownership is transferred, the purchaser shall notify the county treasurer within 40 days of the acquisition of all or any part of the purchaser's interest, other than the creation of a security interest, in a motorboat, sailboat, or personal watercraft numbered in this state or of the loss, theft, destruction, or abandonment of the motorboat, sailboat, or personal watercraft. The transfer, loss, theft, destruction, or abandonment terminates the certificate of number for the motorboat, sailboat, or personal watercraft. Recovery from theft or transfer of a part interest that does not affect the owner's right to operate the motorboat, sailboat, or personal watercraft does not terminate the certificate of number.

(9) A holder of a certificate of number shall notify the county treasurer within a reasonable time if the holder's address no longer conforms to the address appearing on the certificate and shall furnish the county treasurer with the new address. The department of justice may provide by rule for the surrender of the certificate bearing the former address and its replacement with a

certificate bearing the new address or the alteration of an outstanding certificate to show the new address of the holder.

(10) (a) The identifying number assigned must be painted on or attached to each outboard side of the forward half of the motorboat, sailboat, or personal watercraft or, if there are no sides, at a corresponding location on both outboard sides of the foredeck of the motorboat, sailboat, or personal watercraft. The identifying number assigned must read from left to right in Arabic numerals and block characters of good proportion at least 3 inches tall excluding border or trim of a color that contrasts with the color of the background and be so maintained as to be clearly visible and legible. The identifying number may not be placed on the obscured underside of the flared bow where it cannot be easily seen from another vessel or ashore. Numerals, letters, or devices other than those used in connection with the identifying number issued may not be placed in the proximity of the identifying number. Numerals, letters, or devices that might interfere with the ready identification of the motorboat, sailboat, or personal watercraft by its identifying number may not be carried in a manner that interferes with the motorboat's, sailboat's, or personal watercraft's identification. A number other than the identifying number assigned to a motorboat, sailboat, or personal watercraft or granted reciprocity under this part may not be painted, attached, or otherwise displayed on either side of the forward half of the motorboat, sailboat, or personal watercraft. A registration decal issued under this part must be placed next to the identifying number located on the left side of a motorboat, sailboat, or personal watercraft or, if there are no sides, at the corresponding location on the left outboard side of the foredeck of the motorboat, sailboat, or personal watercraft. The validation decal must be placed immediately aft of the registration decal on the left side and immediately aft of the identifying number on the right side of a motorboat, sailboat, or personal watercraft.

(b) The certificate of number must be pocket size and available to federal, state, or local law enforcement officers at all reasonable times for inspection on the motorboat, sailboat, or personal watercraft whenever the motorboat, sailboat, or personal watercraft is on waters of this state.

(c) Boat liveries are not required to have the certificate of number on board each motorboat, sailboat, or personal watercraft, but a rental agreement must be carried on board livery motorboats, sailboats, or personal watercraft in place of the certificate of number.

(11) An owner of a motorboat, sailboat, or personal watercraft shall within a reasonable time notify the department of justice, giving the motorboat's, sailboat's, or personal watercraft's identifying number and the owner's name if the motorboat, sailboat, or personal watercraft is transferred, lost, destroyed, or abandoned or within 60 days after a change of the state of principal use or if a motorboat becomes documented as a vessel of the United States.

(12) The department shall reimburse the department of justice for any programming costs necessary to implement the provisions of this section that are incurred in fiscal year 2005.

(1) covered by a number in effect that has been assigned to it pursuant to federal law or a federally approved numbering system of another state if the motorboat or sailboat has not been within this state for a period in excess of 90 consecutive days. After 90 consecutive days within

this state, this state becomes the state of principal use of the motorboat or sailboat and the owner shall apply for a Montana number, certificate of number, and registration decal.

For this purpose, the county treasurer, upon proof of payment of the registration fee as required by 61-3-321(10), shall issue a registration decal prepared and furnished by the department of justice with all new certificates of number and, if applicable, all renewals of the certificates of number.

(2) (a) The registration decal must be of a style and design prescribed by the department of justice.

23-2-519. Penalty — disposition. (1) Failure to pay the registration fee as provided for in 61-3-321(10) is a misdemeanor, punishable by a fine equal to four times the registration fee that is due on the motorboat, sailboat, personal watercraft, or motorized pontoon for the current year of registration.

(2) All fines collected pursuant to subsection (1) must be distributed in the following ratio:

(a) 50% to the general fund of the county in which the motorboat, sailboat, personal watercraft, or motorized pontoon is issued a certification number; and

23-2-521. Equipment. (1) Every motorboat or vessel must have aboard:

(a) one personal flotation device that is approved by the United States coast guard and that is in good and serviceable condition for each person on board, provided that a person who has not reached 12 years of age must have a life preserver that is approved by the United States coast guard and that is properly fastened to the person when occupying a motorboat or vessel under 26 feet in length while the motorboat or vessel is in motion;

(b) if carrying or using an inflammable or toxic fluid in an enclosure for any purpose and if the motorboat or vessel is not an entirely open one, an efficient natural or mechanical ventilation system prescribed by the department that must be used and be capable of removing resulting gases prior to and during the time the motorboat or vessel is occupied by a person;

(c) hand portable fire extinguishers approved by the United States coast guard, the number of which is to be determined by the department, or a fixed fire extinguishing system that is approved by the United States coast guard, except that motorboats less than 26 feet in length of entirely open construction, propelled by outboard motors, and not carrying passengers for hire need not carry the portable fire extinguishers or fire extinguishing systems.

(2) The carburetor or carburetors of each of the engines of a motorboat or vessel (except outboard motors) that use gasoline as fuel must be equipped with an efficient flame arrester, backfire trap, or other similar device.

(3) (a) Except as provided in subsection (3)(b), the exhaust of an internal combustion engine used on a motorboat or vessel must be muffled either by discharge underwater or by a functioning muffler capable of muffling exhaust noise to 90 dbA or less when measured at a distance of 1 meter from the muffler at idle speed in accordance with the stationary sound level measurement procedure for pleasure motorboats (SAE J2005). The muffler may not be modified or altered, such as by a cutout. The department may require a test at dockside to determine exhaust noise level.

(b) The provisions of subsection (3)(a) do not apply to a motorboat or vessel:

(i) competing in a state-sanctioned regatta or boat race while on trial runs between 9 a.m. and 5 p.m. and during a period not more than 48 hours immediately preceding the regatta or boat race;

(ii) operating under a separate permit issued by the department for the purpose of tuning engines, making test or trial runs, or competing in official trials for speed records other than in connection with regattas or boat races; or

(iii) operated by an authorized agent of federal, state, or local government to carry out the duty of enforcement, search and rescue, firefighting, or research.

(4) (a) Except as provided in subsection (4)(b), a vessel may not be equipped with a siren, and a person may not use or install a siren on a vessel.

(b) An authorized emergency vessel may be equipped with a siren capable of sound audible under normal conditions from a distance of not less than 500 feet, but the siren may be used only when the vessel is operated in response to an emergency call or in the immediate pursuit of an actual or suspected violator of the law, and the operator of the vessel shall sound the siren when necessary to warn persons of the vessel's approach.

(7) Vessels, including houseboats and floating cabins, equipped with a galley or toilet must have a wastewater holding system sealed to prevent the discharge of water-carried waste products, whether treated or untreated, into the surrounding waters.

(8) The department may adopt rules modifying the equipment requirements contained in this section to the extent necessary to keep these requirements in conformity with the provisions of the federal navigation and safety laws or with the navigation and safety rules promulgated by the United States coast guard.

(9) A person may not operate or give permission for the operation of a vessel that is not equipped as required by this section.

23-2-522. Discharge of waste from vessel prohibited. (1) A person may not discharge or cause, permit, or allow to be discharged any garbage, refuse, waste, or sewage from any vessel into, upon, or near the waters at a stream, river, or lake within the boundaries of the state of Montana.

(2) The department of environmental quality shall adopt rules to protect water quality and aquatic ecosystems by establishing guidelines for the installation of vessel pumpout facilities.

(3) In adopting the rules, the department shall use these definitions:

(a) "Marine sanitation device" means any equipment on board a vessel that is designed to receive, retain, treat, or discharge sewage and also means any process to treat the sewage.

(b) "Vessel terminal" means a private or public shoreside installation on any waters of Montana that provides mooring, docking, berthing, and other facilities for the use of vessels.

(4) The rules must include standards for the construction, operation, and maintenance of vessel pumpout facilities.

(5) This section may not be construed to require the department to install pumpout facilities without prior legislative approval and an appropriation.

23-2-523. Prohibited operation and mooring — enforcement. (1) A person may not operate or knowingly permit a person to operate a motorboat or vessel or manipulate waterskis, a surfboard, or a similar device or other contrivance in a reckless or negligent manner so as to endanger the life, limb, or property of a person by:

(a) engaging in maneuvers that unreasonably or unnecessarily endanger life, limb, or property, including but not limited to weaving through congested vessel traffic or jumping the wake of another vessel unreasonably or unnecessarily close to the other vessel or when visibility around the other vessel is obstructed and including swerving at the last possible moment to avoid collision, following directly behind a waterskier, speeding in confined or restricted areas, and buzzing or wetting down others, which constitute reckless operation of a vessel;

(b) crossing or jumping the wake of another vessel when within 100 yards of the vessel or within 100 yards of a waterskier being towed by the vessel, except when directly entering or leaving a public or private marina, waterski facility, or other watercraft docking or loading area.

(2) A person may not operate a motorboat, including a sailboat propelled by a motor of any kind, or manipulate waterskis, a surfboard, or a similar device attached to a motorboat while under the influence of alcohol, drugs, or a combination of the two.

(3) It is unlawful for the owner of a motorboat or vessel or a person having the motorboat or vessel in charge or in control to authorize or knowingly permit the motorboat or vessel to be operated by a person who by reason of physical or mental disability is incapable of operating the watercraft under the prevailing circumstances.

(4) A person may not operate or knowingly permit a person to operate a motorboat or vessel at a rate of speed greater than will permit the person, in the exercise of reasonable care, to bring the vessel to a stop within the assured clear distance ahead. However, nothing in this part is intended to prevent the operator of a vessel actually competing in a regatta that is sanctioned by an appropriate governmental unit from attempting to attain high speeds on a marked racing course.

(5) A person may not make a reckless approach to, departure from, or passage by a dock, ramp, diving board, or float.

(6) Skiers being pulled by motorboats must have on their person a United States coast guard approved personal flotation device in good and serviceable condition.

(7) A person may not moor a vessel to buoys or beacons placed in any waters of this state by the authority of the United States, an agency of the United States, or the department or in any manner hang on with a vessel to a buoy or beacon, except in the act of maintenance work on the buoy or beacon, nor may any person deface, remove, or destroy a buoy, beacon, or other authorized navigational marker maintained in the waters of this state.

(8) If an officer whose duty it is to enforce this law observes a vessel being used without sufficient lifesaving or firefighting devices or in an overloaded or other unsafe condition and in the officer's judgment the use creates an especially hazardous condition, the officer may direct the operator to take whatever immediate and reasonable steps would be necessary for the safety of those aboard the vessel, including directing the operator to return to a mooring or launching site and to remain there until the situation creating the hazard is corrected or ended.

(9) The population density and heavy recreational use of certain lakes require a noise standard more restrictive than the standard set in 23-2-526 in order to protect the public health and safety. Unless operated on a river or stream in compliance with a rule adopted under 23-2-521, a person may not operate a motorboat or personal watercraft on Flathead Lake, situated in Lake and Flathead Counties, Echo Lake, situated in Flathead County, or Swan Lake, situated in Lake County, in proximity to the shoreline if the noise emitted is greater than 75 dbA measured at the shoreline in accordance with the shoreline sound level measurement procedure (SAE J1970).

(10) Unless accompanied by a person 18 years of age or older, a person 12 years of age or younger may not operate a motorboat or a personal watercraft that is powered by a motor rated at more than 10 horsepower. A person 13 or 14 years of age may not operate a vessel or personal watercraft powered by a motor rated at more than 10 horsepower without possessing a valid Montana motorboat operator's safety certificate or evidence of completion of a Montana-approved water safety course or unless accompanied by a person 18 years of age or older.

(11) A person who owns or has charge or control of a motorboat or personal watercraft powered by a motor rated at more than 10 horsepower may not authorize or knowingly permit the motorboat or personal watercraft to be operated:

(a) by a person 12 years of age or younger unless accompanied by a person 18 years of age or older; or

(b) by a person 13 or 14 years of age unless the person possesses a valid Montana motorboat operator's safety certificate or evidence of completion of a Montana-approved water safety course or is accompanied by a person 18 years of age or older.

(12) A person may not rent a motorboat or a personal watercraft powered by a motor rated at more than 10 horsepower to a person under 18 years of age.

23-2-524. Passing rule and right-of-way. (1) When two vessels are approaching each other "head on" or nearly so (so as to involve risk of collision), each vessel shall bear to the right and pass the other vessel on its left side.

(2) When vessels approach each other obliquely or at right angles, the vessel approaching on the right side has the right-of-way.

(3) One vessel may overtake another on either side but shall grant right-of-way to the overtaken vessel.

(4) When a sailboat and motorboat are operating as to involve a risk of collision with each other, the motorboat shall yield the right-of-way to the sailboat in all cases.

History: En. Sec. 9, Ch. 285, L. 1959; R.C.M. 1947, 69-3509.

23-2-525. Restricted areas. (1) A person may not anchor a vessel or other obstacle for fishing or pleasure purposes on any body of water over which the state has jurisdiction in a position that obstructs a passageway ordinarily used by other vessels.

(2) A person may not operate a pleasure vessel within 20 feet of the exterior boundary of a water area that is clearly marked by buoys or some other distinguishing device as a bathing or swimming area. Swimming areas must be marked with white buoys having international orange markings in conformance with the uniform state waterway marking system by the owners of the areas.

(3) A person may not operate a vessel within 75 feet of a person engaged in fishing or hunting waterfowl, unless unavoidable. If unavoidable, the vessel must be operated at not greater than no-wake speed or at a minimum speed necessary to maintain upstream progress while within 75 feet of the person engaged in fishing or hunting waterfowl.

(4) (a) A person may not purposely, knowingly, or negligently operate a motorboat upon the waters of this state within 200 feet of a tow-float or buoy displaying a "diver-down" symbol, red with a white slash, on a flag.

(b) The motorboat may enter the 200-foot safety zone by use of sail or oar. In an emergency or if there is insufficient water on either side of the 200-foot safety zone to pass by and stay out of the zone, the operator may use power within the zone but may not exceed no-wake speed. The burden of proving that an emergency exists or that there is insufficient water is on the operator.

(c) The fish and wildlife commission may by rule determine areas where establishment of a 200-foot safety zone is not allowed in order to provide for diver safety or the regulation of water traffic.

23-2-526. Overloading — overpowering — noise limitations. (1) No vessel shall be loaded with passengers or cargo beyond its safe carrying capacity, taking into consideration weather and other normal operating conditions.

(2) No vessel shall be equipped with any motor or other propulsion machinery beyond its safe power capacity, taking into consideration the type and construction of such watercraft and other existing operating conditions.

(3) Except as provided in 23-2-523(9), for the purposes of 45-8-101 and 45-8-111, the operation of a motorboat or personal watercraft that emits noise in excess of 86 dbA when measured at a distance of 50 feet or emits exhaust noise in excess of 90 dbA measured 1 meter from the muffler at idle speed in accordance with the stationary sound level measurement procedure for pleasure motorboats (SAE J2005) is presumed to be a public nuisance and constitute disorderly conduct, except when otherwise lawfully operated under a motorboat racing permit issued by a political subdivision of the state.

23-2-527. Collisions, accidents, and casualties. (1) The operator of a vessel involved in a collision, accident, or other casualty, so far as the operator can do so without serious danger to the operator's own vessel, crew, and passengers, shall render to other persons affected by the collision, accident, or other casualty assistance that may be practicable and that may be necessary in order to save them from or minimize any danger caused by the collision, accident, or other casualty. The operator shall give the operator's name, address, and identification of the operator's vessel in writing to any person injured and to the owner or person in control of any property damaged in the collision, accident, or other casualty.

(2) The department shall prepare and distribute to each sheriff's office and each game warden of this state a standardized accident report form. A person involved in a collision, accident, or other casualty involving a death, disappearance, personal injury, or property damage in excess of $100 shall immediately report the collision, accident, or other casualty to the sheriff's office or game warden of the county in which the collision, accident, or casualty occurred and fill out a standardized accident report form.

(3) A sheriff advised of a collision, accident, or other casualty reported under this part shall:

(a) conduct an appropriate investigation of the collision, accident, or other casualty; and

(b) prepare and submit a report of the results of the investigation, together with the completed standardized accident report forms, to the department.

(2) Risks inherent in the sport of off-highway operation include variations in terrain, surface or subsurface conditions, crevices, ravines, streams, poor visibility, rocks, trees, other forms of forest growth or debris, and any other natural hazard.

(3) An off-highway vehicle operator is responsible for:

(a) knowing the range of the operator's ability to navigate any slope, trail, or area for off-highway vehicle use within the limits of the operator's ability, taking into consideration the conditions;

(b) maintaining control of speed and course at all times while operating the off-highway vehicle;

(4) (a) Except as provided in subsection (4)(b), a person who operates an off-highway vehicle when allowed under subsection (2) must have in the person's possession a license to drive a motor vehicle issued under Title 61, chapter 5.

(b) An operator is exempt from the requirement to possess a license when operating an off-highway vehicle as allowed under subsection (2) if the person:
